a worn path: Life is a journey - an interpretation of Eudora Welty's "A Worn Path" Franziska Höfer, 2003-12-11 Seminar paper from the year 2002 in the subject American Studies - Literature, grade: 2,3 (B), <http://www.uni-jena.de/> (Institut für Anglistics/American Studies), language: English, abstract: "A Worn Path" written by Eudora Welty was first published within her volume of short stories "A Curtain of Green" in 1941.¹ It is a story about life in its purest naturalism. Welty's main character is the old Negro woman Phoenix Jackson. With her tremendous self-sacrifice and the love for her little grandson she frequently goes on an adventurous journey from the old Natchez Trace into town to get some medicine for her grandchild who swallowed lye some years ago and is frequently suffering from sore throat. But more than one could think of the story is a metaphor for the way of life that everyone of us has to go. The story's path expresses the hard journey of life – the journey, even Eudora Welty speaks about when being asked about the unsolved fate of the grandson: "But it is the journey, the going of the errand, that is the story, and the question is not whether the grandchild is in reality alive or dead."² This can be easily compared to the path of life and to the fact that it's result is less important than the path itself. ¹ Kreyling, Michael. a worn path: Resisting History Barbara Ladd, 2012-01-02 In a major reinterpretation, Resisting History reveals that women, as subjects of writing and as writing subjects themselves,

played a far more important role in shaping the landscape of modernism than has been previously acknowledged. Here Barbara Ladd offers powerful new readings of three southern writers who reimagined authorship between World War I and the mid-1950s. Ladd argues that the idea of a new woman -- released from some of the traditional constraints of family and community, more mobile, and participating in new contractual forms of relationality -- precipitated a highly productive authorial crisis of gender in William Faulkner. As new women themselves, Zora Neale Hurston and Eudora Welty explored the territory of the authorial sublime and claimed, for themselves and other women, new forms of cultural agency. Together, these writers expose a territory of female suffering and aspiration that has been largely ignored in literary histories. In opposition to the belief that women's lives, and dreams, are bound up in ideas of community and pre-contractual forms of relationality, Ladd demonstrates that all three writers -- Faulkner in *As I Lay Dying*, Welty in selected short stories and in *The Golden Apples*, and Hurston in *Tell My Horse* -- place women in territories where community is threatened or nonexistent and new opportunities for self-definition can be seized. And in *A Fable*, Faulkner undertakes a related project in his exploration of gender and history in an era of world war, focusing on men, mourning, and resistance and on the insurgences of the masses -- the feminized others of history -- in order to rethink authorship and resistance for a totalitarian age. Filled with insights and written with obvious passion for the subject, *Resisting History* challenges received ideas about history as a coherent narrative and about the development of U.S. modernism and points the way to new histories of literary and cultural modernisms in which the work of women shares center stage with the work of men.

a worn path: Thirteen Stories Eudora Welty, 1965-03-17 "I've read her *Thirteen Stories* many times, and I'm always awed by how much comedy, pathos, satire and lyricism she manages to squeeze into her stories." —Sue Monk Kidd A strong sense of place—in this case Mississippi—along with often larger-than-life characterizations of ordinary folk with all their glorious eccentricities and foibles, and above all a completely distinctive voice, come together in Eudora Welty's fiction to offer us a world that is sometimes sad, sometimes comic, often petty, and always compassionate. Here is a baker's dozen of Welty's very best, including: "The Wide Net," in which a pregnant wife threatens to drown herself, despite fear of the water, and a communal dragging of the river turns into a celebratory fish-fry; "Petrified Man," revealing the savagery of small-town gossip; "Powerhouse," Welty's prose answer to jazz improvisation and the emotional heart of the blues; and "Why I Live at the P.O.," the hilariously one-sided testimony of a postmistress who believes herself wronged by her family. With her highly tuned ear and sharp insight into human behavior, Eudora Welty has crafted stories as vital and unpredictable as they are artful and enduring. "Miss Welty has written some of the finest short stories of modern times." —The New York Times "Eudora Welty is one of our purest, finest, gentlest voices." —Anne Tyler

a worn path: Sacral Grooves, Limbo Gateways Keith Cartwright, 2013 "We're seeing people that we didn't know exist," the director of FEMA acknowledged in the wake of Hurricane Katrina. *Sacral Grooves, Limbo Gateways* offers a corrective to some of America's institutionalized invisibilities by delving into the submerged networks of ritual performance, writing, intercultural history, and migration that have linked the coastal U.S. South with the Caribbean and the wider Atlantic world. This interdisciplinary study slips beneath the bar of rigid national and literary periods, embarking upon deeper—more rhythmic and embodied—signatures of time. It swings low through ecologies and symbolic orders of creolized space. And it reappraises pluralistic modes of knowledge, kinship, and authority that have sustained vital forms of agency (such as jazz) amid abysses of racialized trauma. Drawing from Haitian Vodou and New Orleanian Voodoo and from Cuban and South Floridian Santería, as well as from Afro-Baptist (Caribbean, Geechee, and Bahamian) models of encounters with otherness, this book reemplaces deep-southern texts within the counterclockwise ring-stepping of a long Afro-Atlantic modernity. Turning to an orphan girl's West African initiation tale to follow a remarkably traveled body of feminine rites and writing (in works by Paule Marshall, Zora Neale Hurston, Lydia Cabrera, William Faulkner, James Weldon Johnson, and LeAnne Howe, among others), Cartwright argues that only in holistic form, emergent from gulfs of cross-cultural witness, can literary and humanistic authority find legitimacy. Without such grounding, he contends, our educational institutions blind and even poison students, bringing them to "swallow lye," like the grandson of Phoenix Jackson in Eudora Welty's "A Worn Path." Here, literary study may open pathways to alternative medicines—fetched by tenacious avatars like Phoenix (or an orphan Kumba or a shell-shaking Turtle)—to remedy the lies our partial histories have made us swallow.

a worn path: New Essays on Eudora Welty, Class, and Race Harriet Pollack, 2019-11-29 Contributions by Jacob Agner, Susan V. Donaldson, Sarah Gilbreath Ford, Stephen M. Fuller, Jean C. Griffith, Ebony Lumumba, Rebecca Mark, Donnie McMahan, Kevin Murphy, Harriet Pollack, Christin Marie Taylor, Annette Trefzer, and Adrienne Akins Warfield The year 2013 saw the publication of Eudora Welty, Whiteness, and Race, a collection in which twelve critics changed the conversation on Welty's fiction and photography by mining and deciphering the complexity of her responses to the Jim Crow South. The thirteen diverse voices in *New Essays on Eudora Welty, Class, and Race* deepen, reflect on, and respond to those seminal discussions. These essays freshly consider such topics as Welty's uses of African American signifying in her short stories and her attention to public street performances interacting with Jim Crow rules in her unpublished photographs. Contributors discuss her adaptations of gothic plots, haunted houses, Civil War stories, and film noir. And they frame Welty's work with such subjects as Bob Dylan's songwriting, the idea and history of the orphan in America, and standup comedy. They compare her handling of whiteness and race to other works by such contemporary writers as William Faulkner, Richard Wright, Toni Morrison, Chester Himes, and Alice Walker. Discussions of race and class here also bring her masterwork *The Golden Apples* and her novel *Losing Battles*, underrepresented in earlier conversations, into new focus. Moreover, as a group these essays provide insight into Welty as an innovative craftswoman and modernist technician, busily altering literary form with her frequent, pointed makeovers of familiar story patterns, plots, and genres.

a worn path: *Embodied Narration* Heike Hartung, 2018-08-07 Do liminal embodied experiences such as illness, death and dying affect literary form? In recent years, the concept of embodiment has been theorized from various perspectives. Gender studies have been concerned with the cultural implications of embodiment, arguing to move away from viewing the body as a prediscursive phenomenon to regarding it as an acculturated body. Age studies have extended this view to the embodied experience of ageing, while drawing attention to the ways in which the ageing body, through its materiality and plasticity, restricts the possibilities of (de)constructing subjectivity. These current debates on embodiment find a strong counterpart in literary representation. The contributions to this anthology investigate how and to what extent physical borderline experiences affect literary form.
