Kirkpatrick, Thomas K. Perry, 2005-11-01 In 1905 Lawrence Peter Hollis went to Springfield, Massachusetts, before beginning his job as the secretary of the YMCA at Monaghan Mill in Greenville, South Carolina. While there, he met James Naismith, the inventor of basketball, and learned of the fledgling game. Armed with Dr. Naismith's rules of the game and a basketball he bought in New York, Hollis returned to the mill and changed the face of athletics in South Carolina. Lawrence Peter Hollis was one of the first to introduce basketball south of the Mason-Dixon line, and the game quickly gained popularity in the textile mill villages throughout South Carolina. In 1921 Hollis and others organized a tournament to determine the best mill team, and thus the southern Textile Basketball Tournament was born. Over the years, some of the south's top cage talent played in the tourney, including Smokey Barbare, Lucille Foster Thomas, Bert Hill, Earl Wooten, Billy

Cunningham, Pete Maravich, Sue Vickers and Tree Rollins. Decade-by-decade, the history of one of the longest running basketball tournaments is provided, along with profiles of many prominent participants. Full rosters for all teams in all tournaments are given in the appendices, along with all-tournament selections and members of the Southern Textile Athletic Hall of Fame.

aaron mckinney basketball: ACC Basketball J. Samuel Walker, 2011-11-15 Since the inception of the Atlantic Coast Conference, intense rivalries, legendary coaches, gifted players, and fervent fans have come to define the league's basketball history. In ACC Basketball, J. Samuel Walker traces the traditions and the dramatic changes that occurred both on and off the court during the conference's rise to a preeminent position in college basketball between 1953 and 1972. Walker vividly re-creates the action of nail-biting games and the tensions of bitter recruiting battles without losing sight of the central off-court questions the league wrestled with during these two decades. As basketball became the ACC's foremost attraction, conference administrators sought to field winning teams while improving academic programs and preserving academic integrity. The ACC also adapted gradually to changes in the postwar South, including, most prominently, the struggle for racial justice during the 1960s. ACC Basketball is a lively, entertaining account of coaches' flair (and antics), players' artistry, a major point-shaving scandal, and the gradually more evenly matched struggle for dominance in one of college basketball's strongest conferences.

aaron mckinney basketball: *The Book of Matt* Stephen Jimenez, 2013-09-24

"Methamphetamine was a huge part of this case . . . It was a horrible murder driven by drugs." — Prosecutor Cal Rerucha, who convicted Matthew Shepard's killers On the night of October 6, 1998, twenty-one-year-old Matthew Shepard left a bar with two alleged "strangers," Aaron McKinney and Russell Henderson. Eighteen hours later, Matthew was found tied to a log fence on the outskirts of town, unconscious and barely alive. Overnight, a politically expedient myth took the place of important facts. By the time Matthew died a few days later, his name was synonymous with anti-gay hate. *The Book of Matt*, first published in 2013, demonstrated that the truth was in fact far more complicated – and daunting. Stephen Jimenez's account revealed primary documents that had been under seal, and gave voice to many with firsthand knowledge of the case who had not been heard from, including members of law enforcement. In his Introduction to this updated edition, journalist Andrew Sullivan writes: "No one wanted Steve Jimenez to report this story, let alone go back and back to Laramie, Wyoming, asking awkward questions, puzzling over strange discrepancies, re-interviewing sources, seeking a deeper, more complex truth about the ghastly killing than America, it turned out, was prepared to hear. It was worse than that, actually. Not only did no one want to hear more about it, but many were incensed that the case was being re-examined at all." As a gay man Jimenez felt an added moral imperative to tell the story of Matthew's murder honestly, and his reporting has been thoroughly corroborated. "I urge you to read [*The Book of Matt*] carefully and skeptically," Sullivan writes, "and to see better how life rarely fits into the neat boxes we want it to inhabit. That Matthew Shepard was a meth dealer and meth user says nothing that bad about him, and in no way mitigates the hideous brutality of the crime that killed him; instead it shows how vulnerable so many are to the drug's escapist lure and its astonishing capacity to heighten sexual pleasure so that it's the only thing you want to live for. Shepard was a victim twice over: of meth and of a fellow meth user."

aaron mckinney basketball: A Soaring Season Aaron Bracy, 2025-03-01 "The 2003-04 season was a dream for anyone in the orbit of Saint Joseph's basketball. Being a student on Hawk Hill at the time, I lived every second of it, and long assumed I knew everything imaginable about that team and that time. Aaron Bracy proved otherwise. A Soaring Season isn't only a joyous echo of those days, but it's a deeply reported dive into all the coincidental circumstances required for ordinary people to go extraordinary places. — Brendan Quinn, The Athletic In the 2003-04 season, Saint Joseph's became the most unlikely and most incredible story in college basketball. The underdog Hawks captivated the entire city of Philadelphia and much of the nation with a unique, guard-oriented style and team-first mentality featuring players who were not wanted by power conferences. Big-time programs passed over star point guard Jameer Nelson because of his height, but Nelson played an oversized, sensational game that dwarfed his 5 feet, 11 inches height. Nelson's backcourt mate, Delonte West, was a lightly recruited prospect out of high school but transformed himself into an NBA first-round draft pick with a work ethic and competitive drive that never had been seen before or since on Hawk Hill. Outspoken head coach Phil Martelli—overlooked for the only job he had ever wanted until he was nearly 41 years old—surrounded Nelson and West with a perfect cast of complementary players. Individually, none of Nelson and West's teammates would be mentioned as an All-American candidate. Put all of the Hawks together, however, and you had a practically unstoppable force. Not only did the players accept their roles, they relished them. And each one's contribution, from Nelson and West all the way down to former cheerleader and walk-on Robert Hartshorn, was crucial to the entire team's success. The Hawks, spurred on by a mascot who never stops flapping its wings and a never-quit school mantra—The Hawk Will Never Die—played their games in a gym that wasn't even as modern as many high schools. Not much about the Hawks' home felt big-time—not much, that is, except their team. It was this low-budget, mom-and-pop men's basketball program that overcame seemingly insurmountable odds to complete a perfect regular season, rise to the unanimous No. 1 ranking in the country, and become the envy of the blue bloods of the sport. St. Joe's provided hope then and today by reminding everyone that you don't have to be the biggest to beat the biggest or have the best to be the best.
