

allen guelzo politics

allen guelzo politics represents a significant intersection between historical scholarship and contemporary political discourse. Allen Guelzo, a renowned historian specializing in American history, particularly the Civil War and Abraham Lincoln, offers insights that often resonate within political discussions and debates. His analyses frequently explore themes of governance, ideology, and moral philosophy, which contribute to a deeper understanding of political dynamics both past and present. This article examines Allen Guelzo's engagement with politics, highlighting his scholarly contributions, perspectives on political ideologies, and impact on public discourse. By exploring his work, readers gain an appreciation for how historical context shapes current political thought. The following sections will address Guelzo's academic background, his interpretations of political history, his influence on modern political debates, and his role in shaping conservative political thought.

- Academic Background and Expertise of Allen Guelzo
- Allen Guelzo's Interpretations of Political History
- Impact of Allen Guelzo on Contemporary Political Discourse
- Allen Guelzo and Conservative Political Thought
- Public Engagements and Writings on Politics

Academic Background and Expertise of Allen Guelzo

Allen Guelzo is a distinguished American historian whose expertise centers on the Civil War era, Abraham Lincoln, and 19th-century American political history. He holds a Ph.D. in history and has served as a professor at multiple institutions, contributing extensively to scholarly research and public understanding of American political development. His academic background provides a strong foundation for his analyses of political ideologies and historical governance.

Educational Qualifications

Guelzo completed advanced degrees in history, focusing on American political and intellectual history. His rigorous academic training enables him to approach political topics with scholarly precision and depth.

Professional Roles and Contributions

Throughout his career, Guelzo has held positions that allowed him to research and teach American history, emphasizing the political contexts of the Civil War. His numerous publications demonstrate a commitment to exploring the political and moral complexities of historical events.

Allen Guelzo's Interpretations of Political History

Central to Allen Guelzo's politics is his interpretation of political history, especially regarding the causes and consequences of the Civil War. Guelzo's work often challenges simplified narratives and encourages nuanced understanding of political ideologies and leadership during critical periods.

Analysis of Abraham Lincoln's Political Philosophy

Guelzo extensively analyzes Lincoln's political thought, portraying him as a pragmatic yet principled leader. He emphasizes Lincoln's commitment to the Union and the abolition of slavery as intertwined political goals shaped by constitutional and moral considerations.

Views on Slavery and Political Conflict

Guelzo presents the political conflict over slavery as a complex interplay of ideology, economics, and constitutional law. His scholarship highlights how these factors influenced political parties, electoral politics, and national governance during the 19th century.

Impact of Allen Guelzo on Contemporary Political Discourse

Allen Guelzo's work extends beyond academia into contemporary political conversations, where historical perspectives inform discussions on governance, civil rights, and political ideology. His interpretations provide frameworks for understanding current political challenges through a historical lens.

Contributions to Political Education

Guelzo's lectures, books, and essays serve as educational tools that help politicians, scholars, and the public grasp the historical roots of political issues. His clear articulation of complex historical events fosters informed

political debate.

Influence on Political Commentary

His analyses often appear in political commentary, where he provides context for debates related to constitutionalism, federalism, and political morality. This influence reinforces the importance of historical knowledge in shaping political opinions.

Allen Guelzo and Conservative Political Thought

Allen Guelzo is frequently associated with conservative intellectual circles due to his emphasis on constitutional originalism and American exceptionalism. His perspectives align with conservative approaches to interpreting history and politics, particularly regarding the preservation of constitutional principles.

Emphasis on Constitutional Originalism

Guelzo advocates for understanding the U.S. Constitution based on the framers' original intent, a stance commonly embraced by conservative scholars. This approach informs his critiques of modern political developments that he views as departures from foundational principles.

Promotion of American Exceptionalism

His writings often celebrate America's unique political heritage and the moral leadership exemplified by figures like Lincoln. This viewpoint underlines the belief in the nation's special role in promoting liberty and justice.

Public Engagements and Writings on Politics

Beyond academic publications, Allen Guelzo actively participates in public discourse through lectures, essays, and media appearances. These engagements allow him to reach broader audiences and influence public understanding of political history and its relevance today.

Books and Essays Addressing Political Themes

Guelzo's books often intertwine historical narrative with political analysis, making complex issues accessible and engaging. His essays frequently address contemporary political questions, drawing lessons from history to inform

current debates.

Lectures and Media Participation

He regularly delivers lectures and participates in panel discussions that explore the intersections of history and politics. These public forums provide platforms for disseminating his views on political governance, leadership, and constitutional issues.

Key Themes in Allen Guelzo's Political Analysis

Several recurring themes characterize Allen Guelzo's politics, reflecting his comprehensive approach to understanding political dynamics.

- **Moral Leadership:** The importance of ethical considerations in political decision-making.
- **Constitutional Integrity:** Upholding the principles of the U.S. Constitution as a guiding framework.
- **Historical Context:** Using history to inform and contextualize modern political issues.
- **Federalism and Union:** The balance between state and federal powers and the significance of national unity.
- **Political Ideology:** Exploration of the ideological foundations that shape political parties and policies.

Frequently Asked Questions

Who is Allen Guelzo and what is his role in politics?

Allen Guelzo is a prominent American historian and scholar known for his expertise on the Civil War and Abraham Lincoln. While he is not a politician, his work often intersects with political history and public discourse on political topics.

What political perspectives does Allen Guelzo typically express?

Allen Guelzo is known for his conservative-leaning interpretations of

American history, particularly regarding the Civil War and Lincoln. He often emphasizes the importance of constitutional principles and the moral complexities of political decisions during that era.

Has Allen Guelzo been involved in any recent political debates or discussions?

Allen Guelzo frequently participates in public lectures, debates, and media appearances where he discusses historical context relevant to current political issues, such as federalism, civil rights, and the legacy of Abraham Lincoln.

What is Allen Guelzo's stance on modern political movements?

While Allen Guelzo primarily focuses on historical analysis, he has commented on modern political movements by drawing parallels with historical events, often advocating for a nuanced understanding of political change and the importance of historical context.

How does Allen Guelzo's scholarship influence contemporary political thought?

Guelzo's scholarship provides a detailed and researched perspective on key moments in American political history, influencing contemporary political thought by informing debates on government power, civil rights, and national identity.

Where can I find Allen Guelzo's writings or talks related to politics?

Allen Guelzo's writings can be found in books, academic journals, and online articles. He also delivers talks and participates in panel discussions available on platforms like YouTube, university websites, and podcasts focusing on history and politics.

Additional Resources

1. Lincoln and the Politics of Abolition

This book explores Allen Guelzo's analysis of Abraham Lincoln's political strategies aimed at ending slavery. It delves into Lincoln's nuanced approach to abolition, balancing moral imperatives with political realities. Guelzo presents Lincoln as a pragmatic leader whose policies evolved in response to the turbulent political landscape of his time.

2. The Conservative Foundations of American Politics

In this work, Guelzo examines the roots of American conservatism and its

influence on the nation's political development. He traces how conservative principles have shaped governance and political discourse from the founding era to the modern day. The book offers insights into the enduring tension between progressivism and conservatism in U.S. politics.

3. *Politics and the Civil War: A Study in Political Leadership*

Guelzo analyzes the critical political decisions and leadership styles that defined the Civil War era. The book highlights the challenges faced by political figures in maintaining unity and managing conflicting interests. Through detailed case studies, Guelzo illustrates how politics influenced military and social outcomes during the conflict.

4. *The Political Theology of the Founding Fathers*

This book investigates the religious and philosophical ideas that shaped the political ideologies of America's Founding Fathers. Guelzo discusses how these beliefs informed the Constitution and early American political institutions. The work sheds light on the interplay between theology and politics in the nation's origins.

5. *Reconstruction and the Politics of Reconciliation*

Guelzo offers a comprehensive overview of the political struggles during the Reconstruction era following the Civil War. The book examines efforts to reconcile the North and South while addressing the rights of newly freed African Americans. It provides a critical assessment of the successes and failures of Reconstruction policies.

6. *The Politics of Memory: How History Shapes American Identity*

This title explores the role of historical memory in American political culture. Guelzo discusses how collective remembrance and interpretation of past events influence political ideologies and public policy. The book emphasizes the power of history in shaping national identity and political debates.

7. *Slavery, Freedom, and Political Thought in Antebellum America*

Guelzo investigates the complex political discourse surrounding slavery and freedom before the Civil War. The book analyzes the competing ideologies and political movements that defined the era. It highlights how these debates set the stage for the eventual conflict and transformation of American politics.

8. *Political Leadership and Moral Conviction in American History*

This book focuses on the interplay between ethical beliefs and political decision-making throughout U.S. history. Guelzo presents case studies of leaders who navigated moral dilemmas in times of crisis. The work underscores the significance of personal conviction in shaping political outcomes.

9. *Federalism and Political Power in the Early Republic*

Guelzo examines the development of federalism and its impact on political authority in the early United States. The book discusses debates over state versus federal power and their implications for governance. It provides a detailed account of how these early political conflicts influenced the trajectory of American democracy.

allen guelzo politics: Abraham Lincoln Allen C. Guelzo, 1999 This biography of the sixteenth president explores Lincoln's life and political career along with insights into his philosophy, religious views, and moral character.

allen guelzo politics: *Lincoln and Douglas* Allen C. Guelzo, 2008 fill in

allen guelzo politics: *Abraham Lincoln, 2nd Edition* Allen C. Guelzo, 2022-11-08 The story of Abraham Lincoln's faith and intellectual life—updated and revised with a new preface—from the three-time winner of the Lincoln Prize and best-selling Civil War-era historian Allen Guelzo. Allen Guelzo's peerless account of America's most celebrated president explores the role of ideas in Lincoln's life, treating him as a serious thinker deeply involved in the nineteenth-century debates over politics, religion, and culture. Through masterful and original scholarly work, Guelzo relates the outward events of Lincoln's life to his inner spiritual struggles and sets them both against the intellectual backdrop of his age. The sixteenth president emerges as a creative yet profoundly paradoxical man—possessed of deep moral and religious character yet without adherence to organized religion. Since its original publication in 1999, *Abraham Lincoln: Redeemer President* has garnered numerous accolades, not least the prestigious Lincoln Prize. After writing several other acclaimed studies of Lincoln and other aspects of Civil War-era history, Guelzo returns to update this important early work for a second edition. A new preface addresses the developments in Lincoln scholarship in the years since the book's original publication and offers Guelzo's fascinating retrospective look at the unusual path he took to becoming a Lincoln scholar.

allen guelzo politics: Abraham Lincoln as a Man of Ideas Allen C. Guelzo, 2016-12-29 Despite the most meager of formal educations, Lincoln had a tremendous intellectual curiosity that drove him into the circle of Enlightenment philosophy and democratic political ideology. And from these, Lincoln developed a set of political convictions that guided him throughout his life and his presidency. This compilation of ten essays from Lincoln scholar Allen C. Guelzo uncovers the hidden sources of Lincoln's ideas and examines the beliefs that directed his career and brought an end to slavery and the Civil War.

allen guelzo politics: The Political Ethics of Public Service Vera Vogelsang-Coombs, 2016-05-05 This book provides a defense of democratic politics in American public service and offers the political ethics of public service as a realistic and optimistic alternative to the cynical American view toward politics and public service. The author's alternative helps career public servants regain public trust by exercising constitutionally centered moral and political leadership that balances the regime values of liberty and equality in governing American society while contributing to the ethical progress of the nation. She identifies three distinct leadership styles of political ethics, enabling career public servants to reconcile their personal loyalties, morality, and consciences with the public and private morality of American society and their constitutional obligations to secure the democratic freedoms of Americans. Recognizing career public servants' moral and institutional struggles, the book proposes a rigorous leadership development program to acclimate individuals to workplace psychological, moral, and political challenges. The view offered here is that career public servants must be a part of, rather than isolated from, American politics to be effective on the job.

allen guelzo politics: *Political Religion Beyond Totalitarianism* J. Augusteijn, P. Dassen, M.

Janse, 2013-01-29 The success of fascist and communist regimes has long been explained by their ability to turn political ideology into a type of religion. These innovative essays explore the notion that all forms of modern mass-politics, including democracies, need a form of sacralization to function.

allen guelzo politics: *Politics and Culture of the Civil War Era* Robert Walter Johannsen, 2006 Robert W. Johannsen, professor emeritus of the University of Illinois at Urbana-Champaign, is one of the leading Jacksonian- and Civil War-era historians of his generation. Works such as his *Stephen A. Douglas* and *To the Halls of the Montezumas* have cemented his place in period scholarship. He also has mentored literally dozens of professional historians. In his honor, eleven of his students have gathered to contribute new essays on the period's history. On display here are cutting-edge examinations of thought and culture in the late Jacksonian era, new considerations of Manifest Destiny, and fascinating interpretations of the lives of the two political giants of the period, Stephen A. Douglas and Abraham Lincoln. Democratic Party politics and Civil War-era religion also come into play.

allen guelzo politics: *A Political History of the USA* Bruce Kuklick, 2019-09-27 This book is an engaging account of US history from the first European contact with the 'New World' to the election of Donald Trump in 2016. Bruce Kuklick's straightforward yet authoritative narrative takes students through the complexities of US history without oversimplifying or requiring prior knowledge. Placing politics in the context of religious culture and exploring America's assertive expansion throughout history, *A Political History of the USA* is supported by wide-ranging examples, vivid extracts from primary sources, maps and illustrations which illuminate the main text. The historical narrative it presents is concise, nuanced and sharply drawn. Offering a compelling yet balanced account of US political, cultural and religious history, this is essential reading for undergraduate students of History and American Studies. New to this Edition: - More emphasis on the religious dimensions of the American story, explaining the continuing relevance of evangelical Christians - A new chapter on the period since 2008 - Incorporation of new research - Discussion of the paradox of modernism and religion in America - A revised bibliography, including more 'classic' works

allen guelzo politics: *Melville's Maritime Politics* David Mence, 2025-10-10 Reading his works in dialogue with Machiavelli, Hobbes, Locke, Rousseau and Kant, *Melville's Maritime Politics: Enlightenment at Sea* offers a new account of Herman Melville (1819-1891) as a major figure in the history of American political thought. Tracing the ship of state metaphor throughout Melville's oeuvre, it charts the evolution of his views on the theory and practice of American democracy, beginning with the Romantic Federalism of Typee and Omoo and ending in the tragic pragmatism of *Battle-Pieces* and *Billy Budd, Sailor*.

allen guelzo politics: *The Political Thought of the Civil War* Alan Levine, Thomas W. Merrill, James R. Stoner, Jr., 2019-08-08 Why does the Civil War still speak to us so powerfully? If we listen to the most thoughtful, forceful, and passionate voices of that day we find that many of the questions at the heart of that conflict are also central to the very idea of America—and that many of them remain unresolved in our own time. *The Political Thought of the Civil War* offers us the opportunity to pursue these questions from a new, critical perspective as leading scholars of American political science, history, and literature engage in some of the crucial debates of the Civil War era—and in the process illuminate more clearly the foundation and fault lines of the American regime. The essays in this volume use practical dilemmas of the Civil War to reveal and probe fundamental questions about the status of slavery and race in the American founding, the tension between moralism and constitutionalism, and the problem of creating and sustaining a multiracial society on the basis of the original principles of the American regime. Adopting a deliberative approach, the authors revisit the words and deeds of the most important political actors of era, from William Lloyd Garrison, John C. Calhoun, and Abraham Lincoln to Alexander Stephens and Frederick Douglass, with reference to the American Founders and the architects of Reconstruction. The essays in this volume consider the difficult choices each of these figures made, the specific problems they were responding to, and the consequences of those choices. As this book exposes and explores the

theoretical principles at play within their historical context, it also offers vivid reminders of how the great controversies surrounding the Civil War continue to shape American political life to this day.

allen guelzo politics: The Soul of Politics Glenn Ellmers, 2023-10-17 WITH A NEW PREFACE BY THE AUTHOR Harry V. Jaffa (1918-2015), professor at Claremont McKenna College and distinguished fellow of the Claremont Institute, was one of the most influential thinkers of the twentieth century. His hundreds of students have reached positions of power and prestige throughout the intellectual and political world, including at the Supreme Court and the Trump White House. Jaffa authored Barry Goldwater's famous 1964 Republican Convention speech, which declared, "Extremism in the defense of liberty is no vice. And moderation in the pursuit of justice is no virtue." William F. Buckley, Jaffa's close friend and a key figure in shaping the modern conservative movement, wrote, "If you think it is hard arguing with Harry Jaffa, try agreeing with him." His widely acclaimed book *Crisis of the House Divided: An Interpretation of the Issues in the Lincoln-Douglas Debates* (1959) was the first scholarly work to treat Abraham Lincoln as a serious philosophical thinker. As the earliest protégé of the controversial scholar Leo Strauss, Jaffa used his theoretical insights to argue that the United States is the "best regime" in principle. He saw the American Revolution and the Civil War as world-historical events that revealed the true nature of politics. Statesmanship, constitutional government, and the virtues of republican citizenship are keys to unlocking the most important truths of political philosophy. Jaffa's student, Glenn Ellmers, was given complete access to Jaffa's private papers at Hillsdale College to produce the first comprehensive examination of his teacher's vast body of work. In addition to Lincoln and the founding fathers, the book shares Jaffa's profound insights into Aristotle, William Shakespeare, Winston Churchill, and more.

allen guelzo politics: Politics for the Greatest Good Clarke Forsythe, 2010-06 With a level-headed voice, leading policy strategist Clarke Forsythe speaks clearly into the fray of political striving. Here he campaigns for a recovery of a rich understanding of the virtue of prudence, and for its application by policymakers and citizens to contemporary public policy. As Forsythe explains, prudence, in its classical sense, is the ability to apply wisdom to right action. In this book he explores the importance of applying the principles of prudence--taking account of limitations in a world of constraints and striving to achieve the greatest measure of justice under current circumstances--to the realm of politics, especially that of bioethics. In particular, Forsythe applies these concepts to the ongoing debate among pro-life advocates regarding gradual versus radical change as the most effective way to achieve political and legislative goals. Drawing on the Bible, philosophy, and the wisdom of historical figures such as Abraham Lincoln and William Wilberforce, he makes a strong case for a strategy of seeking to achieve the maximal change possible at a given time--or political prudence. As such, it has broad implications for political scientists and strategists both within and beyond the pro-life context.

allen guelzo politics: Politics and America in Crisis Michael Green, 2009-12-30 This book unravels the political developments that made the Civil War unavoidable. *Politics and America in Crisis: The Coming of the Civil War* examines the developments between 1846 and 1861 that pushed the nation to war to see what they reveal about the North, the South, the people leading them, and the issues separating them. As shown here, in the decade and a half before the actual outbreak of the war, the mostly southern Democratic Party's fortunes veered from a presidential election victory in 1852 to the shocking loss of Abraham Lincoln in 1860—an event that marked the coming of age of the young antislavery Republican Party. In examining that sharp reversal, *Politics and America in Crisis* covers a wide range of key events, including efforts to ban slavery in territories won in the Mexican-American War, the Dred Scott decision, and John Brown's raids.

allen guelzo politics: The "New-Age America" & President Trump'S Invisible Politics in World Governance Ph.D, 2018-02-19 This book is a policy-review piece. It strives to review some long-standing and herculean issues of concerns within the United States and around the world. It attempts a realistic second look into a few of the delicate and hellacious questions of governance that nations around the world are currently confronted with in this dispensation. It puts special

focus on the realistic examination of some of the difficult choices the United States has made under president Donald Trump's administration. More important is the responsibility to pragmatically recritic some of the policy decisions made, which hosts of oppositions have considered murderous going by the various campaigns and reactions against such stance. The book is no doubt a narrative of concerns for the future of America and, indeed, the global world. It, among other topics, looks into matters of security, international relations and/or international politics, religion, and insurgency and critically attempts a commonsensical discussion on the major problem of immigration and migration. These are among the major issues that have created a lot of brouhaha and hullabaloo within the polity in recent times, especially considering the hardnose disposition of the forty-fifth president of the United States on these matters. In sincere loyalty to truism, this book strives in its analysis to sever itself from the popular mistakes of placing individual benefits above the sociosecurity risks and the future of a nation.

allen guelzo politics: The Political Thought of Frederick Douglass Nicholas Buccola, 2013-07 Frederick Douglass, one of the most prominent figures in African-American and United States history, was born a slave, but escaped to the North and became a well-known anti-slavery activist, orator, and author. In The Political Thought of Frederick Douglass, Nicholas Buccola provides an important and original argument about the ideas that animated this reformer-statesman. Beyond his role as an abolitionist, Buccola argues for the importance of understanding Douglass as a political thinker who provides deep insights into the immense challenge of achieving and maintaining the liberal promise of freedom. Douglass, Buccola contends, shows us that the language of rights must be coupled with a robust understanding of social responsibility in order for liberal ideals to be realized. Truly an original American thinker, this book highlights Douglass's rightful place among the great thinkers in the American liberal tradition.--Pub. website.

allen guelzo politics: The Politicians and the Egalitarians: The Hidden History of American Politics Sean Wilentz, 2016-05-17 One of our most eminent historians reminds us of the commanding role party politics has played in America's enduring struggle against economic inequality. "There are two keys to unlocking the secrets of American politics and American political history." So begins The Politicians & the Egalitarians, Princeton historian Sean Wilentz's bold new work of history. First, America is built on an egalitarian tradition. At the nation's founding, Americans believed that extremes of wealth and want would destroy their revolutionary experiment in republican government. Ever since, that idea has shaped national political conflict and scored major egalitarian victories—from the Civil War and Progressive eras to the New Deal and the Great Society—along the way. Second, partisanship is a permanent fixture in America, and America is the better for it. Every major egalitarian victory in United States history has resulted neither from abandonment of partisan politics nor from social movement protests but from a convergence of protest and politics, and then sharp struggles led by principled and effective party politicians. There is little to be gained from the dream of a post-partisan world. With these two insights Sean Wilentz offers a crystal-clear portrait of American history, told through politicians and egalitarians including Thomas Paine, Abraham Lincoln, and W. E. B. Du Bois—a portrait that runs counter to current political and historical thinking. As he did with his acclaimed The Rise of American Democracy, Wilentz once again completely transforms our understanding of this nation's political and moral character.

allen guelzo politics: Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy Jon D. Schaff, 2019-07-03 This bold, groundbreaking study of American political development assesses the presidency of Abraham Lincoln through the lenses of governmental power, economic policy, expansion of executive power, and natural rights to show how Lincoln not only believed in the limitations of presidential power but also dedicated his presidency to restraining the scope and range of it. Though Lincoln's presidency is inextricably linked to the Civil War, and he is best known for his defense of the Union and executive wartime leadership, Lincoln believed that Congress should be at the helm of public policy making. Likewise, Lincoln may have embraced limited government in vague terms, but he strongly supported effective rule of law and distribution of

income and wealth. Placing the Lincoln presidency within a deeper and more meaningful historical context, *Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy* highlights Lincoln's significance in the development of American power institutions and social movement politics. Using Lincoln's prepresidential and presidential words and actions, this book argues that decent government demands a balance of competing goods and the strong statesmanship that Lincoln exemplified. Instead of relying too heavily on the will of the people and institutional solutions to help prevent tyranny, Jon D. Schaff proposes that American democracy would be better served by a moderate and prudential statesmanship such as Lincoln's, which would help limit democratic excesses. Schaff explains how Lincoln's views on prudence, moderation, natural rights, and economics contain the notion of limits, then views Lincoln's political and presidential leadership through the same lens. He compares Lincoln's views on governmental powers with the defense of unlimited government by twentieth-century progressives and shows how Lincoln's theory of labor anticipated twentieth-century distributist economic thought. Schaff's unique exploration falls squarely between historians who consider Lincoln a protoprogressive and those who say his presidency was a harbinger of industrialized, corporatized America. In analyzing Lincoln's approach, *Abraham Lincoln's Statesmanship and the Limits of Liberal Democracy* rejects the idea he was a revolutionary statesman and instead lifts up Lincoln's own affinity for limited presidential power, making the case for a modest approach to presidential power today based on this understanding of Lincoln's statesmanship. As a counterpoint to the contemporary landscape of bitter, uncivil politics, Schaff points to Lincoln's statesmanship as a model for better ways of engaging in politics in a democracy.

allen guelzo politics: Abraham Lincoln and Liberal Democracy Nicholas Buccola, 2016-03-14 Though Abraham Lincoln was not a political philosopher per se, in word and in deed he did grapple with many of the most pressing and timeless questions in politics. What is the moral basis of popular sovereignty? What are the proper limits on the will of the majority? When and why should we revere the law? What are we to do when the letter of the law is at odds with what we believe justice requires? How is our devotion to a particular nation related to our commitment to universal ideals? What is the best way to protect the right to liberty for all people? The contributors to this volume, a methodologically and ideologically diverse group of scholars, examine Lincoln's responses to these and other ultimate questions in politics. The result is a fascinating portrait of not only Abraham Lincoln but also the promises and paradoxes of liberal democracy. The basic liberal democratic idea is that individual liberty is best secured by a democratic political order that treats all citizens as equals before the law and is governed by the law, with its limits on how the state may treat its citizens and on how citizens may treat one another. Though wonderfully coherent in theory, these ideas prove problematic in real-world politics. The authors of this volume approach Lincoln as the embodiment of this paradox--naturally antislavery yet unflinchingly committed to defending proslavery laws; defender of the common man but troubled by the excesses of democracy; devoted to the idea of equal natural rights yet unable to imagine a harmonious, interracial democracy. Considering Lincoln as he attempted to work out the meaning and coherence of the liberal democratic project in practice, these authors craft a profile of the 16th president's political thought from a variety of perspectives and through multiple lenses. Together their essays create the first fully-dimensional portrait of Abraham Lincoln as a political actor, expressing, addressing, and reframing the perennial questions of liberal democracy for his time and our own.

allen guelzo politics: American Politicians Confront the Court Stephen M. Engel, 2011-06-13 Politicians have long questioned, or even been openly hostile to, the legitimacy of judicial authority, but that authority seems to have become more secure over time. What explains the recurrence of hostilities and yet the security of judicial power? Addressing this question anew, Stephen Engel points to the gradual acceptance of dissenting views of the Constitution, that is, the legitimacy and loyalty of stable opposition. Politicians' changing perception of the threat posed by opposition influenced how manipulations of judicial authority took shape. Engel's book brings our understanding of these manipulations into line with other developments, such as the establishment

of political parties, the acceptance of loyal opposition, the development of different modes of constitutional interpretation and the emergence of rights-based pluralism.

allen guelzo politics: Rhetoric, Materiality, & Politics Barbara A. Biesecker, John Louis Lucaites, 2009 Rhetoric, Materiality, and Politics explores the relationship between rhetoric's materiality and the social world in the late modern political context. Taking as their point of departure a reprint of Michael Calvin McGee's 1982 call to reconceptualize rhetoric as the palpable +experience; of sociality, the authors in this volume grapple anew with the role of communication practices in contemporary collective life. Drawing upon the work of Michel Foucault, Jacques Lacan, and Jacques Derrida, these twelve original essays supplement, extend, and challenge McGee's position, collectively advocating on behalf of a shift in theoretical and critical attention from rhetorical materialism to rhetoric's materiality. --Book Jacket.
