Rehabilitation and Therapy

Rehabilitation is a critical component of recovery, encompassing physical therapy to restore mobility and strength, occupational therapy to regain functional skills, and speech therapy if cognitive or communication impairments are present. annabel beam illness: Miracles from Heaven Christy Wilson Beam, 2015-04-14 Annabel Beam is the youngest of three girls raised in the Texas countryside by loving parents. But what should have been a happy, carefree childhood was blighted when Annabel developed a painful and seemingly incurable digestive disorder. Her parents spared no expense in the search for a cure but medical experts assured them there was none. On a rare day when Annabel felt well enough to play outside, she was climbing an old hollowed-out tree when a branch snapped and she fell, head-first, thirty foot down the inside of the tree. Miraculously, she survived the fall but was knocked unconscious. Rescued and later released from hospital, Annabel told her mother, 'you know I went to heaven when I was in that tree'. Annabel shared with her mother her amazing experience meeting dead relatives and talking to God, who told her that it wasn't her time and that she must go back. What happened next was the greatest miracle of all: Annabel became symptom free. The illness she had suffered from for so long started to abate and her doctors could offer no explanation. Written by Annabel's mother Christy, *Miracles from Heaven* is the story of a little girl's - and a family's - journey. Deeply moving and heartwarming, Christy Beam recounts Annabel's detailed description of her time in heaven. This is the story of how one family never gave up hope.

annabel beam illness: A Spiritual Hypothesis Daniel Punzak, 2017-04-06 Traditional Western religion explains that each human has a spiritual aspect called a soul. However, several passages in the Bible allude to humans having a soul and a spirit. Dan has explored this idea and found numerous modern psychological findings that support this notion. Shamanism and some Eastern religious concepts also support this idea. Diverse concepts such as creativity and mental illness can be explained by the idea that two spiritual forms are in each human.
