animal spirit guide fox: Writing Animals Timothy C. Baker, 2019-01-07 This book surveys a broad range of contemporary texts to show how representations of human-animal relations challenge the anthropocentric nature of fiction. By looking at the relation between language and suffering in twenty-first-century fiction and drawing on a wide range of theoretical approaches, Baker suggests new opportunities for exploring the centrality of nonhuman animals in recent fiction: writing animal lives leads to new narrative structures and forms of expression. These novels destabilise assumptions about the nature of pain and vulnerability, the burden of literary inheritance, the challenge of writing the Anthropocene, and the relation between text and image. Including both well-known authors and emerging talents, from J.M. Coetzee and Karen Joy Fowler to Sarah Hall, Alexis Wright, and Max Porter, and texts from experimental fiction to work for children, Writing Animals offers an original perspective on both contemporary fiction and the field of literary animal studies.

animal spirit guide fox: Göbekli Tepe and the Forgotten Genesis of Civilization LEARN ALCHEMICAL, 2025-09-11 Buried beneath a quiet hill in southeastern Anatolia lay the secret that would rewrite human history. For millennia, shepherds grazed their flocks across Göbekli Tepe — “Potbelly Hill” — unaware that beneath the soil slept the world’s oldest temple. When archaeologists uncovered its towering T-shaped pillars in the 1990s, carved with foxes, vultures, and serpents, they revealed a monument that should not exist: a 12,000-year-old sanctuary built long before farming, cities, or kings. Göbekli Tepe shatters the story we thought we knew. Here, belief came before bread. Monumental stone circles rose centuries before villages, suggesting that ritual and imagination — not mere survival — drove humanity’s first steps toward civilization. Even stranger, after building these sanctuaries, the ancient people who raised them buried them deliberately, sealing their mysteries in silence for ten thousand years. This book is both journey and revelation. It takes you from the windswept limestone ridges of Anatolia to the cosmic imagination of our earliest ancestors. Along the way, you’ll encounter the haunting symbols carved in stone, the feasts that bound clans together, and the profound question that Göbekli Tepe still poses: why did humanity choose to carve eternity from rock before it ever planted its first seeds? With lyrical storytelling and gripping detail, this work invites you into the oldest mystery of all — the forgotten genesis of civilization. Göbekli Tepe is not simply archaeology. It is a question carved into stone, waiting for us to listen.

animal spirit guide fox: The Fox Spirit, the Stone Maiden, and Other Transgender Histories from Late Imperial China Matthew H. Sommer, 2024-03-19 Co-winner, 2025 John Boswell Prize, LGBTQ+ History Association In imperial China, people moved away from the gender they were assigned at birth in different ways and for many reasons. Eunuchs, boy actresses, and clergy left behind normative gender roles defined by family and procreation. “Stone maidens”—women deemed physically incapable of vaginal intercourse—might depart from families or marriages to become Buddhist or Daoist nuns. Anatomical males who presented as women sometimes took a conventionally female occupation such as midwife, faith healer, or even medium to a fox spirit. Yet they were often punished harshly for the crime of “masquerading in women’s attire,” suspected of sexual predation, even when they had lived peacefully in their communities for many years. Exploring these histories and many more, this book is a groundbreaking study of transgender lives and practices in late imperial China. Through close readings of court cases, as well as Ming and Qing fiction and nineteenth-century newspaper accounts, Matthew H. Sommer examines the social, legal, and cultural histories of gender crossing. He considers a range of transgender experiences, illuminating how certain forms of gender transgression were sanctioned in particular social contexts and penalized in others. Sommer scrutinizes the ways Qing legal authorities and literati writers represented and understood gender-nonconforming people and practices, contrasting official ideology with popular mentalities. An unprecedented account of China’s transgender histories, this book also sheds new light on a range of themes in Ming and Qing law, religion, medicine, literature, and culture.
