aswath damodaran online course: *Blitzscaling* Reid Hoffman, Chris Yeh, 2018-10-09
Foreword by Bill Gates LinkedIn cofounder, legendary investor, and host of the award-winning Masters of Scale podcast reveals the secret to starting and scaling massively valuable companies. What entrepreneur or founder doesn't aspire to build the next Amazon, Facebook, or Airbnb? Yet those who actually manage to do so are exceedingly rare. So what separates the startups that get disrupted and disappear from the ones who grow to become global giants? The secret is blitzscaling: a set of techniques for scaling up at a dizzying pace that blows competitors out of the water. The objective of Blitzscaling is not to go from zero to one, but from one to one billion -as quickly as possible. When growing at a breakneck pace, getting to next level requires very different strategies from those that got you to where you are today. In a book inspired by their popular class at Stanford Business School, Hoffman and Yeh reveal how to navigate the necessary shifts and weather the unique challenges that arise at each stage of a company's life cycle, such as: how to design business models for igniting and sustaining relentless growth; strategies for hiring and managing; how the role of the founder and company culture must evolve as the business matures, and more. Whether your business has ten employees or ten thousand, Blitzscaling is the essential playbook for winning in a world where speed is the only competitive advantage that matters.

aswath damodaran online course: Mastering the Science of Organizational Change Martin Reeves, Kevin Whitaker, 2021-02-22 As the business context evolves more rapidly, driven by accelerating technological, political, and social change, an increasing strategic priority for business leaders is how to enact large-scale organizational change. Even companies that are current industry leaders are vulnerable to disruption. Company leaders need to watch over their shoulder for—and transform the company in anticipation of—the next disruption. Mastering the Science of Organizational Change summarizes the work of the BCG Henderson Institute and its fellows and ambassadors over several years to develop a more scientific approach to change. Hundreds of companies are analyzed in the book's discussion on how to beat the odds in large-scale change management using an evidence-based approach—a large-scale analysis of what approaches actually work in which circumstances. Part 1 of the book reviews the imperatives for self-disruption. The second part elaborates on how to manage the process of change. Finally, Part 3 discusses how organizations can take change to the next level. Events around the book [Link to a De Gruyter online event](#) in which, Martin Reeves, Chairman of the BCG Henderson Institute, will share lessons on how to develop a more scientific approach to change including how to self disrupt, how to manage the process of change, and how organizations can take change to the next level:
