baby doll circle time video: Professional and Ethical Consideration for Early Childhood Leaders Cunningham, Denise D., 2020-06-19 Early childhood educators are keenly aware of the importance of a child's transition to "real school." This transition is occurring earlier in a child's life now that school districts nationwide are moving to pre-kindergarten experiences for 3- and 4-year olds. Annually, more than one million children attend public school pre-k programs overseen by elementary school principals who, although veteran educational leaders, were not trained to oversee these programs. Although pre-k classrooms are rapidly growing and deserve special attention, school leaders must be reminded that early childhood means more than pre-kindergarten; it extends through third grade. School leadership needs to understand the principles of early childhood education to effectively support all children age three to grade three. *Professional and Ethical Consideration for Early Childhood Leaders* is a collection of innovative research that crafts an overall understanding of the importance of early childhood leadership in today's schools. The book employs strategies to improve support for children in early childhood years, examines the different roles of early childhood leadership, analyzes best practices for implementation in early childhood contexts, and explores improvements for leadership preparation for schools with pre-k through third-grade children. While highlighting a wide range of topics including advocacy, cultural responses, and professional development, this publication is ideally designed for educators, administrators, principals, early childhood development teachers, daycare instructors, curriculum developers, advocates, researchers, academicians, and students.

As in his highly successful earlier books and in his practice, Greenspan emphasizes the role of emotion, seeking the root of the condition and rebuilding the foundations of healthy development. *Overcoming ADHD* steers away from the pitfalls of labeling, or of simply stamping out symptoms with medication, and demonstrates Greenspan's abiding belief in the growth and individual potential of each child.

baby doll circle time video: Foghorn Vicki DeArmon, 2025-04-01 The heyday of small press publishing in San Francisco lives again This memoir that reads like fiction recounts the never-before-told story of the heyday of small presses in the 1980s and 1990s in San Francisco when Bay Area presses—armed with arrogance and personal computers—took the publishing field. The invention of the desktop computer was akin to the invention of printing press at the end of the Middle Ages, heralding a renaissance in the book business and ushering in a hotbed of creativity recognized even by New York City, the long-held center of all things publishing. In these glory days, presses like Foghorn Press, Nolo Press, Ten Speed Press, Heyday Books, Wilderness Press, New World Library, and Chronicle Books were a just few of many to partner with independent neighborhood bookstores to stage the first San Francisco Bay Area Book Festival which drew 35,000 readers. This is the often comic story of one of those presses and its intrepid publisher, Vicki Morgan. At Foghorn Press, Vicki was 25, young and brash and ambitious. She set out to quixotically build a book publishing company from scratch with her eccentric brother to help. As part of their optimistic Morgan heritage, the siblings employed every strategy they had to grow Foghorn Press with no capital, 100-hour work weeks, cheap beer, irrepressible belly laughs, and no book publishing experience. Over 13 years, they assembled a cast of often preposterous authors and resistant staff while surviving a drunken ex-husband, a con artist, calculating distributors, a fleet of good ol' boys, terrible cash flow, and their own differing aspirations. Books were brought to market and miraculously sold from their offices in the Boiler Room until Foghorn became a resounding success with sales, media, acclaim. But of course, the story doesn't end there.
