behind the net auf deutsch: Behind the Cloud Peter Seele, Lucas Zapf, 2022-03-01 Thoughts are free - but they are no longer secret. Today, our data is automatically stored and analyzed by algorithms "behind the cloud" - where we no longer have control over our data. Our most private and secret information is entrusted to the internet and permanently collected, stacked and linked to our digital twins. With and without our consent. Privacy is dead, as Mark Zuckerberg put it. The question is: How did we get there? And, if the actors behind the cloud know everything: what is still private today, and are there any personal secrets at all when the gods behind the cloud possibly know us better than our friends and family? The book uses a wealth of case studies (e.g. cryptocurrencies, journalism, digital traces of sexual preferences) to develop a typology of privacy in the history of ideas. Furthermore, it shows the areas of life in which big data and artificial intelligence have already made inroads. This book is a translation of the original German 2nd edition

Die Rückseite der Cloud by Peter Seele and Lucas Zapf, published by Springer-Verlag GmbH Germany, part of Springer Nature in 2020. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). A subsequent human revision was done primarily in terms of content, so that the book will read stylistically differently from a conventional translation.

behind the net auf deutsch: *Who Stole the American Dream?* Hedrick Smith, 2013-08-27
Pulitzer Prize winner Hedrick Smith's new book is an extraordinary achievement, an eye-opening account of how, over the past four decades, the American Dream has been dismantled and we became two Americas. In his bestselling *The Russians*, Smith took millions of readers inside the Soviet Union. In *The Power Game*, he took us inside Washington's corridors of power. Now Smith takes us across America to show how seismic changes, sparked by a sequence of landmark political and economic decisions, have transformed America. As only a veteran reporter can, Smith fits the puzzle together, starting with Lewis Powell's provocative memo that triggered a political rebellion that dramatically altered the landscape of power from then until today. This is a book full of surprises and revelations—the accidental beginnings of the 401(k) plan, with disastrous economic consequences for many; the major policy changes that began under Jimmy Carter; how the New Economy disrupted America's engine of shared prosperity, the "virtuous circle" of growth, and how America lost the title of "Land of Opportunity." Smith documents the transfer of \$6 trillion in middle-class wealth from homeowners to banks even before the housing boom went bust, and how the U.S. policy tilt favoring the rich is stunting America's economic growth. This book is essential reading for all of us who want to understand America today, or why average Americans are struggling to keep afloat. Smith reveals how pivotal laws and policies were altered while the public wasn't looking, how Congress often ignores public opinion, why moderate politicians got shoved to the sidelines, and how Wall Street often wins politically by hiring over 1,400 former government officials as lobbyists. Smith talks to a wide range of people, telling the stories of Americans high and low. From political leaders such as Bill Clinton, Newt Gingrich, and Martin Luther King, Jr., to CEOs such as Al Dunlap, Bob Galvin, and Andy Grove, to heartland Middle Americans such as airline mechanic Pat O'Neill, software systems manager Kristine Serrano, small businessman John Terboss, and subcontractor Eliseo Guardado, Smith puts a human face on how middle-class America and the American Dream have been undermined. This magnificent work of history and reportage is filled with the penetrating insights, provocative discoveries, and the great empathy of a master journalist. Finally, Smith offers ideas for restoring America's great promise and reclaiming the American Dream. Praise for *Who Stole the American Dream?* "[A] sweeping, authoritative examination of the last four decades of the American economic experience."—The Huffington Post "Some fine work has been done in explaining the mess we're in. . . . But no book goes to the headwaters with the precision, detail and accessibility of Smith."—The Seattle Times "Sweeping in scope . . . [Smith] posits some steps that could alleviate the problems of the United States."—USA Today "Brilliant . . . [a] remarkably comprehensive and coherent analysis of and prescriptions for America's contemporary economic malaise."—Kirkus Reviews (starred review) "Smith enlivens his narrative with portraits of the people caught up in events, humanizing complex subjects often rendered sterile in economic analysis. . . . The human face of the story is inseparable from the history."—Reuters

behind the net auf deutsch: *Who's Behind the Couch?* Kerry L. Malawista, Robert Winer, 2018-05-11 What is it like to be a working psychoanalyst? And what is it like to be held in the mind of one? These were the questions that led Winer and Malawista to interview seventeen notable analysts from around the world. *Who's Behind the Couch?: The Heart and the Mind of the Psychoanalyst* explores the analyst's mind at work, not so much from a theoretical perspective, but rather from the complexities and richness inherent in every moment-to-moment clinical encounter. As analysts we are all continually challenged to find what might work best with a particular patient.

Yet we don't often hear senior analysts share their personal struggles, feelings, and sensibilities. To understand the internal experience of analysts the authors posed questions such as: What is it like for analysts to manage rough spots, to lose ground and try to recapture it? To feel appreciated and then to feel devalued? To feel betrayed? To feel responsibility for someone's life while working to maintain their own balance?

Lampe, 2024-07-01 This first empirical study on differences between prison ministries in the US and Germany enables a dialogue between chaplains of both countries. What can they learn from each other? What do they have in common – that thus has been transculturally tested? The divergent theological-philosophical backgrounds of the two criminal justice systems are presented along with their different accentuations of retributing punishment and rehabilitating restoration. Religious extremism of inmates and “switching” of religious orientation in prisons are discussed, the roles of volunteers assessed, and promising restoration methods presented – such as the so-called “Circles” or religion-related rehabilitation programs, which have been proven to reduce recidivism by changing inmates’ mindsets. The book examines chaplains’ working styles in ten fields of activity as well as their theological and political leanings, their job satisfaction and factors contributing to overload, their time management, and their “dreams” of what could be done better.

behind the net auf deutsch: *Behind Enemy Lines in France and the Far East* Maxine Harcourt-Kelly, 2025-06-30 In October 1943, Frederick Bailey, a wireless operator who had trained with the Royal Armoured Corps, was selected for Special Operation Executive's wireless training centre at Fawley Court, Henley-on-Thames. It was the start of an incredible wartime career that saw Fred serve behind enemy lines in both the European and Far East theatres. With his training complete, and having adopted the fieldname Rétif, Sergeant Bailey became a member of one of the famous Jedburgh units, Team Citröen. The Jedburghs generally consisted of compact teams of three men, usually an officer, a radio operator and a soldier from the country the team was to be dropped into. Together with Major John Smallwood and Captain Pierre Bloch, a French Foreign Legionnaire, Bailey, as Team Citröen's radio operator, was dropped in into the Lagarde area of the Vaucluse region in German-occupied France by an American aircrew from Algiers during the night of 11/12 August 1944. Their mission was to support the local Resistance groups in the rear of the German units trying to hold back the Allied forces sweeping through France after D-Day. As Maxine Harcourt-Kelly reveals, the fear of Bailey's transmissions being intercepted by the Germans, as well as the constant danger of their location being revealed by informers, meant that Team Citröen was constantly on the move. Despite this, on one occasion the group knocked out an enemy tank with the help of an intrepid young Frenchman, who ran up to it armed only with a grenade and dropped it through the driver's viewing hatch. One morning, Bailey learnt that a large German convoy was moving along the road from Grenoble to Lyon. He sent a coded message to HQ in Algiers asking for an immediate air strike. A series of Mosquito fighter bombers attacked and destroyed the whole convoy. Fred also caused major disruption to German attempts to withdraw by calling in air support which destroyed a vital bridge. Fred was Mentioned in Despatches and awarded the Croix de Guerre with Bronze Star by the French. With his war in Europe over, Fred volunteered to serve with SOE's Force 136 in the Far East. He was duly sent out to Burma where he was dispatched into the Keren Hills to monitor the routes being used by the retreating Japanese. Fred was able to send regular reports on enemy troop movements and direct Allied air strikes. On one occasion, they ambushed a Japanese convoy. A fierce firefight developed, but they slipped back into the jungle before the Japanese could counter-attack. These attacks were so disruptive that the Japanese were forced to form a special force to hunt Fred's team down. As they could not be resupplied, Fred's team grew weaker. Before long, with nothing to eat but a handful of rice each day, the team was beginning to starve. It was left with no option but to evacuate. Even then, Fred's adventures were far from over. In August 1945, he was dropped into Malaya tasked with finding any American aircrew who had been shot down and taken prisoner south of Kuala Lumpur. This is the action-packed story of one man's remarkable war serving in Allied Special Forces units behind enemy lines in both Occupied Europe and the Far East.
