big beyond belief reddit: Need You Now Laurelin Paige, Claire Contreras, Sierra Simone, Skye Warren, Annika Martin, 2020-04-07 For some, the bravest thing a person could ever do is to admit that they've fallen in love. Saying the words out loud changes everything and there's no way to take them back. It's impossible to pluck the words out of the air and slip them into their back pocket to keep the truth safely tucked away. The best feeling in the entire world though, is to know, irrevocably, that the person they fell in love with, fell just as hard in love with them. That's what makes a romance, a romance. *Need You Now* is a collection of four best-selling novels including: *The Dirty Duet* by Laurelin Paige *Half Truths* by Claire Contreras *Sinner* by Sierra Simone *Hostage* by Skye Warren and Annika Martin *Top Shelf Romance* represents the best of the best in romance. There are no cliffhangers. These are simply must-read novels for readers looking for the best in happily ever afters.

big beyond belief reddit: Practicing Atheism Hannah K. Scheidt, 2021 Although many individuals identify as atheists, little is understood about the belief system beyond the simple lack of a belief in a higher power. Hannah K. Scheidt's *Practicing Atheism: Culture, Media, and Ritual in the Contemporary Atheist Network* unpacks the cultural products, both corporate-driven and grassroots, that carry messages about atheism to examine the complicated relationship between organized atheism and religion.

big beyond belief reddit: Data Theory Simon Lindgren, 2020-09-01 The datafication of our world offers huge challenges and opportunities for social science. The 'data-drivenness' of computational research can occur at the expense of theoretical reflection and interpretation. Additionally, it can be difficult to reconcile the 'quantitative' dimensions of big data with the 'qualitative' sensibilities needed for its understanding. At the same time, this opens up possibilities for reimagining key principles of social inquiry. In this experimental and provocative book, Simon Lindgren argues that a hybrid approach to data and theory must be developed in order to make sense of today's ambivalent, turbulent, and media-saturated political landscape. He pushes for the development of a critical science of data, joining the interpretive theoretical and ethical sensibilities of social science with the predictive and prognostic powers of data science and computational methods. In order for theories and research methods to be more useful and relevant, they must be dismantled and put together in new, alternative, and unexpected ways. *Data Theory* is essential reading for social scientists and data scientists, as well as students taking courses in social theory and data, digital methods, big data, and data and society.

big beyond belief reddit: Faith Crisis, Volume 2: Behind Closed Doors L. Hannah Stoddard, James F. Stoddard, 2020-10-05 During the 20th century, an organized objective to rewrite Latter-day Saint history from within, unbeknownst to the general Church membership, went head to head

behind the scenes with traditional leaders of the Church. Meet the main players of this conflict: Leonard Arrington—progressive “Father of New Mormon History,” Ezra Taft Benson—traditionalist defender, and many other advocates of traditionalist and progressive Latter-day Saint history. As traditionalists and progressives sparred during the 1970s-1980s, a covert cold war commenced in Salt Lake City, Utah, with the progressives spying on the traditionalists, and the traditionalists spying on the progressives. Secret informants, leaked documents, falsified reports, and even employed pseudonyms—all were part of this struggle to dominate Latter-day Saint history. But how did, and does, this secret conflict affect you? Progressives, working in the Church History Department and at Brigham Young University, claimed 40 years ago that it would take a generation to re-educate the Church. Where are we now in that re-education?

big beyond belief reddit: *Conspiracy and Triumph* Aaron John Gulyas, 2021-11-22

Conspiracies have always been part of American culture, but with the rise of social media has come an increase in belief in nontraditional explanations of events. This book highlights a subset of conspiratorial beliefs that grew in popularity in the early 21st century. These beliefs and the growing cynicism of the media have left conspiracy theorists with deep distrust of those in authority. A number of theories that have arisen over the years are explored. From QAnon beliefs regarding the United States government to UFO reports and other hidden agendas, it is clear that we continue to challenge old ways of thinking.

big beyond belief reddit: *Multidisciplinary Perspectives on Women, Voice, and Agency*

Yanikkaya, Berrin, Nairn, Angelique Margarita, 2020-07-31 Across the world, it has remained a significant challenge for women to be heard within crucial components of society. Male domination has a vast history of restricting the visibility and voices of women in areas including economics and politics. In recent years, however, those longstanding barriers are beginning to crumble as feminism and women's rights have become vital areas of research. Understanding the importance of having a voice and its relation to the construction of women's empowerment, as well as existing limitations in global regions, is imperative. *Multidisciplinary Perspectives on Women, Voice, and Agency* is a collection of innovative research on the examination of giving voice to women's issues in the contemporary world and their increasing impact within the various pillars of society. While highlighting topics including social change, digital activism, and inclusion, this book is ideally designed for researchers, activists, policymakers, practitioners, politicians, advocates, educators, and students seeking current research on women empowerment and the interpretation of women's voices throughout the globe.

big beyond belief reddit: Verbal First Aid Judith Simon Prager, Judith Acosta, 2010-06-01 Words as Medicine What to say to your children to get them through the bumps, bruises, and crises of childhood. Falling off a bike, having a bad dream, getting stitches...sometimes a kiss isn't enough to make it all better. But what you say to your child in those first moments of pain or fear could make all the difference. Using techniques the authors have taught to doctors, nurses, and first responders, Verbal First Aid(tm) explains how words can be used to promote healing from burns, bruises, nightmares, asthma attacks, and more. It provides scripts and tips on how to short-circuit traumatic memories, sometimes just by speaking a sentence or two. This revolutionary book gives parents the responses they need to immediately stabilize their children's emotions. And these methods will build a foundation of confidence and inner strength that will help kids heal at the deepest level, and weather whatever hardships and difficulties they encounter throughout life.

big beyond belief reddit: **Gaming Democracy** Adrienne L. Massanari, 2024-10-29 How play and gaming culture have mainstreamed far right ideology through social media platforms. From #Gamergate to the ongoing Big Lie, the far right has gone mainstream. In Gaming Democracy, Adrienne Massanari tracks the flames of toxicity found in the far right and "alt-right" movements as they increasingly take up oxygen in American and global society. In this pathbreaking contribution to the fields of internet studies, game studies, and gender studies, Massanari argues that Silicon Valley's emphasis on meritocracy and free speech absolutism has driven this rightward slide. These ideologies have been coded into social media spaces that implicitly silence marginalized communities and subject them to rampant abuse by groups that have learned to "game" the ecology of platforms, algorithms, and attention economies. While populist movements are not new, phenomena such as QAnon, parental rights activism, and COVID denialism are uniquely "of the internet," with supporters demonstrating both technical acumen and an ability to use memes and play as a way of both building community and fomenting dissent. Massanari explores the ways that the far right uses memetic humor and geek masculinity as tools both to create a sense of community within these leaderless groups and to obfuscate their intentions. Using the lens of play and game studies as well as the concept of "metagaming," Gaming Democracy is a novel contribution to our understanding of online platforms and far right political activism.

big beyond belief reddit: **Handbook of Computational Social Science for Policy** Eleonora Bertoni, Matteo Fontana, Lorenzo Gabrielli, Serena Signorelli, Michele Vespe, 2023-01-23 This open access handbook describes foundational issues, methodological approaches and examples on how to analyse and model data using Computational Social Science (CSS) for policy support. Up to now, CSS studies have mostly developed on a small, proof-of concept, scale that prevented from unleashing its potential to provide systematic impact to the policy cycle, as well as from improving the understanding of societal problems to the definition, assessment, evaluation, and monitoring of policies. The aim of this handbook is to fill this gap by exploring ways to analyse and model data for policy support, and to advocate the adoption of CSS solutions for policy by raising awareness of existing implementations of CSS in policy-relevant fields. To this end, the book explores applications of computational methods and approaches like big data, machine learning, statistical learning, sentiment analysis, text mining, systems modelling, and network analysis to different problems in the social sciences. The book is structured into three Parts: the first chapters on foundational issues open with an exposition and description of key policymaking areas where CSS can provide insights and information. In detail, the chapters cover public policy, governance, data justice and other ethical issues. Part two consists of chapters on methodological aspects dealing with issues such as

the modelling of complexity, natural language processing, validity and lack of data, and innovation in official statistics. Finally, Part three describes the application of computational methods, challenges and opportunities in various social science areas, including economics, sociology, demography, migration, climate change, epidemiology, geography, and disaster management. The target audience of the book spans from the scientific community engaged in CSS research to policymakers interested in evidence-informed policy interventions, but also includes private companies holding data that can be used to study social sciences and are interested in achieving a policy impact.

big beyond belief reddit: An Introduction to the Policy Process Thomas A. Birkland, 2019-06-19 Now in a thoroughly revised Fifth Edition, *An Introduction to the Policy Process* provides students at all levels with an accessible, readable, and affordable introduction to the field of public policy. In keeping with prior editions, author Tom Birkland conveys the best current thinking on the policy process in a clear, conversational style. Designed to address new developments in both policy theory and policy making, the Fifth Edition includes examinations of: the Brexit referendum result and its effects on the UK, European Union, and world politics, as well as the 2016 election of Donald Trump as President of the United States, and the ways in which these events have caused voters and policy makers to rethink their assumptions; changes to the media environment, including the decline of newspapers and television news, the growth of social media, and the emergence of fake news; new policy theory developments like the emergence of the Narrative Policy Framework and continued and newer applications of existing theories of policy process like Advocacy Coalitions, Multiple Streams, Punctuated Equilibrium, and Institutional Analysis and Development; and all-new and updated chapter at a glance outlines, definitions of key terms, provocative review questions, recommended reading, visual aids and case studies, theoretical literature, and presentation slides and Test Banks to make teaching from the book easier than ever. Firmly grounded in both social science and political science, *An Introduction to the Policy Process* provides the most up-to-date and thorough overview of the theory and practice of the policy process, ideal for upper-level undergraduate and introductory graduate courses in Public Policy, Public Administration, and Political Science programs.

big beyond belief reddit: Social Processes of Online Hate Joseph B. Walther, Ronald E. Rice, 2024-07-31 This book explores the social forces among and between online aggressors that affect the expression and perpetration of online hate. Its chapters illustrate how patterns of interactive social behavior reinforce, magnify, or modify this expression. It also considers the characteristics of social media that facilitate social interactions that promote hate and facilitate relationships among haters. Bringing together a range of international experts and covering an array of themes, including woman abuse, antisemitism, pornography, radicalization, and extreme political youth movements, this book examines the specific social factors and processes that facilitate these forms of hate and proposes new approaches for explaining them. Cutting-edge, interdisciplinary, and authoritative, this book will be of interest to sociologists, criminologists, and scholars of media, communication, and computational social science alike, as well as those engaged with hate crime, hate speech, social media, and online social networks.
