The book is divided into six parts. Part I (The Legal System and Crime) introduces the U.S. legal system and the classification of crime. Throughout the book, to illustrate points, I have used over 300 cases of actual crimes. The names of the people and the facts of the cases used in the discussions of these crimes are taken directly from referenced news reports. The subtitle, Computer Viruses to Twin Towers, reflects the scope of the book; that is, from computer viruses, which cause only aggravation or loss of money, to the deadly terrorist attacks on the Twin Towers of the World Trade Center and the Pentagon on September 11, 2001 that snuffed out almost 3000 lives.

brenda spencer sentence: *Going Postal* Mark Ames, 2005-10-17 *Going Postal* examines the phenomenon of rage murder that took America by storm in the early 1980's and has since grown yearly in body counts and symbolic value. By looking at massacres in schools and offices as post-industrial rebellions, Mark Ames is able to juxtapose the historical place of rage in America with the social climate after Reaganomics began to effect worker's paychecks. Like slave rebellions, rage massacres are doomed, gory, sometimes inadvertently comic, and grossly misunderstood. *Going Postal* seeks to contextualize this violence in a world where working isn't—and doesn't pay—what it used to. Part social critique and part true crime page-turner, *Going Postal* answers the questions asked by commentators on the nightly news and films such as *Bowling for Columbine*.
