brutal obsession alternate cover: Robert Williams Robert Williams, 2019-10-23 Robert Williams: The Father of Exponential Imagination is a comprehensive career spanning, comprehensive collection of the iconic painter's fine art, including every one of his remarkable oil paintings along with a presentation of his drawings, sculptures, and works in other media. Simply put, this is the art book of the decade, and the book that Williams has been working toward his entire career. In the late 20th and early 21st century, diverse forms of commonplace and popular art appeared to be coalescing into a formidable faction of new painted realism. The new school of

imagery was a product of art that didn't fit comfortably into the accepted definition of fine art. It embraced some of the figurative graphics that formal art academia tended to reject: comic books, movie posters, trading cards, surfer art, hot rod illustration, to mention a few. This alternative art movement found its most apt participant in one of America's most controversial underground artists, the painter, Robert Williams. It was this artist who brought the term "lowbrow" into the fine arts lexicon, with his groundbreaking 1979 book, *The Lowbrow Art of Robt. Williams*. Williams pursued a career as a fine arts painter years before joining the art studio of Ed "Big Daddy" Roth in the mid-1960s. From this position he moved into the rebellious, anti-war circles of early underground comix, as one of the celebrated ZAP cartoonists. Featuring an introductory essay by Coagula Art Journal founder Mat Gleason along with a new art manifesto and foreword by Williams himself, as well as tons of rare photos and ephemera.

brutal obsession alternate cover: *Sexual Personae* Camille Paglia, 1990-09-10 In this brilliantly original book, Camille Paglia identifies some of the major patterns that have endured in western culture from ancient Egypt and Greece to the present. According to Paglia, one source of continuity is paganism, which, undefeated by Judeo-Christianity, continues to flourish in art, eroticism, astrology, and pop culture. Others, she says, are androgyny, sadism, and the aggressive western eye, which has created our art and cinema. Paglia follows these and other themes from Nefertiti and the Venus of Willendorf to Apollo and Dionysus, from Botticelli and Michaelangelo to

Shakespeare and Blake and finally to Emily Dickinson, who, along with other major nineteenth-century authors, becomes a remarkable example of Romanticism turned into Decadence. Paglia offers provocative views of literature, art history, psychology, and religion. She focuses, for example, on the amorality, voyeurism, and pornography in great art that have been ignored or glossed over by most critics. She discusses sex and nature as brutal daemonic forces, and she criticizes feminists for sentimentality or wishful thinking about the causes of rape, violence, and poor relations between the sexes. She stressed the biologic basis of sex differences and sees the mother as an overwhelming force who condemns men to lifelong sexual anxiety, from which they escape through rationalism and physical achievement. She examines the culture and style of modern male homosexuals. She demonstrates how much of western life, art, and thought is ruled by personality, which she traces through recurrent types or personae such as the female vampire (Medusa, Lauren Bacall); the pythoness (the Delphic oracle, Gracie Allen); the beautiful boy (Hadrian's Antinous, Dorian Gray); the epicene man of beauty (Lord Byron, Elvis Presley); and the male heroine (Baudelaire, Woody Allen). Her book will stimulate and awe readers everywhere.

brutal obsession alternate cover: The Woman in the Muslin Mask Daphne Grace, 2004-02-20
Western feminists have in the past singled out the veiling of women as a potent symbol of women's oppression under Islam. Daphne Grace explores the far more complex and contested role of veiling over the last 120 years. Looking at the ways in which the veil is used in literature, and its representations in writing from the East and the West, she shows how veiling has come to stand for both oppression and resistance. Grace asks why, at the start of the new millennium, veiling seems more popular than ever - and explores what veiling means for the women themselves. Chapters are arranged geographically and chronologically, beginning with the 'imperial gaze' of Victorian England, moving to the Arab Islamic world of the Middle East and the Maghreb and finally to India, in the process exploring the nationalist, religious, political and cultural meanings of the veil in its many manifestations, then and now.
