book had the seer: Storyscapes Hein Viljoen, C. N. Van der Merwe, 2004 In Storyscapes we listen carefully to what South African writers reveal about themselves and their relations to South African space since the democratic transition of 1994. One main focus is the power of stories to uncover contradictory processes and investments of identity and to point readers toward a more meaningful life. Another main focus is the complexities of the post-colonial understanding of South African land, landscape, and space. Space in relation to race, class, and gender identity figures prominently in analyses and comparisons of diverse South African texts, such as Breyten Breytenbach's *Dog Heart*, André Brink's *Imaginings of Sand*, as well as the important South African subgenre of the farm novel. Questions of black or hybrid identity are highlighted by confronting older texts with new ones by black and women writers such as A.H.M. Scholtz and E.K.M. Dido. These texts - and a number of Afrikaans texts that are less well-known in the English-speaking world - are set in the wider frameworks of postcolonial criticism and global issues of cultural identity.

book had the seer: *Seer's Blood* Doranna Durgin, 101-01-01 A mountain community under siege rediscovers its lost roots--and its magic--in the grit of an outcast girl, the heart of a stranger, and the mystical touch of lost seer's blood. A book once honored by Andre Norton in the Gryphon Award. When Blaine Kendricks discovers strangers in Shadow Hollers, she thinks they've come to trade. She couldn't be more wrong. When Dacey Childers comes to Shadow Hollers, Blaine's family thinks he's there to hunt game. They couldn't be more wrong. When the Annekteh come to Shadow Hollers, they think the isolated community living there has no way to resist their invasion. They're pretty much right on target. But the last man of the lost seer's blood has returned, and is about to draw Blaine into his magic, his adventure...and the most dangerous hunt she could ever imagine. With this book, Doranna Durgin displays her customary precision in plot (tangled yet plausible, with tension that fairly hums from the page), setting (richly rendered and full of fresh, original details that truly delight), and characterization (thoughtful, layered, and well able to drive the plot).... *Seer's Blood* is low fantasy at its very best, showing how great events affect people on a small scale. --Hypatia's Hoard SEER'S BLOOD is a fast-paced magical adventure. Doranna Durgin imbues her characters with heart and soul, making the reader care about them in ways that are rare in fiction. --Alan Meitlowski, BookHound Doranna Durgin has been quietly turning out low key but very intriguing fantasy novels, of which this is the newest and in many ways the best. --SF Chronicle The author creates high adventure with a subtle touch of romance here. Durgin's writing is full of mountain flavor, and her characters, both human and canine, are strong and clear.... This is an intense story that should appeal to...fantasy fans. --VOYA On the surface Doranna Durgin's SEER'S BLOOD is Blaine's coming of age story in the deep hills of Appalachia, but this time of evil and Durgin's exactly right ear for dialect and regionalisms make it so much more. Readers will find themselves immersed in a world where self-reliance and resilience is brutally interrupted by evil in men's clothing and the return of magic to the lonely hollows. The fear and isolation associated with early mountain life is captured in this almost cultural study of Americana with its complex picture of love and loss. And the hounds, oh, my! Right along with Blaine, I fell in love with the hounds. This is a delicious read! --Cynthia Felice, Author of Downtime

book had the seer: Believing History Richard Lyman Bushman, 2007-02-13 The eminent historian Richard Bushman here reflects on his faith and the history of his religion. By describing his own struggle to find a basis for belief in a skeptical world, Bushman poses the question of how scholars are to write about subjects in which they are personally invested. Does personal commitment make objectivity impossible? Bushman explicitly, and at points confessionally, explains his own commitments and then explores Joseph Smith and the Book of Mormon from the standpoint of belief. Joseph Smith cannot be dismissed as a colorful fraud, Bushman argues, nor seen only as a restorer of religious truth. Entangled in nineteenth-century Yankee culture—including the skeptical

Enlightenment—Smith was nevertheless an original who cut his own path. And while there are multiple contexts from which to draw an understanding of Joseph Smith (including magic, seekers, the Second Great Awakening, communitarianism, restorationism, and more), Bushman suggests that Smith stood at the cusp of modernity and presented the possibility of belief in a time of growing skepticism. When examined carefully, the Book of Mormon is found to have intricate subplots and peculiar cultural twists. Bushman discusses the book's ambivalence toward republican government, explores the culture of the Lamanites (the enemies of the favored people), and traces the book's fascination with records, translation, and history. Yet *Believing History* also sheds light on the meaning of Joseph Smith and the Book of Mormon today. How do we situate Mormonism in American history? Is Mormonism relevant in the modern world? *Believing History* offers many surprises. Believers will learn that Joseph Smith is more than an icon, and non-believers will find that Mormonism cannot be summed up with a simple label. But wherever readers stand on Bushman's arguments, he provides us with a provocative and open look at a believing historian studying his own faith.

Lévi's study of magic is an absolute must for every seeker in occult, esoteric, and druidic realms; but this need has been frustrated by dated and inaccurate translations—until now. Greer, a respected occult scholar, and Mikituk, a masterful translator, collaborate to restore this landmark work—complete with its original illustrations and symbols—to the center of the alternative spiritual canon.
