brad jacs book amazon: Track Down Amazon Scott Conrad, All he wanted was a break, but Brad Jacobs should have guessed that in a world fueled by blood and greed, only the wicked get to rest. After a perilous adventure in Alaska, the retired Marine and bounty hunter is thawing his toes in Cabo when he encounters the sultry gaze of fellow Texan, Vicky Chance. Tall, lithe, bewitching...the fact she's also a former Marine leaves Brad wondering if he fell asleep in the sun and dreamed her into reality. A ransom request has arrived from Shining Path, a Maoist Guerrilla Group led by the psychopath Rodolfo Abimael Guzmán. Ving wants Brad to handle the exchange, but there's one glaring problem. The only thing Guzmán values more than cash is the mystery around his hidden headquarters. Captives who know too much are returned to their families in body bags. brad jacobson book amazon: Brad Jacobs Somil Press, 2024-01-30 Once upon a time, in the quaint city of Providence, Rhode Island, a boy named Brad Jacobs was born into a world of glittering jewels and global commerce. His father, a savvy fashion jewelry importer, and his mother, Charlotte Sybil, created a home where the air buzzed with discussions of markets and aesthetics. Young Brad, born on August 3, 1956, was a curious blend of his environment - a mind attuned to the beauty of art and the rhythm of numbers. Brad's youth unfurled in the halls of Northfield Mount Hermon School, where he danced with melodies and equations, his mind always racing ahead, eager to explore beyond the conventional paths. College called to him, first Bennington and then Brown University, where music and mathematics were his chosen companions. But in 1976, the real world, vast and untamed, beckoned, and Brad, in a move that would define the rest of his life, left his textbooks behind. The world of oil trading was his first arena. Here, in the bustling markets, Brad's entrepreneurial spirit took flight. By 1979, he had co-founded Amerex Oil Associates Inc., a testament to his nascent business acumen. The company's journey was a whirlwind of success, with Brad at its helm until its sale in 1983. But his ambitions were not to be tethered.

brad jacobson book amazon: Wonder Woman Regina Luttrell, 2020-02-20 Wonder Woman was created in the early 1940s as a paragon of female empowerment and beauty and her near eighty-year history has included seismic socio-cultural changes. In this book, Joan Ormrod analyses key moments in the superheroine's career and views them through the prism of the female body. This book explores how Wonder Woman's body has changed over the years as her mission has shifted from being an ambassador for peace and love to the greatest warrior in the DC transmedia universe, as she's reflected increasing technological sophistication, globalisation and women's changing roles and ambitions. Wonder Woman's physical form, Ormrod argues, is both an articulation of female potential and attempts to constrain it. Her body has always been an amalgamation of the feminine ideal in popular culture and wider socio-cultural debate, from Betty Grable to the 1960s 'mod' girl, to the Iron Maiden of the 1980s.
