christmas stories online: [Caregiver](#) Dr. Douglas Courtney, 2024-06-11 A true story. A love story. A sad story. A story of hope. A story of despair. This is a husband's remembrance of the seven years he spent as a caregiver for his wife. It recalls the first halting moments of concern shared in a simple kitchen under the glare of florescent lighting. The tale unfolding on the emotionally devastating, life ending news of dementia and possible Alzheimer's. As the couple begin their terrible journey towards the predictable conclusion the caregiver seeks to provide all that he promised her. The husband is new to the whole medical community. Family doctors, neurologists, gerontologists, and an array of 'ists' need to be understood, categorized, and cataloged for current and future care. He must navigate all the various state, federal, and local agencies to apply for and gain assistance in her care. The husband must ensure enough funds and monies are acquired for long-term care and support with little to no income or savings. He and his wife must adjust, finalize, and accept the change in trajectory of a life lived together for almost 50 years. Bills, mortgages, and daily life costs themselves are adjusted, discarded, and changed as the quality of a now short life has to be balanced against what was planned, hoped, and what reality can now accomplish. As both go through the irregularly timed changes in ability and memory loss the caregiver recounts past lives,

hopes, and dreams of her and him. He replays their discussions on her disease, her understandings and her sense of loss. The husband recounts the loss of dignity for both her and him. But in the middle of all the sadness and chaos, moments of happiness, joy, and love are shared. In the end it is a tragic love story many have endured. One very few men have recounted. It is a story of how a man took care of his wife as she dealt with the dreadful disease of Alzheimer's. It is a story of how he kept the promise to keep her at home until he could do so no more. It is a recounting of how he walked the path and shared her journey until its inevitable end.

christmas stories online: Family Ties in Victorian England Claudia Nelson, 2007-02-28 The Victorians were passionate about family. While Queen Victoria's supporters argued that her intense commitment to her private life made her the more fit to mother her people, her critics charged that it distracted her from her public responsibilities. Here, Nelson focuses particularly on the conflicting and powerful images of family life that Victorians produced in their fiction and nonfiction—that is, on how the Victorians themselves conceived of family, which continues both to influence and to help explain visions of family today. Drawing upon a wide variety of 19th-century fiction and nonfiction, Nelson examines the English Victorian family both as it was imagined and as it was experienced. For many Victorians, family was exalted to the status of secular religion, endowed with the power of fighting the contamination of unchecked commercialism or sexuality and holding out the promise of reforming humankind. Although in practice this ideal might have proven unattainable, the many detailed 19th-century descriptions of the outlook and behavior appropriate to fathers and mothers, sons and daughters, and other family members illustrate the extent of the pressure felt by members of this society to try to live up to the expectations of their culture. Defining family to include the extended family, the foster or adoptive family, and the stepfamily, Nelson considers different roles within the Victorian household in order to gauge the ambivalence and the social anxieties surrounding them—many of which continue to influence our notions of family today.

Covering topics including representations of fairy tales, Christmas media, cultural appropriation, family horror, merchandise, theme parks, and food, this work explores the film's ongoing cultural impact.
