Sample Book Insights: #1 Red Bluff is a small town in northern California that is the capital of Tehama County. It is a place with few secrets, as broken marriages, accidents, and affairs are big news. But it is a good place to raise a family. #2 Colleen Stan, a 20-year-old college student, hitchhiked her way across America in 1977. She left Eugene, Oregon, that morning at about eleven, when her roommates Alice and Bob drove her to the freeway. She stood at the side of the road under the gray Eugene sky looking virtually indistinguishable from any number of hitchhikers. #3 When you drive east on Highway 36, the fringes of Red Bluff soon fall behind. The road climbs past pastures into hills of oak strewn with chunks of lava as it heads toward Mt. Lassen, a dormant volcano that heaved off its mountaintop in 1914. #4 The head box is a terrifying device that was used on Colleen. It is made of plywood and is about the size of a hatbox, but it is surprisingly heavy. It is suffocatingly hot and claustrophobic, and it muffles all sound.

colleen stan victims: When Things Seem Odd Michael Joseph Legare, 2016-01-12 As you will discover by reading this book, the term stranger danger is not only misleading to children, it actually does more harm than good. By the constant reminder that a child encounters by media, adults and television programs about never talking to strangers, children are often left confused and powerless of how to deal with the many strangers they come across on a day to day bases. Secondly, this book aims to teach children to become aware of their instincts (feelings of uneasiness, suspicion or otherwise their apprehension) when it is appropriate and important to do so and when it comes to people and situations they encounter as they go about their lives. Not just people of whom they do not know (strangers), but also of people of whom they may already know. Finally, this book is in two parts: The first part are the three short stories of Polly, a fictional character, that describes in detail certain dilemmas she encounters when she becomes lost, first at a grocery store, next at the fair and then in the third story, the close encounter she experiences of nearly being abducted by a stranger. The stories go into detail about the positive aspects that Polly took each time to protect herself in each case scenario. The encounters are based on a realistic chain of circumstances. The second part of this book is aimed towards parents to look at self-protection strategies suggested by some of the world's most prestigious experts on the subject of child safety and the criminal mind.
