- Powers and Responsibilities of Congress
- Common Quiz Questions and Answers

The Structure of Congress

The United States Congress is a bicameral legislature composed of two chambers: the Senate and the House of Representatives. This division allows for a balance of power and representation between the states and the population. Understanding the structure is fundamental to grasping many quiz questions about Congress.

The Senate

The Senate consists of 100 members, with each state represented by two senators regardless of population size. Senators serve six-year terms, with elections staggered so that approximately one-third of the seats are up for election every two years. The Senate holds unique powers, such as confirming presidential appointments and ratifying treaties.

The House of Representatives

The House has 435 voting members apportioned according to state population. Representatives serve two-year terms, and the entire House is up for election every two years. This chamber is responsible for initiating revenue bills and has the power to impeach federal officials.

Key Differences Between the Senate and House

Several distinctions exist between the two chambers, influencing legislative dynamics and quiz question responses. These include term lengths, representation methods, and exclusive powers.

- Senate: Equal representation, six-year terms, confirms appointments.
- House: Population-based representation, two-year terms, initiates revenue bills.
- Both chambers must approve legislation for it to become law.

Legislative Process Explained

Understanding the legislative process is essential for answering congress explained quiz answers related to how laws are made. The process involves multiple steps designed to ensure thorough

consideration and debate.

Introduction of Bills

Legislation can be introduced in either the House or the Senate, except for revenue bills which must begin in the House. Members sponsor bills, which are then assigned to relevant committees for evaluation.

Committee Review and Markup

Committees specialize in specific policy areas, examining bills in detail. They hold hearings, gather expert testimony, and may amend the bill before voting on whether to send it to the full chamber.

Debate and Voting

Once a bill reaches the floor, members debate its merits and propose further amendments. Voting procedures differ between the House and Senate but generally include voice votes, division votes, and roll-call votes.

Conference Committees

If the House and Senate pass different versions of a bill, a conference committee composed of members from both chambers works to reconcile discrepancies. The final compromise bill returns to both chambers for approval.

Presidential Action

After passing both chambers, the bill is sent to the President, who can sign it into law, veto it, or take no action (which can lead to a pocket veto or automatic enactment depending on timing).

Powers and Responsibilities of Congress

Congress has a broad range of powers and duties granted by the U.S. Constitution. These are pivotal topics within congress explained quiz answers, highlighting the legislative branch's role in governance.

Enumerated Powers

Article I, Section 8 of the Constitution lists specific powers granted to Congress, including the authority to levy taxes, regulate commerce, coin money, declare war, and maintain the armed forces.

Implied Powers

Derived from the Necessary and Proper Clause, implied powers allow Congress to pass laws essential for executing its enumerated powers. This flexibility supports adapting to new challenges and complexities.

Checks and Balances

Congress plays a critical role in the system of checks and balances by overseeing the executive and judicial branches. It can impeach officials, approve budgets, and confirm judicial appointments, ensuring no branch exceeds its authority.

Other Responsibilities

Congress also has duties such as:

- Oversight of federal agencies and programs
- Appropriating government funds

- Conducting investigations and hearings
- Representing constituents' interests

Common Quiz Questions and Answers

This section compiles frequently asked congress explained quiz answers, clarifying common points of confusion and providing precise information for academic or general knowledge purposes.

What is the main function of Congress?

The primary function of Congress is to make laws. It drafts, debates, amends, and passes legislation that governs the country. Additionally, Congress represents the people and checks the powers of the other branches of government.

How many members are in Congress?

Congress consists of 535 members: 100 senators and 435 representatives. These numbers are fixed by law for the House and by the Constitution for the Senate.

What does bicameral mean?

Bicameral means a legislature composed of two separate chambers or houses. In the U.S., this refers to the Senate and the House of Representatives.

Which chamber has the power to impeach officials?

The House of Representatives holds the power to impeach federal officials, while the Senate conducts the impeachment trial and can remove officials from office with a two-thirds majority vote.

What is a filibuster, and which chamber uses it?

A filibuster is a tactic used in the Senate to delay or block legislative action by extending debate indefinitely. It requires a cloture vote of 60 senators to end the filibuster and proceed to a vote.

How does Congress check the President's power?

Congress can override presidential vetoes with a two-thirds vote in both chambers, approve or reject presidential appointments, control funding, and conduct investigations or impeachment proceedings.

What role do committees play in Congress?

Committees review bills, conduct hearings, and oversee government functions. They specialize in different areas such as finance, foreign affairs, or judiciary matters, making the legislative process more efficient.

List the steps of the legislative process.

1. Bill introduction
2. Committee review and markup
3. Floor debate and voting

4. Conference committee reconciliation
5. Final approval by both chambers
6. Presidential action (signing or vetoing)

congress explained quiz answers: Americans, Congress, and Democratic Responsiveness

David R Jones, Monika L McDermott, 2010-07-22 Jones and McDermott restore meaning to democratic responsibility by finding that public evaluations affect Congress. In contrast to the popular depiction of the representatives controlling the represented rampant in the political science literature, Jones and McDermott show that the people are in control, determining not only the direction of policy in Congress, but also who stays, who retires, and who faces difficult reelection efforts. This book makes an important correction to our understanding of how Congress operates. --Sean M. Theriault, University of Texas at Austin Voters may not know the details of specific policies, but they have a general sense of how well Congress serves their own interests; and astute politicians pay attention to public approval ratings. When the majority party is unpopular, as during the 2008 election, both voters and politicians take a hand in reconfiguring the House and the Senate. Voters throw hard-line party members out of office while candidates who continue to run under the party banner distance themselves from party ideology. In this way, public approval directly affects policy shifts as well as turnovers at election time. Contrary to the common view of Congress as an insulated institution, Jones and McDermott argue that Congress is indeed responsive to the people of the United States. David R. Jones is Professor of Political Science at Baruch College, City University of New York. Monika L. McDermott is Associate Professor of Political Science at Fordham University.

congress explained quiz answers: *Call TV quiz shows* Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2007-01-25 Call TV quiz shows are an example of television programmes provided by commercial broadcasters in order to increase their revenue. The viewer watches the live broadcast, then sends a text message or makes a premium rate telephone call in order to take part, with the broadcaster keeping a proportion of the call revenue. The Culture Committee has decided to examine this development, and whether some form of regulation is required since the programmes seem to be another means of gambling, with some members of the public complaining about them. This report therefore has set out a number of recommendations as to how broadcasters and regulators should address this. The Committee states that there seems to be a lack of fairness and transparency throughout the process. For example, players are generally not told that it is a matter of luck whether a call is connected to the studio and that the chances of getting through are very slim. Also the cost of calling is not always made as clear as it might be, or the amount players might have to spend to win a prize. Primary responsibility for maintaining confidence in the Call TV quiz show format rests with the operating companies and the broadcasters. The Committee believes that the guidance drawn up by the two main regulators, Ofcom and ICSTIS does not go far enough; the Committee also states that Call TV quiz shows should constitute gaming under the Gambling Act 2005, and the Culture Department and the Gambling Commission should consider this as a matter of urgency; operators should have voluntarily introduced practices intended to help viewers who make repeated premium rate calls appreciate how much they are spending; also some assessment of the addiction to participation in such shows should be undertaken; viewers should be made aware that puzzles on Call TV quiz shows have a cryptic element, and that Ofcom should make it obligatory to have games verified with a third party and solutions lodged with them to prevent underhand changes being made while the show is on air; Ofcom should also publish periodic reports on its monitoring of Call TV quiz programmes; any practice of misleading viewers about call volumes or of blocking of calls would be unfair and fraudulent and should be punished under criminal law; the Committee recommends that broadcasters should be required to display some recent historical information about volume of incoming calls, and the odds of being connected to the studio; also that a single body, Ofcom, take responsibility for registering all complaints.
