conversations in american literature audiobook: Conversations with George Saunders

Michael O'Connell, 2022-06-27 Besides being one of America's most celebrated living authors, George Saunders (b. 1958) is also an excellent interview subject. In the fourteen interviews included in Conversations with George Saunders, covering nearly twenty years of his career, the Booker Prize-winning author of Lincoln in the Bardo and Tenth of December provides detailed insight into

his own writing process and craft, alongside nuanced interpretations of his own work. He also delves into aspects of his biography, including anecdotes from his childhood and his experiences as both a student and teacher in MFA programs, as well as reflections on how parenthood affected his writing, the role of religious belief and practice in his work, and how he has dealt with his growing popularity and fame. Throughout this collection, we see him in conversation with former students, fellow writers, mainstream critics, and literary scholars. In each instance, Saunders is eager to engage in meaningful dialogue about what he calls the “big questions of our age.” In a number of interviews, he reflects on the moral and ethical responsibility of fiction, as well as how his work engages with issues of social and political commentary. But at the same time, these interviews, like all of Saunders’s best work, are funny, warm, surprising, and wise. Saunders says he has “always enjoyed doing interviews” in part because he views “intense, respectful conversation [as], really, an artform—an exploration of sorts.” Readers of this volume will have the pleasure of joining him in this process of exploration.

conversations in american literature audiobook: Conversations with Karl Ove Knausgaard Bob Blaisdell, 2023-11-27 Norwegian author Karl Ove Knausgaard (b. 1968) made a literary mark on his home country in 1998, when his debut novel won the prestigious Norwegian Critics Prize for Literature. His fame continued to grow with the publication of his six-volume autobiographical series *Min Kamp*, or *My Struggle*. Translated into English in 2012, the critically acclaimed and controversial series garnered global attention, as did its author. *Conversations with Karl Ove Knausgaard* is a collection of twenty-two interviews, each conducted during the ten-year span in which Knausgaard’s literary prowess gained worldwide recognition. Knausgaard is both a daring writer and a daring interviewee. He grounds his observations in the ordinary aspects of the world around him, which, he insists, is the same world in front of most of his readers. He regards his appearances in newspapers, magazines, and literary festivals as “a performance,” where he plays himself. While that role may differ from his inner life, it is consistent with the role he plays in his autobiographical novels. Fans of Knausgaard will easily recognize this public persona, an embodiment of the protagonist, husband, and father featured in *My Struggle* and in the *Seasons* quartet. Knausgaard discusses his work, aspects of his personal life, and his writing routines and practices in marvelous detail. He comments on literary and artistic world classics and on international contemporary authors. A bilingual speaker, he is accustomed to appearing before the press and in front of audiences in his roles as a famous author and as the publisher and cofounder of the publishing house Pelikanen (Pelican). Remarkable for his candor and directness, Knausgaard delivers the same variety and number of surprises in these interviews as he does in his most thrilling books.

conversations in american literature audiobook: Audiobooks, Literature, and Sound Studies Matthew Rubery, 2011-05-09 This is the first scholarly work to examine the cultural significance of the talking book since the invention of the phonograph in 1877, the earliest machine to enable the reproduction of the human voice. Recent advances in sound technology make this an opportune moment to reflect on the evolution of our reading practices since this remarkable invention. Some questions addressed by the collection include: How does auditory literature adapt printed texts? What skills in close listening are necessary for its reception? What are the social consequences of new listening technologies? In sum, the essays gathered together by this collection explore the extent to which the audiobook enables us not just to hear literature but to hear it in new ways. Bringing together a set of reflections on the enrichments and impoverishments of the reading experience brought about by developments in sound technology, this collection spans the earliest adaptations of printed texts into sound by Charles Dickens, Thomas Hardy, and other novelists from the late nineteenth century to recordings by contemporary figures such as Toni Morrison and Barack Obama at the turn of the twenty-first century. As the voices gathered here suggest, it is time to give a hearing to one of the most talked about new media of the past century.

conversations in american literature audiobook: The Social Lives of Books Edward Frederick Finn, 2011 This project explores how changing models of literary production are blurring

or erasing the divisions between authors, critics and readers. Millions of cultural consumers are participating in previously closed literary conversations and expressing forms of mass distinction through their purchases and reviews of books. These traces of popular reading choices constitute a fresh perspective on elusive audience reactions to literature and reveal evolving networks of conversation. Employing network analysis methodologies and 'distant reading' of book reviews, recommendations and other digital traces of cultural distinction, I develop a new model for literary culture in America today. Through readings of the fiction and reception of Thomas Pynchon, Toni Morrison, David Foster Wallace and Junot Díaz, this model outlines the fundamental requirements for contemporary literary fame. My introduction outlines methodological tools I developed and situates them in the critical traditions of literary reception, cultural sociology and media theory before describing the digital ecologies that have emerged around literature online and their value. Chapter 1 explores the nature of literary fame through a case study of Thomas Pynchon, whose carefully guarded anonymity and ironic distance from capitalism are reflected in the networks his readers construct around his long, challenging books. In stark contrast, Toni Morrison, the subject of Chapter 2, has succeeded critically and commercially, tirelessly seeking out readers to form literary communities around her writing, most prominently through her collaboration with Oprah's Book Club. Chapter 3 considers David Foster Wallace and Junot Díaz and sets out a model for contemporary literary culture: a reading society that demands new forms of authorial reflexivity to mirror the collaborative, iterative nature of digital literary conversations. I conclude with a brief consideration of the exciting prospects and challenges for fiction in a world that reads more than ever but is growing disaffected with the material realities of literary production.

conversations in american literature audiobook: *Reading, Learning, Teaching* N. Scott Momaday Jim Charles, 2007

conversations in american literature audiobook: *The Untold Story of the Talking Book* Matthew Rubery, 2023-01-18 A history of audiobooks, from entertainment & rehabilitation for blinded World War I soldiers to a twenty-first-century competitive industry. Histories of the book often move straight from the codex to the digital screen. Left out of that familiar account are nearly 150 years of audio recordings. Recounting the fascinating history of audio-recorded literature, Matthew Rubery traces the path of innovation from Edison's recitation of Mary Had a Little Lamb for his tinfoil phonograph in 1877, to the first novel-length talking books made for blinded World War I veterans, to today's billion-dollar audiobook industry. *The Untold Story of the Talking Book* focuses on the social impact of audiobooks, not just the technological history, in telling a story of surprising and impassioned conflicts: from controversies over which books the Library of Congress selected to become talking books—yes to Kipling, no to Flaubert—to debates about what defines a reader. Delving into the vexed relationship between spoken and printed texts, Rubery argues that storytelling can be just as engaging with the ears as with the eyes, and that audiobooks deserve to be taken seriously. They are not mere derivatives of printed books but their own form of entertainment. We have come a long way from the era of sound recorded on wax cylinders, when people imagined one day hearing entire novels on mini-phonographs tucked inside their hats. Rubery

tells the untold story of this incredible evolution and, in doing so, breaks from convention by treating audiobooks as a distinctively modern art form that has profoundly influenced the way we read. Praise for *The Untold Story of the Talking Book* If audiobooks are relatively new to your world, you might wonder where they came from and where they're going. And for general fans of the intersection of culture and technology, *The Untold Story of the Talking Book* is a fascinating read. —Neil Steinberg, *Chicago Sun-Times* [Rubery] explores 150 years of the audio format with an imminently accessible style, touching upon a wide range of interconnected topics . . . Through careful investigation of the co-development of formats within the publishing industry, Rubery shines a light on overlooked pioneers of audio . . . Rubery's work succeeds in providing evidence to 'move beyond the reductive debate' on whether audiobooks really count as reading, and establishes the format's rightful place in the literary family. —Mary Burkey, *Booklist* (starred review)

Vivian Yenika-Agbaw, Laura Anne Hudock, Ruth McKoy Lowery, 2018-03-15 Educators who teach children's literature at the college level as part of the pre-service experience seldom allocate enough space in the curriculum for nonfiction literature. Teger, 2012-06-11 This book presents a curricular framework for students grades 6–12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives, beyond the required schoolwork. *Supporting Reading Grades 6–12: A Guide* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity; Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities; support classroom teachers' instruction; and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information-skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st-Century Learner.
