dead inside chandler morrison plot: *The Story of Jazz* Justine Tally, 2001 Since its publication in 1992, *Jazz*, probably Toni Morrison's most difficult novel to date, has elicited a wide array of critical response. Many of these analyses, while both thoughtful and thought-provoking, have provided only partial or inherently inconclusive interpretations. The title, and certain of the author's own pronouncements, have led other critics to focus on the music itself, both as medium and aesthetic support for the narration. Choosing an entirely different approach for *The Story of Jazz*, Justine Tally further develops her hypothesis, first elaborated in her study of *Paradise*, that the Morrison trilogy is undergirded by the relationship of history, memory and story, and discusses jazz not as the music, but as a metaphor for language and storytelling. Taking her cue from the author's epigraph for the novel, she discusses the relevance of storytelling to contemporary critics in many different fields, explains Morrison's choice of the hard-boiled detective genre as a ghost-text for her novel, and guides the reader through the intricacies of Bakhtinian theory in order to elucidate and ground her interpretation of this important text, finally entering into a chapter-by-chapter analysis of the novel which leads to a surprising conclusion.

dead inside chandler morrison plot: The Wanderer in African American Literature Gena E. Chandler-Smith, 2024-01-12 *The Wanderer in African American Literature* highlights an enduring feature of African American letters: "From the slave narrative to Afrofuturism, the literature is populated, driven, and emboldened by wanderers who know no bounds." Gena E. Chandler argues that wanderers and the theme of wandering push the limits of narrative forms and challenge assumptions about the African American experience. The slave narratives of Olaudah Equiano and Harriet Jacobs echo eighteenth- and nineteenth-century literary traditions and chronicle journeys toward freedom and faith. Equiano traces his changing identity, integrating his native African culture with his adopted European one. Jacobs addresses the gender restrictions she faces as a slave and then a free woman whose progress in life remains uncertain and ongoing. Langston Hughes and Nella Larsen chronicle real and imagined journeys during the Harlem Renaissance and the Great Migration. Hughes's autobiography *I Wonder as I Wander* (1956) traces his global travels in the 1930s, highlighting his unique identity as a black American. Larsen's novel *Quicksand* (1928) follows its biracial heroine as she travels throughout the United States and to Denmark while navigating matters of race and gender. The protagonist of Richard Wright's *The Outsider* (1953) seeks individual freedom and a new identity but is "constrained within the boundaries of an American nation and a Western ideal that continuously views the black subject as outside and distinct from the modern project of advancement and freedom." In James Baldwin's *Giovanni's Room* (1956), the white protagonist flees America for France yet cannot escape difficult questions about sexuality and race. Finally, John Edgar Wideman's *The Cattle Killing* (1996) tells the story of two wanderers—an itinerant preacher spreading God's word during the Great Awakening and a twentieth-century writer on a journey of self-discovery about his identity and vocation. The former experiences a crisis of his

Christian faith, and the latter endures a crisis of faith in his literary abilities. Tying these diverse threads together, Chandler demonstrates the power of the black narrative to assimilate and redeploy the literary trope of wanderlust, exchanging its premise of rootless drifting for something altogether more mobilizing.

dead inside chandler morrison plot: Creatures of Darkness Gene D. Phillips, 2000 The

conflicts of the Civil War continued long after the conclusion of the war: jockeys and Thoroughbreds took up the fight on the racetrack. A border state with a shifting identity, Kentucky was scorned for its violence and lawlessness and struggled to keep up with competition from horse breeders and businessmen from New York and New Jersey. As part of this struggle, from 1865 to 1910, the social and physical landscape of Kentucky underwent a remarkable metamorphosis, resulting in the genteel, beautiful, and quintessentially southern Bluegrass region of today. In her debut book, *How Kentucky Became Southern: A Tale of Outlaws, Horse Thieves, Gamblers, and Breeders*, former turf writer Maryjean Wall explores the post-Civil War world of Thoroughbred racing, before the Bluegrass region reigned supreme as the unofficial Horse Capital of the World. Wall uses her insider knowledge of horse racing as a foundation for an unprecedented examination of the efforts to establish a Thoroughbred industry in late-nineteenth-century Kentucky. Key events include a challenge between Asteroid, the best horse in Kentucky, and Kentucky, the best horse in New York; a mysterious and deadly horse disease that threatened to wipe out the foal crops for several years; and the disappearance of African American jockeys such as Isaac Murphy. Wall demonstrates how the Bluegrass could have slipped into irrelevance and how these events define the history of the state. *How Kentucky Became Southern* offers an accessible inside look at the Thoroughbred industry and its place in Kentucky history.
