daily black history facts: [The Black History Bowl: Mini Biographies of African Americans](#)

Cadmus S. Hull, 2018-12-07 When I spoke at book signings for my first book, I found that people, in general, knew very little about many of the African Americans that I had on the display board. Thus, this second book in The Black History Bowl series was written to make people aware of the contributions that African Americans have made to American and World history. The African American history quiz that is included in the book is divided into eight (8) sections. Each section begins with a worksheet. The worksheet is followed by short biographies of the African American history contributors. There is an answer sheet at the end of each section. In addition, note sheets

have been included with each biography for you to use to take notes when researching and gathering information. Additional information on each African American can be found on the web site that is listed at the bottom of the page after the biography. Also, included in this book is information on some points of interest that I think are important to the knowledge base of the average American. The information includes the African American holiday of Kwanzaa, the NAACP's Spingarn Medal, and information on Juneteenth (the actual day when all slaves were freed). In addition, this book includes a section for Women's History Month which highlights African American women from my first book. A timeline of African American history is also included. It is hoped that you will enjoy reading the book as you continue to enrich your knowledge of the contributions that African Americans have made to history. Dr. C. Sam Hull earned an Associate Degree in Education from Cumberland County College and further pursued his academic corridor to Glassboro State College (GSC), now Rowan University. Armed with a Bachelor's in Elementary Education and Master's in Student Personnel Services and School Administration, Sam's educational path led him to Nova University where he achieved his ultimate goal of a Doctorate in School Leadership. Dr. Hull's achievements as an educational leader have been well documented through numerous contributions to the education field. Currently, Dr. Hull is a member of the New Jersey Association of School Administrators and Cumberland County Principals and Supervisors Association. Fairfield Board of Education enjoyed the fruits of this dedicated and committed educator for twenty-nine years. Dr. Hull retired June 30, 2004, after 33 years in education. In addition, Dr. Hull keeps busy by serving as a Clinical Teaching Supervisor for Fairleigh Dickinson University and Grand Canyon University, serving on the Cumberland County College Foundation Board and as the Managing Member of his family-owned tutoring program for children in kindergarten through eighth grade.

daily black history facts: *100 Amazing Facts About the Negro* Henry Louis Gates, Jr., 2017-10-24 The first edition of Joel Augustus Rogers's now legendary 100 Amazing Facts About the Negro with Complete Proof, published in 1934, was billed as "A Negro 'Believe It or Not.'" Rogers's little book was priceless because he was delivering enlightenment and pride, steeped in historical research, to a people too long starved on the lie that they were worth nothing. For African Americans of the Jim Crow era, Rogers's was their first black history teacher. But Rogers was not always shy about embellishing the "facts" and minimizing ambiguity; neither was he above shock journalism now and then. With élan and erudition—and with winning enthusiasm—Henry Louis Gates, Jr. gives us a corrective yet loving homage to Rogers's work. Relying on the latest scholarship, Gates leads us on a romp through African, diasporic, and African-American history in question-and-answer format. Among the one hundred questions: Who were Africa's first ambassadors to Europe? Who was the first black president in North America? Did Lincoln really free the slaves? Who was history's wealthiest person? What percentage of white Americans have recent African ancestry? Why did free black people living in the South before the end of the Civil War stay there? Who was the first black head of state in modern Western history? Where was the first Underground Railroad? Who was the first black American woman to be a self-made millionaire? Which black man made many of our favorite household products better? Here is a surprising, inspiring, sometimes boldly mischievous—all the while highly instructive and entertaining—compendium of historical curiosities intended to illuminate the sheer complexity and diversity of being "Negro" in the world. (With full-color illustrations throughout.)

daily black history facts: *The Sovereign Psyche* Ezra Aharone, 2016-04-30 The Sovereign Psyche is not just the title of the book. More importantly The Sovereign Psyche is the motivating consciousness, intellect, and willpower that is necessary to materialize what the book defines as Self-Authentic Freedom as opposed to Chattel Freedom. Chattel freedom is when the value of a people is predicated upon the extent to which they serve the interests and institutions of others. As such, this work asserts that there is no such thing as intellectual or institutional equality, and that Black/African people have been unknowingly thrust into an intellectual and institutional war, where second-place finishers either experience varying degrees of chattel freedom or they could end-up dead. Regardless of the issue, genuine solutions entail what we as Black/African people intellectually and institutionally do for ourselves. If Black Lives Matter we must channel the end-uses of our intellect and the resources of our institutions to not only prove and enforce it, but also leverage powers to penalize and/or repudiate violators. Although this work centers upon Black/African people, the sovereign functions and frameworks herein are universal in application, being that today's world rotates upon systems of sovereignty and power, not beliefs in democracy or equality. In this context, the sovereign concepts and criteria presented are far more rational than radical. The central question is, to what extent will Black/African people harness the willpower and employ the intellect of The Sovereign Psyche to actualize our own systems and institutions of self-authentic freedom, government, and development, without apology or permission? This work offers the ideological apparatus to make this possible, just as others are doing all around the globe.

daily black history facts: *The Healing Power of Education* Marcia J. Watson-Vandiver, Greg Wiggan, 2021 Situating the African American learning experience within the stream of historic enslavement and hundreds of years of institutionalized racism, this timely book introduces antiracist foundations for teaching in the 21st century. The authors take a holistic approach that uses Afrocentricity to identify and address critical omissions and distortions in school curricula. Drawing on empirical findings from a high-performing 100% African American school, they identify what teachers and students recognize as successful features of the schools' approach, including a unique learning environment, support systems, spiritual affirmations, evidences of Black education, a reframing of Afrocentricity, and education that promotes positive Black identity. This much-needed book demonstrates the healing power of education; provides evidence of social, emotional, and psychological transformation within the learning experience; and frames education as a tool for liberation. Book Features: Offers a clear chronological analysis of Black education in the United States and across the Diaspora. Includes the perceptions and experiences of students and teachers at a successful Afrocentric school. Provides the tools needed to teach multicultural histories in an antiracist way. Examines the benefits of Afrocentric curricula and the role of corrective history in promoting positive Black identity. Explores the intersections of precolonial history, student achievement, and Afrocentric education.

daily black history facts: *Multiracialism and Its Discontents* Hephzibah V. Strmic-Pawl, 2016-07-26 This book addresses the contemporary complexities of race, racial identity, and the persistence of racism. Multiracialism is often heralded as a breakthrough in racial reconciliation; some even go so far as to posit that the U.S. will become so racially mixed that racism will diminish. However, this comparative analysis of multiracials who identify as part-Asian and part-White and those who identify as part-Black and part-White indicates vastly different experiences of what it means to be multiracial. The book also attends to a nuanced understanding of how racism and inequality operate when an intersectional approach of race, class, gender, and sexual orientation is taken into account. It takes a focused look at how multiracialism is shaped by racism, but ultimately reveals a broader statement about race in the U.S. today: that there is no post-racial state and any identity or movement that attempts to address racial inequality must contend with that reality.

daily black history facts: *Blacks in the Military and Beyond* G.L.A. Harris, Evelyn L Lewis, 2019-07-31 African Americans have long used the military for gaining legitimacy and as the ultimate path to citizenship. *Blacks in the Military and Beyond* thoughtfully chronicles their tumultuous journey from slavery through the present, extending the ourstory to pre-service, in service and post-service economic considerations as significant factors in determining whether or not serving in the military has advantaged Blacks, and how such mechanisms like the periodic drawing down of forces have impacted Blacks overall. G.L.A. Harris and Evelyn L. Lewis delve into the role of the military as a conduit in helping to create and sustain the Black middle class, challenging the military to be more strategic as to the long term effects of its decisions to be ever mindful of upholding its moral compact with African Americans.

daily black history facts: The Shaping of Black Identities Jimmie R. Hawkins, 2025-02-04 Turn the traditional generational groupings on their head through this examination of Black life, culture, and the struggle for racial justice in the United States. *The Shaping of Black Identities* explores the generations of African Americans who have lived in the twentieth and early twenty-first centuries and the impact that living in the United States has had on them. Jimmie R. Hawkins examines how identity is formed and shaped by internal and external forces. He investigates collective memory and the stories told to each succeeding generation about the lives of the preceding generations. But most of all, this book is about belonging. Using the generational time frames established by the Pew Research Center, Hawkins proposes six new generational categories rooted in the Black experience: the New Negro, Motown, Black Power, Hip-Hop, #BlackLivesMatter, and Obama generations. He emphasizes the need for reexamination in distinguishing generational uniqueness with attention to disparate, nondominant groups. Given the history of racial and cultural discrimination against Blacks in the United States, such an examination of the ways in which Black life has taken its own unique shape among generations offers new ways to understand the transition in identity adopted by Blacks. Hawkins examines the historical contexts that shaped each generation and the general attitudes and perceptions of each generation as influenced by the cultural, political, and racial environment of the nation. Throughout, there is a unique focus on Black protest. With its attention to each generation of Blacks, *The Shaping of Black Identities* speaks to this active, liberative, and distinct historical attempt to define the self in the pivotal and ongoing search for meaning.
