Don't miss Framed, John Grisham's first work of nonfiction since *The Innocent Man*! Mercer Mann, a popular writer from Camino Island, is back on the beach, marrying her boyfriend, Thomas, in a seaside ceremony. Bruce Cable, infamous owner of Bay Books, performs the wedding. Afterward, Bruce tells Mercer that he has stumbled upon an incredible story. Mercer desperately needs an idea for her next novel, and Bruce now has one. The true story is about Dark Isle, a sliver of a barrier island not far off the North Florida coast. It was settled by freed slaves three hundred years ago, and their descendants lived there until 1955, when the last one was forced to leave. That last descendant is Lovely Jackson, elderly now, who loves her birthplace and its remarkable history. But now Tidal Breeze, a huge, ruthless corporate developer, wants to build a resort and casino on the island, which Lovely knows, deep down, is rightfully hers. Mercer befriends Lovely, and they plunge into an enormous fight over who owns Dark Isle, taking on Tidal Breeze Corporation, its lawyers, lobbyists, and powerful Florida politicians. But Lovely knows something about the island that could seriously cloud the dollar signs in the developer's eyes: the island is cursed. It has remained uninhabited for nearly a century for some very real and very troubling reasons. The deep secrets of the past are about to collide with the enormous ambitions of the present, and the fate of Dark Isle—and Camino Island, too—hangs in the balance. dark isle florida real estate: *Sunshine in the Dark* Susan J. Fernandez, Robert P. Ingalls, 2022-05-31 Florida has been the location and subject of hundreds of feature films, from *Cocoanuts* (1929) to *Monster* (2004). Portraying the state and its people from the silent era to the present, these films have explored the multitude of Florida images and clichés that have captured the public's imagination—a nature lover's paradise, a wildlife refuge, a tourist destination, home to the cracker, and a haven for the retired, the rich, the immigrant, and the criminal. *Sunshine in the Dark* is the first complete study of how the movie industry has immortalized Florida's extraordinary scenery, characters, and history on celluloid. Historians Fernández and Ingalls have identified more than 300 films about Florida—many of them shot on location in the state—to analyze how filmmakers from the Marx Brothers and John Huston to Oliver Stone and Francis Ford Coppola have portrayed the state and its people. Prior to the 1960s, cinematic trips to Florida usually brought happy endings in movies like *Moon Over Miami* (1942), but since the 1970s, films like *Scarface* (1982) have emphasized the state's menacing aspects. In the authors' analysis of the films, which examines location settings, plotlines, and characters, they find a bevy of Florida stereotypes among the leading characters—from the struggling crackers in *The Yearling* (1946) to the drug-addicted con man in *Adaptation* (2002). Featuring more than 100 still photographs from movies, as well as filmographies by year and genre, the book is an encyclopedic resource for movie fans and anyone interested in Florida popular culture.

For women the automobile was a useful tool as they worked to improve their quality of life. The automobile provided a means for Black, Indigenous, and White women to pull away from limitations and work toward greater freedom. dark isle florida real estate: Pleasure Island Rosalie Schwartz, 1999-01-01 Pleasure Island explores the tourism industry in Cuba between 1920 and 1960, as international travel ceased to be primarily a privilege of the wealthy, and incorporated the world's growing middle class. Rosalie Schwartz examines tourists' changing ideas of leisure and recreation, as well as the response of a colonial-era Spanish city turned fleshpot and endless cabaret. The tourism industry mushroomed in and around Havana after 1920, as hundreds of thousands of North Americans transformed the city in collaboration with a local business and political elite. The Depression, exacerbated by a bloody revolution in 1933, plunged the tourism industry into a downward spiral; its steady comeback after World War II, and Mafia-influenced 1950s heyday, ended abruptly when Fidel Castro came to power in 1959. The tourist stream was diverted to Cuba's Caribbean neighbors, where it remains. This work is a history of a very idiosyncratic industry, as well as a study of mass tourism's influence on the behavior, attitudes, and cultures of two politically linked but diverse nations. Rosalie Schwartz is a former lecturer in the Department of History at San Diego State University. She is the author of *Across the Rio to Freedom* and *Lawless Liberators: Political Banditry and Cuban Independence*, which won the 1990 Hubert B. Herring Book Award of the Pacific Coast Council on Latin American Studies.

dark isle florida real estate: Cumberland Island Mary R. Bullard, 2005-01-01 Cumberland Island is a national treasure. The largest of the Sea Islands along the Georgia coast, it is a history-filled place of astounding natural beauty. With a thoroughness unmatched by any previous account, *Cumberland Island: A History* chronicles five centuries of change to the landscape and its people from the days of the first Native Americans through the late-twentieth-century struggles between developers and conservationists. Author Mary Bullard, widely regarded as the person most knowledgeable about Cumberland Island, is a descendant of the Carnegie family, Cumberland's last owners before it was acquired by the federal government in 1972 and designated a National Seashore. Bullard's discussion of the Carnegie era on Cumberland is notable for its intimate glimpse into how the family's feelings toward the island bore upon Cumberland's destiny. Bullard draws on more than twenty years of research and travels about the island to describe how water, wind, and the cycles of nature continue to shape it and also how humans have imprinted themselves on the face of Cumberland across time--from the Timuca, Gule, and Mocama Indians to the subsequent appearances of Spanish, French, African, British, and American inhabitants. The result is an engaging narrative in which discussions about tidal marshes, sea turtles, and wild horses are mixed with accounts of how the island functioned as a center for indigo, rice, cotton, fishing, and timber. Even frequent visitors and former residents will learn something new from Bullard's account of Cumberland Island.

dark isle florida real estate: The Routledge Companion to the Philosophy of Architectural Reconstruction Zoltán Somhegyi, Lisa Giombini, 2024-05-30 This companion investigates the philosophical and theoretical foundations determining the conditions of possibility and the limits that make the conservation, readaptation, and transformation of past buildings legitimate operations. As increasing ecological and economic challenges question opportunities for new construction, the process of restoring, transforming, and readapting buildings for new or continued use is becoming an essential part of architectural practice. At the same time, the role of building conservation is changing from mere material preservation to being part of a broader strategy for social regeneration, eco-awareness, and inclusive urban planning. Chapters of this volume explore the complex set of considerations that inform decisions to merely preserve, accurately restore or variously reuse a building. They also look at the broader philosophical concerns such as ethical and aesthetic values, combined with ideas of heritage, history, and collective identity. Case studies on reconstruction after war, gentrification, the restoration of ancient edifices, reconstruction following the effects of climate change, and the use of technology solutions among many others, make this a timely and urgent volume. Adopting a broad transcultural perspective with contributions from five continents, the volume combines theoretical approaches with more practical, case study-based investigations and will be of great interest to upper-level students and academics working in the fields of architecture, conservation, urban design, aesthetics, and heritage management.
