dave pelzer abuse interview: *Child Protection in England, 1960-2000* Jennifer Crane, 2018-09-25 This book is open access under a CC BY 4.0 license. This open access book explores how children, parents, and survivors reshaped the politics of child protection in late twentieth-century England. Activism by these groups, often manifested in small voluntary organisations, drew upon and constructed an expertise grounded in experience and emotion that supported, challenged, and subverted medical, social work, legal, and political authority. New forms of experiential and emotional expertise were manifested in politics – through consultation, voting, and lobbying – but also in the reshaping of everyday life, and in new partnerships formed between voluntary

spokespeople and media. While becoming subjects of, and agents in, child protection politics over the late twentieth century, children, parents, and survivors also faced barriers to enacting change, and the book traces how long-standing structural hierarchies, particularly around gender and age, mediated and inhibited the realisation of experiential and emotional expertise.

dave pelzer abuse interview: The Story Within Us Megan Sweeney, 2012-09-11 This volume features in-depth, oral interviews with eleven incarcerated women, each of whom offers a narrative of her life and her reading experiences within prison walls. The women share powerful stories about their complex and diverse efforts to negotiate difficult relationships, exercise agency in restrictive circumstances, and find meaning and beauty in the midst of pain. Their shared emphases on abuse, poverty, addiction, and mental illness illuminate the pathways that lead many women to prison and suggest possibilities for addressing the profound social problems that fuel crime. Framing the narratives within an analytic introduction and reflective afterword, Megan Sweeney highlights the crucial intellectual work that the incarcerated women perform despite myriad restrictions on reading and education in U.S. prisons. These women use the limited reading materials available to them as sources of guidance and support and as tools for self-reflection and self-education. Through their creative engagements with books, the women learn to reframe their own life stories, situate their experiences in relation to broader social patterns, deepen their understanding of others, experiment with new ways of being, and maintain a sense of connection with their fellow citizens on both sides of the prison fence.

dave pelzer abuse interview: Survivors Gregory K. Moffatt, 2010-03-23 Case studies show how various personal, social, and protective factors can override seemingly unbearable trauma. Rather than addressing what goes wrong when people are traumatized, *Survivors: What We Can Learn from How They Cope with Horrific Tragedy* takes a positivist approach. Filled with stories of people who overcame seemingly unbearable events, the book examines the details of their traumas to explain what combination of factors enabled them to thrive despite their experiences. *Survivors* studies men and women, adults and children, Americans and those from other lands. It encompasses victims of the Nazi Holocaust, survivors of spinal injury, victims of violent crime, adult victims of child abuse, and survivors of the Rwandan genocide. Author Gregory K. Moffatt, a psychologist and counselor, looks at all of these cases in the light of research regarding post-traumatic growth and clinical implications. He explains the combination of social context and protective and personal factors identified as prime agencies for resilience, drawing lessons that can prepare us, not only for extreme trauma, but to deal with the everyday traumas that affect us all.
