dead inside chandler morrison quotes: *Timeline of America* Floyd Orr, 2006 Godzilla Stuffed into a Briefcase Columbus takes a vacation to The Bahamas, and discovers the area to be a fun place. He tells all his other adventurous friends about it, and they decide they all need vacations, too. Soon everybody in The Old Country is loading up enough beer to make the trip and sailing to The Bahamas. Hysterical events have surprised us, inventions have made us more comfortable, and recreational pursuits have all but dominated our lives. The story of America is told in a pair of Jekyll

& Hyde Timelines. You will meet the good doctor inside. His mean, ugly brother will arrive in 2008. This is a lot more than a pop culture trivia book, although no simpler phrase describes it. Ten timelines tell the story of America's development from the arrival of Columbus to the homeruns of Barry Bonds and the movie release of The Da Vinci Code. The story is separated into ten topics: events, comforts, cars, toys, movies, television, music, nerds, sports, and gossip. Like any competent trivia book, there is a test at the end, but this tale is about the quest, not the grail. This is a capsule history of the things that have defined us, and Godzilla doesn't like being so tightly restrained.

dead inside chandler morrison quotes: Doing Criticism James Chandler, 2022-04-04 Not only an accessible hands-on guide to writing criticism across the literary arts, the dramatic arts, and the narrative screen arts, but also a book that makes a case for how and why criticism matters today Doing Criticism: Across Literary and Screen Arts is a practical guide to engaging actively and productively with a critical object, whether a film, a novel, or a play. Going beyond the study of lyric poetry and literature to include motion picture and dramatic arts, this unique text provides specific advice on how to best write criticism while offering concrete illustrations of what it looks like on the page. Divided into two parts, the book first presents an up-to-date account of the state of criticism in both Anglo-American and Continental contexts—describing both the longstanding mission and the changing functions of criticism over the centuries and discussing critical issues that bridge the literary and screen arts in the contemporary world. The second part of the book features a variety of case studies of criticism across media, including works by canonical authors such as Jane Austen, Charles Dickens, and W. B. Yeats; films such as Coppola's The Conversation and Hitchcock's Vertigo; screen adaptations of Mary Shelley's Frankenstein and Ishiguro's The Remains of the Day; and a concluding chapter on several of Spike Lee's film joints that brings several of the book's central concepts to bear on work of a single film auteur. Helping students of literature and cinema write well about what they find in their reading and viewing, Doing Criticism: Across Literary and Screen Arts: Discusses how the bridging of the literary arts and screen arts can help criticism flourish in the present day Illustrates how the doing of criticism is in practice a particular kind of writing Considers how to generalize the consequences of criticism beyond personal growth and gratification Addresses the ways the practice of criticism matters to the practice of the critical object Suggests that doing without criticism is not only unwise, but also perhaps impossible Features case studies organized under the rubrics of conversation, adaptation, genre, authorship and seriality Doing Criticism: Across Literary and Screen Arts is an ideal text for students in introductory courses in criticism, literary studies, and film studies, as well as general readers with interest in the subject.

dead inside chandler morrison quotes: "Twice the Thrills! Twice the Chills!" Bryan Senn, 2019-03-19 In the mid-1950s, to combat declining theater attendance, film distributors began releasing pre-packaged genre double-bills—including many horror and science fiction double features. Though many of these films were low-budget and low-end, others, such as Invasion of the Body Snatchers, Horror of Dracula and The Fly, became bona fide classics. Beginning with Universal-International's 1955 pairing of Revenge of the Creature and Cult of the Cobra, 147 officially sanctioned horror and sci-fi double-bills were released over a 20-year period. This book presents these double features year-by-year, and includes production details, historical notes, and critical commentary for each film.
