dearly devoted dexter book online: Language, Ideology and Identity in Serial Killer Narratives Christiana Gregoriou, 2011-01-25 In this book, Gregoriou explores the portrayal of the serial killer identity and its related ideology across a range of contemporary crime narratives, including detective fiction, the true crime genre and media journalism. How exactly is the serial killer consciousness portrayed, how is the killing linguistically justified, and how distinguishing is the language revolving around criminal ideology and identity across these narrative genres? By employing linguistic and content-related methods of analysis, her study aims to work toward the development of a stylistic framework on the representation of serial killer ideology across factual (i.e. media texts), factional (i.e. true crime books) and fictional (i.e. novels) murder narratives. 'Schema' is a term commonly used to refer to organised bundles of knowledge in our brains, which are activated once we come across situations we have previously experienced, a 'group schema' being one such inventory shared by many. By analysing serial murder narratives across various genres, Gregoriou uncovers a widely shared 'group schema' for these murderers, and questions the extent to which real criminal minds are in fact linguistically fictionalised. Gregoriou's study of the mental functioning and representation of criminal personas can help illuminate our schematic understanding of actual criminal minds.

Not to mention that his Dark Passenger still waits to hunt with him in the moonlight. The discovery of a corpse (artfully displayed as a sunbather relaxing on a Miami beach chair) naturally piques Dexter's curiosity and Miami's finest realize they've got a terrifying new serial killer on the loose. Excerpt: This is a list of characters from the Showtime TV series Dexter and the Jeff Lindsay novels, including Darkly Dreaming Dexter (on which the show was based), Dearly Devoted Dexter, Dexter in the Dark, Dexter by Design, and Dexter is Delicious. Dexter Dex Morgan (born Moser) is the main character and narrator of the series. Dexter is a forensics expert and blood spatter analyst employed by the Miami Metro Police Department, but has a double life as a serial killer. As young boys, he and his older brother Brian witnessed the murder of their mother, Laura Moser, and were left for two days in a shipping container filled with blood. The incident left them psychologically scarred. Soon afterwards, Dexter was adopted by Harry Morgan, who hoped to help repress his memory of the death of his mother. However, he soon realized that Dexter had an insatiable urge to kill that would begin to intensify. Harry, frustrated with the number of people who avoided justice, decided to train Dexter as a killer who would target and dispatch other murderers. Dexter considers himself emotionally divorced from the rest of humanity; in his narration, he often refers to humans as if he is not one of them. Dexter makes frequent references to an internal feeling of emptiness, leading to several attempts in his youth to feel alive. Dexter claims to have no feelings or conscience and that all of his emotional responses are part of a well-rehearsed act to conceal his true nature. In the first season of the television series he had no interest in romance...
