criminal justice textbook 4th edition: Criminal Justice in the 21st Century (4th Edition) Laura J. Moriarty, 2025-03-26 The fourth edition of Criminal Justice Technology in the 21st Century

comes just about five years after the COVID-19 pandemic when technology took a more prominent role in our everyday lives and, more importantly, in the criminal justice system. Ideas that once were mere thoughts from academics pondering the future have become everyday realities. While most areas of life came to a standstill as the pandemic ensued, the criminal justice system could not stop. Crime adapts more seamlessly than other aspects of society, and as such, the criminal justice system needed to adapt as well. The contributing authors were asked to consider the pandemic and its impact on evolving technology and advancements to address crime. Likewise, other societal concerns focusing on law enforcement and its questionable use of force, at times, have escalated the need for technology to ensure that “over-policing” in minority neighborhoods and accountability is established (or not) to deescalate violence, whether police brutality or protester police violence. The impact of technology remains to be seen, but there is real hope that such technology can begin to shed light on what is happening in these volatile situations. Either the current contributors have updated their chapters from the Third Edition, or there are new contributors focusing on the abovementioned issues. This fourth edition, with more than 20 contributors, highlights the most current thinking about criminal justice technology. The book is longer than the previous editions but has fewer chapters. This is the result of paring down what is included in this new edition. The hope is that these chapters will be the most relevant and useful to both the expert and the neophyte. Criminal justice technology will continue to advance, and we must keep abreast of new trends.

criminal justice textbook 4th edition: *The Police and Society* Victor E. Kappeler, Brian P. Schaefer, 2018-09-11 The most productive route to understanding the dynamic interrelationships of the police with society is to examine the recurring, central themes in policing. The articles in this anthology represent some of the best scholarship on compelling issues. Selected for both their complementary and competing natures, the articles serve as touchstones for one another—often challenging previous conceptions. Many selections question the methods by which information was acquired, the practices that evolved from that information, and the background assumptions behind the construction of practices. Some of the many issues and conflicts addressed in this collection include: What is the nature of the police role and function? Who benefits from police service? Who is harmed? How are public safety and social order secured while maintaining individual rights and freedoms? To what extent do our expectations about the police and society reflect our values and demands? Are the police a society unto themselves? Is policing at a critical crossroads? The editors assembled this volume with the goal of helping readers to identify underlying assumptions, to dissect how values influence inquiries, and to discover connections. A better understanding of the role of the police in society provides a solid foundation for assessing the efficacy of future police/society relationships.
