dr john delony mental health: *Building a Non-Anxious Life* Dr. John Delony, 2023-10-03 Why are my anxiety alarms going off all the time? Why do I feel like I'm in an endless cycle of blame and anger and impatience? Why are the people I love most melting down around me? No one needs to be told that our lives are filled with more anxiety than ever before. We know it. Our bodies can feel it. The questions we really need to answer Why? and Is there anything we can do about it? Dr. John Delony decided to get to the root of the issue by mapping out a plan to understand where our anxiety is coming from and the actions we can take to change it (because he's been there too). And you will learn to be well.

dr john delony mental health: Own Your Past Change Your Future Dr. John Delony, 2022-04-19 Get on the path to being well. We're the most technologically advanced society in history, but we've never been more stressed, medicated, or lonely. We have 1,000 Facebook friends but no one to help us move our couch. The pace of life is making us exhausted. We're all carrying the weight of our trauma based on the stories we were told by others and the ones we tell ourselves—and those stories are like bricks in a backpack that keep us from being happy and healthy. In his new book, national bestselling author Dr. John Delony provides a clear, five-step path to being well. You'll learn how to: * Redefine what trauma is and how to identify it in your life. * Grieve and heal from past hurt and trauma. * Make friends as an adult—it's not easy, but it is necessary. * Change your thoughts—it's possible. * Assess and evaluate your actions—these can change too. You'll laugh. You'll cry. Your thoughts and actions will be challenged. And if you take the steps John outlines, you'll learn how to leave the past where it belongs and get on the path to healing.

dr john delony mental health: God's People Count Carl Barrett, 2023-10-17 We are undoubtedly living in a society and culture that is growing stranger by the day—creating more distance between others, minute by minute. It seems that people are living in their own little bubbles and silos more than ever—with no interest in connecting with people effectively. And it is evident that the rise of the digital age is affecting people mentally and emotionally, leading to voidness and isolation and a sense of hopelessness and helplessness. Billions of people are connecting with an unproductive device in their hands when it should be the word of God! There is no spiritual value when we allow the things of this world to consume our lives more than God's divine nature. Do we really think anything will improve in our homes, communities, churches, schools, country, and globally if we're not grounded and connected in the Truths of his word? We must realize that connecting with humans physically, emotionally, and spiritually is how God designed us. Just like our Creator wants a relationship with you and me, he wants us to bond with others so they can also see the experience of his abundant blessings and goodness in our lives. We cannot afford to be on the sidelines because it's all about cultivating genuine care for God's creation and putting it into practice for the sake of ourselves and others, now more than ever.
