educated tara westwood chapter summary: 17 Things Your Pastor Will Never Tell You

Wayland Bryant Jackson, 2025-07-01 17 Things Your Pastor Will Never Tell You ventures beyond traditional interpretations of faith and scripture to provide the historical context for fresh perspectives on biblical stories. It's time we tackled the forbidden topics, those parts of the Bible that have been misunderstood or overlooked, to dive deeper into the important questions of faith. Readers will be surprised to find that Genesis says the world was created by two different Gods—and one of them ordered the world's first genocide. Shockingly, Satan was one of the good guys, and both a serpent and a donkey had conversations with humans. Believe it or not, an early church bragged about a member who was sleeping with his mother. Jesus was not born in mid-winter, and Matthew and Luke were both plagiarists. And, what if you knew the Bible nowhere recommends that Christians tithe? These heart-stopping topics, at times deadly serious and other times quite funny, will be put under the microscope in 17. It's a grab bag—you can never tell what going to pop up next. By blending humor with earnest inquiry, 17 is engaging readers to reconsider what they thought they knew about Christianity, presenting a liberating call for deeper understanding and personal growth in one's faith journey.

educated tara westwood chapter summary: Summary of Educated Learnify-me, 2018-07-25 Tara Westover was seventeen the first time she set foot in a classroom. Born to survivalists in the mountains of Idaho, she prepared for the end of the world by stockpiling home-canned peaches and sleeping with her head-for-the-hills bag. In the summer she stewed herbs for her mother, a midwife and healer, and in the winter she salvaged in her father's junkyard. Her father distrusted the

medical establishment, so Tara never saw a doctor or nurse. Gashes and concussions, even burns from explosions, were all treated at home with herbalism. The family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when an older brother became violent. When another brother got himself into college and came back with news of the world beyond the mountain, Tara decided to try a new kind of life. She taught herself enough mathematics, grammar, and science to take the ACT and was admitted to Brigham Young University. There, she studied psychology, politics, philosophy, and history, learning for the first time about pivotal world events like the Holocaust and the Civil Rights Movement. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home.
