fred mcdonald s hours: Stegomyia William Kunle Adeniyi, 2019-08-08 Growing up in a small village in Nigeria, William Adeniyi knew that his opportunities in life would be limited unless he was relentless in his pursuit of education. The death of his father left William, his sister, and their mother in financial straits. Despite that, William's mother was dedicated to her children's schooling...until she too died, leaving William an orphan at a crucial juncture of his life. Stegomyia is the story of how William overcame seemingly insurmountable personal and financial challenges to graduate from Titcombe College, the prestigious high school run by Canadians and Americans of the Sudan Interior Mission, and his subsequent academic career in America as a student and then as a professor at North Carolina Agricultural and Technical State University. From the perils of Nigeria's political bloodbath to the frustrations of immigration to America, from bullies in elementary school to racist colleagues in the US, from despair when everything was taken from him to dawning hope thanks to helping hands from people who believed in William's future, this memoir is a compelling chronicle of a life lived in defiance of the odds. A clear-eyed, honest assessment of what it means to embrace the American Dream, Stegomyia is both inspirational and cautionary, an epic true story of determination and hard work.

fred mcdonald s hours: Greenie'S Path Greenie, 2011-10-26 Greenies Path: The Search for

Christopher Hiltaychuk presents a unique look at an adopted child's life told from the child's perspective. It is also a testament to the people who chose to take the challenge of raising another's child as their own and loving that child as much as any birth parent could, if not more. Author Greenie is grateful for the loving care that his adoptive parents gave him, but he is also naturally very curious about the people who gave him up for adoption. Greenie is intrigued by the knowledge that there are people in this world with the same genetic history as his people with whom he shares an unspoken bond. He describes his life, thoughts, and feelings for his birth parents, the people who felt their own world and circumstances were not ideal for raising a child at that time. He considers whether they ever wondered what happened to one of their own, one of their brothers, uncles, or grandchildren. Greenie's Path is the true story of the path his life has taken the man he has become. No matter what paths lay ahead, Greenie's Path captures that need for a sense of belonging to a family is such an integral foundation to their success in the world.

fred mcdonald s hours: Boom & Bust Jennifer L. Butler, 2019-06-11 Received Honourable Mention for the 2019 Lieutenant Governor's Medal for Historical Writing Telegraph Cove, one of Vancouver Island's most visited tourist destinations, has humble origins as a one-shack telegraph station, established a century ago. The community grew, first with a salmon saltery and sawmill, then with new industries developed by the ingenuity of the Cove's inhabitants. From the 1920s, Irish, Chinese, Japanese, German, Danish, Italian, and English community members, along with other old and new Canadians, were neighbours in a place accessible only by boat. In this book, more than 25 women tell their own stories and memories of life in the Cove. They faced down the impacts of isolation, hazardous terrain, war, occupation, immigration, internment, social change, economic development, community decline, and environmental degradation—remarkable, given that Telegraph Cove's population peaked at 60. From these lives come stories of resilience, resourcefulness,

heartbreak, humour, and triumph. Boom and Bust draws the reader in for an intimate view, accompanied by never-before-published archival photographs.
