george hickey interview: *Who's Who in the Secret Service* Vincent Palamara, 2018-08-22 America's oldest law enforcement agency, the United States Secret Service, has never been exposed like this before. The Secret Service has made many headlines through the decades, especially in the last five years. This book presents a thorough look at more than 100 of the most famous, infamous, and interesting agents who have protected presidents from William McKinley to John F. Kennedy to President Trump and everyone in between. Students of history will find much to contemplate in this revealing, entertaining, and sometimes disturbing book. Readers will never look at the men who guard the president the same way ever again.

george hickey interview: *Sensing Changes* Joy Parr, 2010-07-01 Our bodies are archives of sensory knowledge that shape how we understand the world. But if global environmental changes continue at their present unsettling pace, how will we make sense of time and place when the air, land, and water around us are no longer familiar? Joy Parr, one of Canada's premier historians, tackles this question by exploring situations in the recent past when state-driven megaprojects such as chemical plants, dams, nuclear reactors, transportation corridors, and new regulatory regimes forced people to cope with radical transformations in their work and home environments. In each case, the familiar was transformed so thoroughly that residents no longer recognized where they lived or, by implication, who they were. *Sensing Changes* and its associated website, <http://megaprojects.uwo.ca>, make a key contribution to environmental history and the emerging field of sensory history. This study offers a timely, prescient perspective on how humans make sense of the world in the face of rapid environmental change.

george hickey interview: *Survivor's Guilt* Vincent Palamara, 2013-10-01 Painstakingly researched by an authority on the history of the Secret Service and based on primary, firsthand accounts from more than 80 former agents, White House aides, and family members, this is the definitive account of what went wrong with John F. Kennedy's security detail on the day he was assassinated. The work provides a detailed look at how JFK could and should have been protected and debunks numerous fraudulent notions that persist about the day in question, including that JFK ordered agents off the rear of his limousine; demanded the removal of the bubble top that covered the vehicle; and was difficult to protect and somehow, directly or indirectly, made his own tragic death easier for an assassin or assassins. This book also thoroughly investigates the threats on the president's life before traveling to Texas; the presence of unauthorized Secret Service agents in Dealey Plaza, the site of the assassination; the failure of the Secret Service in monitoring and securing the surrounding buildings, overhangs, and rooftops; and the surprising conspiratorial beliefs of several former agents. An important addition to the canon of works on JFK and his assassination, this study sheds light on the gross negligence and, in some cases, seeming culpability, of those sworn to protect the president.

george hickey interview: *The Zapruder Film* David R. Wrone, 2003-11-22 It is the most famous home movie of all time, the most closely analyzed 26 seconds of film ever shot, the most disturbing visual record of what many have called "the crime of the century." In 486 frames—a mere six feet of celluloid—Abraham Zapruder's iconic film captures from beginning to end the murder of President John F. Kennedy in broad daylight. An essential piece of evidence, the film has become nearly synonymous with the assassination itself and has generated decades of debate among conspiracy theorists and defenders of the Warren Commission's official report. Until now, however, no scholar has produced a comprehensive book-length study of the film and its relation to the tragic events of November 22, 1963. David Wrone, one of our nation's foremost authorities on the assassination, re-examines Zapruder's film with a fresh eye and a deep knowledge of the forensic evidence. He traces the film's history from its creation on the "grassy knoll" by Dallas dressmaker Zapruder through its initial sale to Life magazine and early reproductions and its analysis by the Warren Commission and countless assassination researchers, licensing by the Zapruder family, legal battles over bootleg copies, and sale to the federal government for sixteen million dollars. Wrone's major contribution, however, is to demonstrate how a close examination of the film itself necessarily

refutes the Warren Commission's lone-gunman and single-bullet theories. The film, as he reminds us, provides a scientifically precise timeline of events, as well as crucial clues regarding the timing, number, origins, and impact of the shots fired that day. Analyzing the film frame-by-frame in relation to other evidence—including two key photos by Phil Willis and Ike Altgens—he builds a convincing case against the official findings. Without fanfare, he concludes that more than three gunshots were fired from more than one direction and that most likely none were fired by alleged assassin Lee Harvey Oswald. If true, then JFK's death was the result of a conspiracy, for the Commission's nonconspiracy conclusion requires a maximum of three shots and one gunman. Wrone, however, does not speculate as to who actually shot JFK or why—or even if Oswald was a part of the conspiracy. In fact, he is no fan of conspiracy-think and is just as critical of the legion of conspiracy theorists as he is of the Warren Commission (which, he reveals, crushed dissent within its own ranks). Doggedly pursuing the evidence wherever it leads, Wrone has produced a meticulous, clear-eyed, and provocative new reading of this remarkable cinematic Rosetta Stone.

george hickey interview: Murder from Within Fred T. Newcomb, Perry Adams, 2011-11 Written in 1974, *Murder From Within* was the first book on the Kennedy assassination to document accurately and in detail how and why President Kennedy was killed. Unlike other conspiracy books, there is no conjecture or uncertainty as to what happened on Nov 22, 1963. Documented facts and eyewitness accounts from public records and the authors' own private interviews draw a clear picture of the events on that fateful day. Because of the names named and who they were, *Murder from Within* was never published beyond the 100 copies originally printed.--Dust jacket.

george hickey interview: Prophets and Bad Guys Richard Staples, 2010-05 Mohammad Baghai, a Muslim terrorist who is about to execute an American, suddenly releases his hostage for no apparent reason. He sneaks into the United States, converts to Christianity, and then surrenders to the FBI. Casey Edgars, a prominent televangelist, proclaims Baghai to be a prophet of God and demands a presidential pardon. When President Jennifer Hays refuses, she faces an impeachment movement led by partisan politicians. Hays is able to use a terrorist attack in America and exploit an anomaly in the Constitution to defeat her political enemies. Set in the far-flung areas of Pensacola, Florida; Dahlonga, Georgia; and Washington, D.C.; this religious/political thriller is a contemporary nail biter. The debut novel of author Richard Staples was inspired by the book *23 Minutes in Hell* by Bill Wiese. He lives in Atlanta with Jackie, his wife of 24 years. His next book is about ghosts and spirits, and their inability to move on to the afterlife. Publisher's website: <http://www.strategicpublishinggroup.com/title/ProphetsAndBadGuys.htm>

george hickey interview: Not-So-Secret Service Vincent Palamara, 2017-04-21 While there haven't been many Secret Service related books about U.S. presidents, the ones still in print (and even those long out of print) are often sanitized memoirs of a politically correct nature or tell-all tabloid historical junk meant merely for entertainment purposes. The Not-So-Secret Service provides the facts with the bark off, so to speak, and reveals politically incorrect information of a decidedly unsafe nature. It may be controversial and against the grain, but this book is heavily documented and timely, as the Secret Service guards our political candidates, foreign dignitaries, and, of course, the President, the first family and the ex-presidents and their families.

george hickey interview: Zero Fail Carol Leonnig, 2021-05-18 NEW YORK TIMES BESTSELLER • The first definitive account of the rise and fall of the Secret Service, from the Kennedy assassination to the alarming lapses of the Obama and Trump years—from Pulitzer Prize-winning journalist Carol Leonnig “This book is a wake-up call, and a valuable study of a critically important agency.”—The New York Times A WASHINGTON POST BEST BOOK OF THE YEAR Carol Leonnig reported on the Secret Service for nearly a decade, bringing to light the secrets, scandals, and shortcomings that plague the agency today—from a toxic workplace culture to dangerously outdated equipment to the deep resentment within the ranks at key agency leaders, who put protecting the agency’s once-hallowed image before fixing its flaws. The Secret Service was born in 1865, in the wake of the assassination of Abraham Lincoln, but its story begins in earnest in 1963, with the death of John F. Kennedy. Shocked into reform by its failure to protect the president on that fateful day in Dallas, this once-sleepy agency was radically transformed into an elite, highly trained unit that would redeem itself several times, most famously in 1981 by thwarting an assassination attempt against Ronald Reagan. But by Barack Obama’s presidency, the once-proud Secret Service was running on fumes and beset by mismanagement and mistakes in judgement: break-ins at the White House, an armed gunman firing into the windows of the residence while confused agents stood by, and a massive prostitution scandal among agents in Cartagena, to name just a few. With Donald Trump’s arrival, a series of promised reforms were cast aside, as a president disdainful of public service instead abused the Secret Service to rack up political and personal gains. To explore these problems in the ranks, Leonnig interviewed dozens of current and former agents, government officials, and whistleblowers who put their jobs on the line to speak out about a hobbled agency that is in desperate need of reform.

george hickey interview: Reclaiming History: The Assassination of President John F. Kennedy Vincent Bugliosi, 2007 Bugliosi, brilliant prosecutor and bestselling author, is perhaps the only man in America capable of prosecuting Lee Harvey Oswald for the murder of John F. Kennedy. His book is a narrative compendium of fact, ballistic evidence, and, above all, common sense.

george hickey interview: Once Upon a Time in War Robert E. Humphrey, 2014-02-06 For the soldier on the front lines of World War II, a lifetime of terror and suffering could be crammed into a few horrific hours of combat. This was especially true for members of the 99th Infantry Division who repelled the Germans in the Battle of the Bulge and engaged in some of the most dramatic, hard-fought actions of the war. Once Upon a Time in War presents a stirring view of combat from the perspective of the common soldier. Author Robert E. Humphrey personally retraced the path of the 99th through Belgium and Germany and conducted extensive interviews with more than three hundred surviving veterans. When Humphrey discovered that many 99ers had gone to their graves without telling their stories, he set about to honor their service and coax recollections from survivors. The memories recounted here, many of them painful and long repressed, are remarkable for their clarity. These narratives, seamlessly woven to create a collective biography, offer a gritty reenactment of World War II from the enlisted man’s point of view. Although focused on a single division, Once Upon a Time in War captures the experiences of all American GIs who fought in Europe. For readers captivated by Band of Brothers, this book offers an often tragic, sometimes heartwarming, but always compelling read.
