glenda cleveland trial: Cannibal Killers Moira Martingale, 2015-10-29 Anthropophagy - humans eating their fellow-humans - creates a curious blend of revulsion and fascination in the 'civilised' Western world. When the perpetrator is a murderer - most commonly a sadistic serial killer - the crime not only shocks but it causes bewilderment. With this 2015 update of her comprehensive 1993 study of cannibalistic killers, Moira Martingale expands her original research about the making of such monsters. Cannibal Killers tracked the phenomenon from five hundred years ago with the notorious Sawney Bean to those whose names became a byword for horror as the twentieth century waned, such as Jeffrey Dahmer. In this updated version, we see that in the twenty-first century cannibals who thirst for human flesh and blood are still around, and alarmingly, they have moved online.

glenda cleveland trial: The Sins of the Father Thomas Dixon, 2004-12-17 Today, Thomas Dixon is perhaps best known as the author of the best-selling early twentieth-century trilogy that included the novel *The Clansman* (1905), which provided the core narrative for D.W. Griffith's groundbreaking and still-controversial film *The Birth of a Nation*. It was *The Sins of the Father*, however, that Dixon regarded as the most aesthetically satisfying child of his Ku Klux Klan saga. In this novel he telescopes the trilogy's sprawling historical canvas into one tightly scripted narrative. A best-seller in 1912, the novel's themes of interracial sex and incest outraged many upon its publication. Nearly a century later, Dixon's work is undergoing a critical reevaluation. A new introduction by Steven Weisenburger lends a valuable historical and critical perspective to this important and divisive classic of American literature. Thomas Dixon (1864-1946) was born in Shelby, North Carolina. He is also the author of *The Clansman* and *The Flaming Sword*. Steven Weisenburger, Mossiker Chair in Humanities at Southern Methodist University, is the author of several books, including *Modern Medea: A Family Story of Slavery and Child- murder from the Old South*.

glenda cleveland trial: Surrogate Suburbs Todd M. Michney, 2017-02-08 The story of white flight and the neglect of Black urban neighborhoods has been well told by urban historians in recent decades. Yet much of this scholarship has downplayed Black agency and tended to portray African Americans as victims of structural forces beyond their control. In this history of Cleveland's Black middle class, Todd Michney uncovers the creative ways that members of this nascent community established footholds in areas outside the overcrowded, inner-city neighborhoods to which most African Americans were consigned. In asserting their right to these outer-city spaces, African Americans appealed to city officials, allied with politically progressive whites (notably Jewish activists), and relied upon both Black and white developers and real estate agents to expand these "surrogate suburbs" and maintain their livability until the bona fide suburbs became more accessible. By tracking the trajectories of those who, in spite of racism, were able to succeed, Michney offers a valuable counterweight to histories that have focused on racial conflict and Black poverty and tells the neglected story of the Black middle class in America's cities prior to the 1960s.

glenda cleveland trial: *The Greatest Criminal Cases* J. Michael Martinez, 2014-03-28 This fascinating book recounts the compelling stories behind 14 of the most important criminal procedure cases in American legal history. Many constitutional protections that Americans take for granted today—the right to exclude illegally obtained evidence, the right to government-financed counsel, and the right to remain silent, among others—were not part of the original Bill of Rights, but were the result of criminal trials and judicial interpretations. The untold stories behind these cases reveal circumstances far more interesting than any legal dossier can evoke. Author J. Michael Martinez provides a brief introduction to the drama and intrigue behind 14 leading court cases in American law. This engaging text presents a short summary of high-profile legal proceedings from the late 19th century through recent times and includes key landmark cases in which the court established the parameters of probable cause for searches, the features of due process, and the legality of electronic surveillance. The work offers concise explanations and analysis of the facts as well as the lasting significance of the cases to criminal procedure.

glenda cleveland trial: *Jim Crow: Voices from a Century of Struggle Part 2 (LOA #387)*

Tyina L. Steptoe, 2025-06-17 A vivid firsthand record of the struggle for legal equality and dignity in the face of segregation and racial terror from 1919 to 1976 W.E.B. Du Bois famously identified the problem of the color-line as the defining issue in American life. The powerful writings gathered here reveal the many ways Americans, Black and white, fought against white supremacist efforts to police the color line, envisioning a better America in the face of disenfranchisement, segregation, and widespread lynching, mob violence, and police brutality. *Jim Crow: Voices from a Century of Struggle, Part Two* brings together speeches, pamphlets, newspaper and magazine articles, public testimony and appeals, judicial opinions, and poems and song lyrics—more than ninety essential texts in all—from the end of the bloody “Red Summer” of 1919 to the Boston busing crisis of 1974–76. This volume includes writing by both famous and lesser known individuals, including • B. C. Franklin on the Tulsa Massacre • Robert Russa Moton’s suppressed address on the dedication of the Lincoln Memorial • Alain Locke’s tribute to “the New Negro” • Ned Cobb’s recounting of the harsh realities of sharecropping • Thurgood Marshall on police brutality in wartime Detroit • Rosa Parks’s appeal for justice for Recy Taylor • Earl Warren’s landmark opinion in *Brown* • Paul Robeson’s defiant response to congressional inquisitors • Fannie Lou Hamer’s eloquent challenge to disenfranchisement in Mississippi • and James Baldwin on the myths and meaning of the American Dream Also presented are white supremacist writings from the 1920s Klan and the Dixiecrats of 1948; examples of Southern voter literacy tests; blues lyrics sung by Bessie Smith and Big Bill Broonzy; Robert F. Williams’s controversial call for armed Black self-defense; speeches by Marcus Garvey and Stokeley Carmichael; letters in the Black press about Confederate monuments; Ann Moody on her childhood in segregated Mississippi; and Mary McLeod Bethune’s advocacy for reproductive rights as an essential element of democratic freedom. As the teaching of our nation’s history, especially the history of race in America, becomes increasingly contested, this book will serve as a vital resource, a crucial reminder of where we’ve been, how far we’ve come, and how long the road ahead remains.
