health ranger mike adams wife: Republic of Lies Anna Merlan, 2019-04-16 "[An] engrossing assessment of the profitable mainstreaming of conspiracy mongering in civic and political life . . . A lucid look at a slippery topic." —Kirkus Reviews American society has always been fertile ground for conspiracy theories, but with the election of Donald Trump, previously outlandish ideas suddenly attained legitimacy. Trump himself is a conspiracy enthusiast: From his claim that global warming is a Chinese hoax to the accusations of "fake news," he has fanned the flames of suspicion. But it was not one man alone who gave these ideas increased power. Republic of Lies looks beyond the caricatures of conspiracy theorists to explain their tenacity. Without lending the theories validity, Anna Merlan gives a nuanced, sympathetic account of the people behind them, across the political spectrum, and the circumstances that helped them take hold. The lack of a social safety net, inadequate education, bitter culture wars, and years of economic insecurity have created large groups of people who feel forgotten by their government and even besieged by it. Our contemporary conditions are a perfect petri dish for conspiracy movements: a durable, permanent, elastic climate of alienation and resentment. All the while, an army of politicians and media figures have peddled fear to serve their own ends. Bringing together penetrating historical analysis and gripping on-the-ground reporting, Republic of Lies transforms our understanding of American paranoia. "A captivating book that illuminates the landscape of conspiracy theories and what they might say about society as a whole." —New York Magazine

health ranger mike adams wife: Mad Matters Brenda A. LeFrançois, Robert Menzies, Geoffrey Reaume, 2013 In 1981, Toronto activist Mel Starkman wrote: An important new movement is sweeping through the western world.... The 'mad,' the oppressed, the ex-inmates of society's asylums are coming together and speaking for themselves. Mad Matters is the first Canadian book to bring together the writings of this vital movement, which has grown explosively in the years since. With contributions from scholars in numerous disciplines, as well as activists and psychiatric survivors, it presents diverse critical voices that convey the lived experiences of the psychiatrized and challenges dominant understandings of mental illness. The connections between mad activism and other liberation struggles are stressed throughout, making the book a major contribution to the literature on human rights and anti-oppression.

health ranger mike adams wife: Alt-America David Neiwert, 2017-10-17 Just as Donald Trump's victorious campaign for the US presidency shocked liberal Americans, the seemingly

sudden national prominence of white supremacists, xenophobes, militia leaders, and mysterious Alt-Right leaders mystifies many. But the extreme Right has been growing steadily in the US since the 1990s, with the rise of Patriot militias; following 9/11, when conspiracy theorists found fresh life; and in virulent reaction to the first black president of the country. Nurtured by a powerful right-wing media sector in radio, TV, and online, the Far Right, Tea Party movement conservatives, and Republican activists found common ground in Producerist ideology and constitutionalist interpretations of US law-an alternative America that is resurgent, even as it has been ignored by the political establishment and mainstream media. Investigative reporter David Neiwert has been tracking extremists for more than two decades, and here he provides a deeply reported and authoritative report on the background, mindset, and growth on the ground of Far Right movements across the country. The product of years of reportage, and including the most in-depth investigation of Trump's ties to Far Right figures, this is a crucial book about one of the most disturbing sides of the US.

health ranger mike adams wife: Integrity.... When No One's Looking Marvin Soskil, 2022-05-04 We all have freedom of choice. Nobody is telling you what you must do. It is your conscience that you have to live with! As we look around us these days, do you notice how the world has changed? We went from better to worse, worse to horrific and we're heading from horrific to dread? We can have the power to control situations, only if we raise the levels of our own consciousness and get back to basics. Remember when we wore white shirts and black ties for assembly? When your parents told you to do something you didn't ask why, you just did it? When No One is Looking is about bringing Integrity back into our lives and being more conscious of decisions we make and actions we take which can make this a better world. The most influential tool we have in your entire arsenal is your integrity. - Zig Zigler Only a person with integrity has the ability to command a long time respect and admiration, young or old, rich or poor. It doesn't matter what you have now, you can live with integrity and elegance and you can take utmost pride in that. That is because integrity is something you decide to have. It is a principle you chose to live by. Each of us will someday, be judged by our standard of life, not by the standard of living; by our measure of giving, not by our measure of wealth; by our simple goodness, not by seeming greatness - William Arthur Ward

health ranger mike adams wife: The Asylum Shane McMinn, 2017-02-27 Earth has been controlled for eons by the 'dark forces' by instilling a project of 'fear', and we have all been deceived on a grand scale. They have achieved this by stealth through their secret societies, groups, governments and institutes to create a New World Order. They have controlled populations and culled humans through their man-made diseases such as Ebola and HIV/AIDS. They control humanity with prescription drugs, technology, food additives, vaccines and they suppress the cures for cancer. They control the media, create wars and initiate acts of terrorism. They control politics, banking, education, sciences and religions. They are followers of Satanism and some are paedophiles. They use mind control programmes and control the illegal drugs trade, manipulate the weather and have introduced a 'police state' and have suppressed free-energy. This is part of the spiritual battle between the 'dark forces' and the 'forces of light'. Welcome to the lunatic asylum that is planet Earth.

health ranger mike adams wife: Chemical Warfare on America George Orville, 2018-03-05 I received my bachelor of science degree in analytical chemistry from Wayne State University in Detroit, Michigan. My first full-time employment after graduation was with Federal Food and Drug Administration. The duties consisted of analyzing food and drugs that was being sold in the United States. It also included in analyzing food products imported from foreign nations for any pest contamination. The food products from large food-producing manufacturers were also analyzed for pest contamination and content. The drugs were analyzed for amount specified on labels. There were numerous FDA laboratory districts established nationwide. The Detroit district employed about forty analytical chemists and about forty to fifty inspectors. Our district director emphasized on us the importance of our work. Two of the important items mentioned to our occasional gathering emphasized the importance of FDA work: One was the advent of sulfa drugs prior to antibiotics that were widely used, and they were highly not soluble. Someone at one of the manufacturing outfits figured out a way of dissolving the sulfa drugs in ethylene glycol (car cooling system liquid-highly poisonous). This elixir was used on a ten-year-old boy, who died due to the poison. The other item he mentioned was an inspector at a tuna-canning manufacturer observed how some decomposed sections of the fish were slowly incorporated into the final canned product. It is a shame that these highly guarded human health districts have been closed. This is why this book came about.
