homeless shelters near me: Local Citizenship in a Global Age Kenneth A. Stahl, 2020-05-14 Although it is usually assumed that only the federal government can confer citizenship, localities often give residents who are noncitizens at the federal level the benefits of local citizenship: access to medical care, education, housing, security, labor and consumer markets, and even voting rights. In this work, Kenneth A. Stahl demonstrates that while the existence of these 'noncitizen citizens' has helped to reconcile competing commitments within liberal democracy to equality and community, the advance of globalization and the rise of nationalist political leaders like Donald Trump has caused local and federal citizenship to clash. For nationalists, localities' flexible approach to citizenship is a Trojan horse undermining state sovereignty from within, while liberals see local citizenship as the antidote to a reactionary ethnic nationalism. This book should be read by anyone who wants to understand why citizenship has become one of the most important issues in national politics today.

homeless shelters near me: Contrasts in Religion, Community, and Structure at Three Homeless Shelters Ines W. Jindra, Michael Jindra, Sarah DeGenero, 2021-11-17 How do people in poverty and homelessness change their lives and get back on their feet? Homeless shelters across the world play a huge role in this process. Many of them are religious, but there is a lot of diversity in faith-based non-profits that assist people affected by poverty and homelessness. In this timely book, the authors look at three homeless shelters that take more or less intensive approaches to faith, community, and programming. In one shelter, for instance, residents are required to do a program of classes that includes group Bible study, worship, and self-evaluation. The other two examined are significantly less faith-based, but in different ways and with different structures. The authors show how the three shelters tackle homelessness differently, drawing on narrative biographical interviews and case studies with residents, interviews with staff, and case study research of the three shelters. Entering into significant debates in social theory over religion,

agency, cognitive action, and culture, this book is important reading for scholars and students in religious studies, sociology and social work.

homeless shelters near me: The Camp, Housing, and the City Christian Sowa, 2024-01-05
In 2015 many camps were opened to accommodate newly arriving migrants in Berlin. Christian Sowa studies this form of accommodation. Moving beyond an exclusive focus on borders and migration, he argues that camp accommodation must be thought of and studied as part of the urban context and as a specific form of housing. The study provides an in-depth case study, discusses policy alternatives, argues for »housing for all instead of camps«, and contributes to bringing urban and migration studies into public discussion. In times of new waves of migration, the topic of migrant accommodation within urban environments remains highly relevant today.

homeless shelters near me: Social Work, Housing, and Homelessness Robert Hagan, Anya Ahmed, 2025-03-19 Shelter is a basic human requirement, yet housing in the UK has increasingly been perceived as an asset rather than the secure base everyone requires for their basic physical and mental health needs and well-being. This book examines how all types of housing have become precarious for many service users with whom social workers will engage and makes some suggestions regarding action and best practice. Showing how people become homeless and the difficulties finding a way out of this, the housing options for specific populations including care leavers, those with disabilities, families, and older people will be examined. All this will be framed in the context of social work practice, building practitioner knowledge and confidence around an area that affects everyone but the significance of which is sometimes underexamined in holistic assessments. Packed with reflective examples and case studies, each chapter also includes a tuning in exercise to help prepare the reader for what the chapter will tackle, with concluding thoughts on these exercises at the chapter end. This book is suitable for both undergraduate and postgraduate social work students as they begin to think of more specialised areas of work in their second or subsequent years, as well as social work practitioners, who will be increasingly aware of the pressures of housing costs on those with whom they work.

homeless shelters near me: Curse of the Gold Cross Terry Chandler, 2012-05 My name is Terry Chandler. I am a disabled American that retired from the federal government after twenty-six years of service. I have been so blessed to have traveled the world. Every moment was like a story from the people I met. Now I would like to share with you a moment in time that still lives in my personal journey. My inspiration for writing this story was based on an employee that I met while I was working in South Korea. My work leader recommended that the employee be fired. In the days to come I watched the employee closely, and, from what I could see, he was my best worker. I needed to find out what the real problem was, so I decided to have a meeting with him to hear his side of the story. He started to tell me about his life. He said his mother gave birth to him after being raped in a camp where she was kept to satisfy Japanese soldiers. He said the Koreans hated him because they know who he is and how he came into this world. His face was a reminder of what once was. This grown man just cried like a child that was still in prison; but this time it was a prison of hate and his crime was living.

homeless shelters near me: Contemporary Housing Struggles Ioana Florea, Agnes Gagy, Kerstin Jacobsson, 2022-04-21 This OA book provides a comparative study of housing contention in Budapest and Bucharest in 2008-2021. The financialization of housing and the resulting inequalities, expulsions and social contention are a central characteristic of today's capitalist crisis. These two East European cities that fall outside the usual focus of urban movements research provide an

illuminating case of similar structural conditions governed by different political constellations at the national and local scales. Instead of searching for unilinear narratives connecting structural tensions to politicized claims, the book offers an in-depth contextual analysis of multiple forms of contention, their (often unintentional) interactions, and their broader political-structural background, including tensions surrounded by political silence. The authors analyze the two cases and their comparative lessons through what they propose as a “structural field of contention” approach to the multiple, interconnected ways in which structural tensions become (or not) politicized in today’s social movements. The book will appeal to everyone interested in today’s urban tensions and social movements.

homeless shelters near me: A Taste of Jesus Jamin Bradley, 2017-07-26 *A Taste of Jesus* is an in-depth look at the characteristics that are meant to make up the Christian's life: love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self-control. Bradley explains just how radical and counter-cultural these fruits are when they are grown in fullness. These are the characteristics of the upside-down, backwards Kingdom of Heaven and when we live like we're residents there, we begin to give people a real taste of Jesus, who is living inside of us via the Holy Spirit. This is by no means meant to be an easy book to absorb, for the fruit of the Spirit constantly butts heads with our flesh—but if you feel uncomfortable, maybe that's okay. Embrace it and see what God does. Jamin Bradley is ordained in the Free Methodist Church and is the lead pastor of 1208GREENWOOD in downtown Jackson, MI. He and his wife Jodi have two energetic kids named Beckett and Jericho who love to keep them on their toes. Outside of pastoring and writing, Jamin loves video games, board games, grilling, entertaining guests, and writing, recording and playing music. If you're looking for the typical, easy to read, feel-good Christian book—this is not the one. *A Taste of Jesus* discusses the Fruits of the Spirit through a comprehensive, theological, relevant, thorough, and experiential understanding. Bradley reminds us and challenges us to know and believe that God's love is unconditional, Jesus' example is an attainable lifestyle, the Holy Spirit is moving and operating in His entirety, Scripture is relevant and authoritative, and the world—although influential—should never be the final word. I've known Pastor Jamin for a while, and what I've read in this book is what I have personally witnessed in his day-to-day discipline and ministry. As you pick up this book, have your Bible close by and a friend with whom to read and discuss. -Pastor Steven Hlatky
