In the mind of the reader and any intelligent, open-minded person the answer must be, Evolution is IMPOSSIBLE!, because: Evolution is NOT science; its a faith statement about the past! Evolution breaks 3 unbreakable scientific LAWS! Evolution has never been observed in a laboratory or in the field, but Richard Dawkins said. Evolution has been observed. Its just that it hasnt been observed when its happening. In Evolution all the missing links are still missing, In Evolution there are some creatures whose behavior, design and amazing complexity cant be explained. The history of Evolution contains many frauds. Ill highlight two. How do Evolution proponents explain these issues? Denial, rationalization or just plain lying! Evolution has damaging effects on our culture and wastes valuable resources that could be used to improve health and living conditions, but millions, of our money, is spent on research that can NEVER bring any value to mankind. The answer to the question, Where did we come from? can ONLY be, We are created in Gods image for purpose. We did not come from an explosion of Hydrogen gas and pond scum!
