We need to examine security makeover and a road map for securing rise of India as a developed nation in near future. With assertive China on our northern borders, there is a need to visualise the context and contours of India's future wars. Nuclear deterrence remains relevant for India to maintain strategic stability especially against assertive China. At the same time Indian military should incorporate non-contact warfare as a strategy to fight multi-domain wars.

hooda escape new: The Social Life of Streets in India, 2022-12-30 Streets are places that stimulate activities, interactions, behaviours and, by extension, controls. Yet, within the built environment discourse, the street is first and foremost conceptualised as a mute backdrop to movement-vehicular or pedestrian. The Covid-19 pandemic brought renewed focus on the street as the space of networks, flows and mobilities as the 'lockdown' was the preferred mode of controlling the spread of the disease. The Social Life of Streets in India: Histories, Contestations and Subjectivities endeavours to understand the complexities of social dynamics of streets in relation to spatiality and materiality in the Indian milieu. It draws from a diverse body of scholarship and varied disciplinary leanings and engages with three broad strands: historical aspects of streets, the physicality of street as a built environment and social science discourse mediated through anthropology, urban geography, social theory and urban studies. Further the volume deliberates on questions such as: How do we look at streets and, in particular, how do we document and conceptualise streets in the Indian context that highlights the particularities of South Asian milieus? Is the street public? Is it merely a physical space? How does the street in its physicality and in its built form enter or respond to the metaphorical, the literary, the methodological and the social?

hooda escape new: The Green Odyssey Philip Jose Farmer, 2016-02-15 DANGER! THRILLS! ADVENTURE! Alan Green was not exactly a hero. In fact he liked peace just as well as the next man. Not that he was really afraid of that crazy, hot-blooded hound-dog Alzo, or even of the hound's gorgeous owner, the Duchess Zuni—who was also hot-blooded (to say nothing of the Duke). After all,

these things were understood on this backward, violent planet, and a man could manage, provided he was alert twenty-four hours a day. And as a matter of fact, Alan was only normally apprehensive of his Junoesque, tempestuous (but altogether lovable) wife Amra. Delightful, demanding Amra—and her five uproarious kids. The trouble was, he was tired. And homesick. So when he heard of two other downed spacemen, he hitched a ride with a piratical merchant-captain on a windroller destined to carry him to the spaceship and thence to the peaceful green hills of Earth. But he had reckoned without the vagaries of the windroller, pirates, the traveling islands, the rascally Captain, and various flora and fauna peculiar to this planet—all of which, it now seemed, regarded Alan with unnerving malevolence. And worst of all, Amra was determined that he should be a hero. Amra won.

hooda escape new: Reel India Namrata Joshi, 2019-07-20 'Picture abhi baaki hai...' If there's one experience that unites India, it is cinema. In Reel India, award-winning film critic Namrata Joshi journeys through the interiors of the country intimately chronicling little-known accounts about the nation's incessant obsession with the movies. In Lucknow, she encounters a Shah Rukh Khan fan who has embraced an alternate reality in which he lives and breathes the star. In Wai, she finds an entire economy fuelled by the film industry as the town transforms into a film set. An activist filmmaker in Odisha demonstrates how he teaches local tribal people the basics of his craft, empowering them to train the spotlight on issues threatening their habitat and livelihood. From the fever pitch of the 'first day first show' in makeshift halls to the rivalries of regional cinema, this is India's immersion in the movies like it's never been seen before. Filled with real-life stories that are as fascinating as the revelations and insights they offer, Reel India raises the curtain on the starry-eyed dreams and big-screen passions that live on after the final 'cut' is announced.

hooda escape new: Noises in the Blood Carolyn Cooper, 1995-02-08 The language of Jamaican popular culture—its folklore, idioms, music, poetry, song—even when written is based on a tradition of sound, an orality that has often been denigrated as not worthy of serious study. In Noises in the Blood, Carolyn Cooper critically examines the dismissed discourse of Jamaica's vibrant popular culture and reclaims these cultural forms, both oral and textual, from an undeserved neglect. Cooper's exploration of Jamaican popular culture covers a wide range of topics, including Bob Marley's lyrics, the performance poetry of Louise Bennett, Mikey Smith, and Jean Binta Breeze, Michael Thelwell's novelization of *The Harder They Come*, the Sistren Theater Collective's *Lionheart Gal*, and the vitality of the Jamaican DJ culture. Her analysis of this cultural noise conveys the powerful and evocative content of these writers and performers and emphasizes their contribution to an undervalued Caribbean identity. Making the connection between this orality, the feminized Jamaican mother tongue, and the characterization of this culture as low or coarse or vulgar, she incorporates issues of gender into her postcolonial perspective. Cooper powerfully argues that these contemporary vernacular forms must be recognized as genuine expressions of Jamaican culture and as expressions of resistance to marginalization, racism, and sexism. With its focus on the continuum

of oral/textual performance in Jamaican culture, *Noises in the Blood*, vividly and stylishly written, offers a distinctive approach to Caribbean cultural studies.

It cuts through the many layers of his personality, the gossip and the rumours to focus on the star's aesthetic formulation-on what exactly it is about film and television, the star system and the capitalistic society that make him such a huge icon.
