Family and Social Values

Respect for elders, loyalty, and commitment to family welfare are key values. These cultural traits influence dating practices, with many Iranian women seeking partners who respect and understand these dynamics.

Education and Career

Contrary to some stereotypes, many Iranian women pursue higher education and have established careers. Education is highly valued, and women in Iran are increasingly active in professional fields. This modern aspect plays a significant role in shaping dating expectations and relationship goals.

Long-Distance and Cross-Cultural Relationships

Many Iranian women dating outside Iran face challenges related to cultural differences, language barriers, and long-distance communication. Building trust and mutual understanding is essential in overcoming these obstacles.

iranian women dating: Creating the Modern Iranian Woman Liora Hendelman-Baavur, 2019-11-07 A fresh look at Iranian popular culture and women's role within this prior to the 1979 Revolution.

iranian women dating: Iranian Romance in the Digital Age Janet Afary, Jesilyn Faust, 2021-01-28 Following the 1979 Islamic Revolution, there was a dramatic reversal of women's rights, and the state revived many premodern social conventions through modern means and institutions. Customs such as the enforced veiling of women, easy divorce for men, child marriage, and polygamy were robustly reintroduced and those who did not conform to societal strictures were severely punished. At the same time, new social and economic programs benefited the urban and rural poor, especially women, which had a direct impact on gender relations and the institution of marriage. Edited by Janet Afary and Jesilyn Faust, this interdisciplinary volume responds to the growing interest and need for literature on gender, marriage and family relations in the Islamic context. The book examines how the institution of marriage transformed in Iran, paying close attention to the country's culture and politics. Part One examines changes in urban marriages to new forms of cohabitation. In Part Two contributors, such as Soraya Tremayne, explore the way technology and social media has impacted and altered the institution of family. Part Three turns its eye to look at marital changes in the rural and tribal sectors of society through the works of anthropologists including Erika Friedl and Mary Hegland. Based on the work of both new and established scholars, the book provides an up-to-date study of an important and intensely politicized subject.

iranian women dating: *Irangenes* Jonathan Friedlander, Anita Colby, Ron Kelley, 2023-12-22 Following Iran's Islamic revolution in 1979, hundreds of thousands of Iranians fled their homeland. For a great number, Los Angeles was their destination, and today more Iranians live there than anywhere else in the world outside of Iran. This compelling collection of photographs, essays, and interviews explores that exodus from Iran and the Iranian presence in Southern California. While capturing the remarkable diversity of this immigrant community, *Irangenes* also confronts the sprawling metropolis that is increasingly influenced by its large ethnic and immigrant populations. Iranians, too, are inexorably linked to the demographic changes in California--changes that raise questions of assimilation and cultural survival--and that will see minority populations become the majority in the next century. Integrating visual, textual, and oral sources, this book explicates and humanizes the Iranian experience for scholars and general readers alike. We come to know people from a broad range of occupations and income levels, political persuasions, and religious faiths. Supporters of the deposed Pahlavi regime and staunch followers of Khomeini are here, along with other Muslims, Jews, Zoroastrians, and Baha'is. We hear the voices of women--those who veil themselves in public and those who have adopted Western cultural practices--and learn how both old and new gender roles pressure Iranian women and men. Social relations among Iranian adolescents and the conflicts with their elders are also illuminated. *Irangenes* is a fascinating portrait of a

community caught between two cultures. It offers a new perspective on Iran and its people as well as on immigrant communities in general. Following Iran's Islamic revolution in 1979, hundreds of thousands of Iranians fled their homeland. For a great number, Los Angeles was their destination, and today more Iranians live there than anywhere else in the world outside of Iran. This compelling

iranian women dating: Global 1979 Arang Keshavarzian, Ali Mirsepassi, 2021-07-15 The Iranian revolution of 1979 not only had an impact on regional and international affairs, but was made possible by the world and time in which it unfolded. This multi-disciplinary volume presents this revolution within its transnational and global contexts. Moving deftly from the personal to the global and from the provincial to the national, it draws attention to the multiplicity of spaces of the revolution such as streets, schools, prisons, personal lives, and histories such as the Cold War and Global 1960s and 70s. With a broad range of approaches, Global 1979 conceives of the Iranian Revolution not as exceptional or anachronistic, but as an uprising constituted by multiple, interwoven geographies and histories, which disrupt static and bounded notions of the local, national, regional, and global.

iranian women dating: Iranian Women and Gender in the Iran-Iraq War Mateo Mohammad Farzaneh, 2021-02-22 Eighteen months after Iran's Islamic Revolution in 1979, hundreds of thousands of the country's women participated in the Iran-Iraq War (1980-88) in a variety of capacities. Iran was divided into women of conservative religious backgrounds who supported the revolution and accepted some of the theocratic regime's depictions of gender roles, and liberal women more active in civil society before the revolution who challenged the state's male-dominated gender bias. However, both groups were integral to the war effort, serving as journalists, paramedics, combatants, intelligence officers, medical instructors, and propagandists. Behind the frontlines, women were drivers, surgeons, fundraisers, and community organizers. The war provided women of all social classes the opportunity to assert their role in society, and in doing so, they refused to be marginalized. Despite their significant contributions, women are largely absent from studies on the war. Drawing upon primary sources such as memoirs, wills, interviews, print media coverage, and oral histories, Farzaneh chronicles in copious detail women's participation on the battlefield, in the household, and everywhere in between.

iranian women dating: Iranian Women in the Memoir Emira Derbel, 2017-05-11 This book investigates the various reasons behind the elevation of the memoir, previously categorized as a marginalized form of life writing that denudes the private space of women, especially in Western Asian countries such as Iran. Through a comparative investigation of Azar Nafisi's *Reading Lolita in Tehran* and Marjane Satrapi's *Persepolis* (1) and (2), the book examines the way both narrative and

graphic memoirs offer possibilities for Iranian women to reclaim new territory, transgress a post-traumatic revolution, and reconstruct a new model of womanhood that evades socio-political and religious restrictions. Exile is conceptualized as empowering rather than a continued status of loss and disillusionment, and the liminality of both women writers turns into a space of artistic production. The book also resists the New Orientalist scope within which *Reading Lolita in Tehran*, more than *Persepolis*, has been misread. In order to reject these allegations, this work sheds light on the representation of Iranian women in *Reading Lolita in Tehran*, not as weak victims held captive by a totalitarian version of Islam, but as active participants rewriting their stories through the liberating power of the memoir. The comparative approach between narrative and comic memoirs is a fruitful way of displaying similar experiences of disillusionment, loss, return, and exile through different techniques. The common thread uniting both memoirs is their zeal to reclaim Iranian women's agency and strength over subservience and passivity.

iranian women dating: *The Armenian Woman, Minoritarian Agency, and the Making of Iranian Modernity, 1860-1979* Talinn Grigor, Houri Berberian, 2025-03-04 With this book, Houri Berberian and Talinn Grigor offer the first history of Armenian women in modern Iran. Foregrounding the work of Armenian women's organizations, the authors trace minoritarian politics and the shifting relationships among doubly minoritized Armenian female subjects, Iran's central nodes of power, and the Irano-Armenian patriarchal institutions of church and political parties. Engaging broader considerations around modernization, nationalism, and feminism, this book makes a conceptually rich contribution to how we think about the history of women and minoritized peoples. Berberian and Grigor read archival, textual, visual, and oral history sources together and against one another to challenge conventional notions of the archive and transform silences and absences into audible and visual presences. Understanding minoritarian politics as formulated by women through their various forms of public and intellectual activism, this book provides a groundbreaking intervention in Iran's history of modernization, Armenian diasporic history, and Iranian and Armenian feminist historiography.

iranian women dating: The Lonely War Nazila Fathi, 2014-10-14 In the summer of 2009, as she was covering the popular uprisings in Tehran for the New York Times, Iranian journalist Nazila Fathi received a phone call. They have given your photo to snipers, a government source warned her. Soon after, with undercover agents closing in, Fathi fled the country with her husband and two children, beginning a life of exile. In *The Lonely War*, Fathi interweaves her story with that of the country she left behind, showing how Iran is locked in a battle between hardliners and reformers that dates back to the country's 1979 revolution. Fathi was nine years old when that uprising replaced the Iranian shah with a radical Islamic regime. Her father, an official at a government ministry, was fired for wearing a necktie and knowing English; to support his family he was forced to labor in an orchard hundreds of miles from Tehran. At the same time, the family's destitute, uneducated housekeeper was able to retire and purchase a modern apartment -- all because her family supported the new regime. As Fathi shows, changes like these caused decades of inequality -- especially for the poor and for women -- to vanish overnight. Yet a new breed of tyranny took its place, as she discovered when she began her journalistic career. Fathi quickly confronted the upper limits of opportunity for women in the new Iran and earned the enmity of the country's ruthless intelligence service. But while she and many other Iranians have fled for the safety of the West, millions of their middleclass countrymen -- many of them the same people whom the regime once lifted out of poverty -- continue pushing for more personal freedoms and a renewed relationship with the outside world. Drawing on over two decades of reporting and extensive interviews with both ordinary Iranians and high-level officials before and since her departure, Fathi describes Iran's awakening alongside her own, revealing how moderates are steadily retaking the country.

iranian women dating: Cross-Cultural Caring, 2nd ed. Nancy Waxler-Morrison, Joan M. Anderson, Elizabeth Richardson, Natalie A. Chambers, 2011-11-01 As North America's ethnic populations increase, health care and social service workers are recognizing that in order to provide culturally sensitive and effective treatment programs they must be more aware of the particular needs of their ethnic patients. This newly revised edition of *Cross-Cultural Caring: A Handbook for Health Professionals* describes Vietnamese, Cambodian and Laotian, Chinese, Japanese, Iranian, South Asian, and Central American ethno-cultural groups. It stresses the need to understand both the cultural beliefs and the daily life concerns facing immigrants, such as work, income, child-rearing, and aging, all of which impinge on health. Reflecting the questions health

professionals most often ask about immigrant groups, each chapter describes one ethno-cultural community, discussing such issues as childbirth, mental illness, dental care, hospitalization, and death, as well as home country culture, common reasons for emigrating, and challenges in adjusting to a new culture. This new edition provides up-to-date statistics and fresh analysis, responding to changing trends in immigration. Additional material includes a new chapter addressing the special circumstances of refugees; short real-life stories of immigrants' and refugees' experiences; and a thorough, easy-to-use index.

iranian women dating: Abusing Religion Megan Goodwin, 2020-07-17 Sex abuse happens in all communities, but American minority religions often face disproportionate allegations of sexual abuse. Why, in a country that consistently fails to acknowledge—much less address—the sexual abuse of women and children, do American religious outsiders so often face allegations of sexual misconduct? Why does the American public presume to know “what’s really going on” in minority religious communities? Why are sex abuse allegations such an effective way to discredit people on America’s religious margins? What makes Americans so willing, so eager to identify religion as the cause of sex abuse? *Abusing Religion* argues that sex abuse in minority religious communities is an American problem, not (merely) a religious one.

iranian women dating: Voices From Iran Mahnaz Kousha, 2002-11-01 Mahnaz Kousha interviewed fifteen Iranian women in Tehran who originally came from cities and towns throughout Iran. The youngest was 38, the eldest in her 50s. Extensive excerpts from their dialogues form the heart of this remarkable book. With admirable candor the women explore their relationships with their mothers, fathers, husbands, and children. They reflect upon the institutions of courtship and marriage and address issues of childcare, housework, and women's employment. They talk openly about their concerns, ambitions, and frustrations. Finally, they discuss everyday personal problems and the solutions they devise to cope with such difficulties. Offset by telling commentary, these conversations offer significant firsthand insights into the life experiences of the modern Iranian woman and her brave search for identity. Because it covers previously uncharted ground, this volume fills a sizable gap in the study of gender and family relationships in Iran. Abundant footnotes on similar studies in the United States and other countries not only add sociological richness, but also make the book relevant beyond Iran and the Middle East.

iranian women dating: Politics of Rightful Killing Sima Shakhsari, 2020-01-17 In the early 2000s, mainstream international news outlets celebrated the growth of Weblogistan—the online and real-life transnational network of Iranian bloggers—and depicted it as a liberatory site that gave voice to Iranians. As Sima Shakhsari argues in *Politics of Rightful Killing*, the common assumptions of Weblogistan as a site of civil society consensus and resistance to state oppression belie its deep internal conflicts. While Weblogistan was an effective venue for some Iranians to “practice democracy,” it served as a valuable site for the United States to surveil bloggers and express anti-Iranian sentiment and policies. At the same time, bloggers used the network to self-police and enforce gender and sexuality norms based on Western liberal values in ways that unwittingly undermined Weblogistan's claims of democratic participation. In this way, Weblogistan became a site of cybergovernmentality, where biopolitical security regimes disciplined and regulated populations. Analyzing online and off-line ethnography, Shakhsari provides an account of digital citizenship that raises questions about the internet's relationship to political engagement, militarism, and democracy.
