

itzhak bentov spiritual

itzhak bentov spiritual perspectives offer a unique intersection of science, consciousness, and metaphysical exploration. Renowned for his pioneering work in biofeedback and consciousness studies, Itzhak Bentov's spiritual insights provide a profound understanding of human existence beyond conventional scientific paradigms. His theories blend the physical and spiritual, delving into the vibration and structure of the human body as a microcosm of the universe. This article explores Bentov's spiritual philosophy, his contributions to consciousness research, and the implications of his work on modern spirituality. Readers will gain an in-depth look at how Bentov's ideas influence spiritual practices and the quest for self-awareness. The following sections will detail his scientific background, key spiritual concepts, and practical applications derived from his teachings.

- Who Was Itzhak Bentov?
- Itzhak Bentov's Spiritual Philosophy
- Contributions to Consciousness Studies
- Key Concepts in Bentov's Spiritual Teachings
- Practical Applications of Bentov's Ideas

Who Was Itzhak Bentov?

Itzhak Bentov was an Israeli-American inventor, engineer, and researcher known for his interdisciplinary work that bridged science and spirituality. Born in 1923, Bentov made significant strides in biomedical engineering and was a pioneer in the field of biofeedback. His interest in the nature of consciousness led him to explore the relationship between the physical body and higher states of awareness. Bentov's background in mechanical engineering and physics allowed him to approach spiritual questions with a scientific lens, making his work unique in both spiritual and scientific communities. His legacy continues to influence researchers and spiritual practitioners interested in the mechanics of consciousness and the human energy system.

Itzhak Bentov's Spiritual Philosophy

Bentov's spiritual philosophy is centered on the idea that the universe and human consciousness operate through vibrational patterns and resonances. He proposed that the human body is a finely tuned instrument, capable of accessing higher dimensions of reality through specific frequencies. According to Bentov, spiritual awakening involves tuning into these vibrations to transcend ordinary perception and experience expanded states of consciousness. His philosophy integrates concepts from quantum physics, ancient

mysticism, and modern neuroscience, suggesting that there is a fundamental unity between matter and spirit. This view challenges materialistic interpretations of reality and supports a holistic understanding of existence.

The Universe as a Vibration

Bentov believed that everything in the universe, including human beings, is composed of vibrating energy. This concept aligns with various spiritual traditions that describe reality as a field of energetic frequencies. Bentov's work elaborated on how these vibrations can be measured and influenced, potentially allowing individuals to harmonize with universal rhythms for spiritual growth. This vibration-based model of the universe forms the foundation for many of his spiritual teachings.

The Human Body as a Microcosm

In Bentov's framework, the human body is a microcosm reflecting the macrocosm of the universe. He viewed bodily processes, such as the heartbeat and brain waves, as manifestations of larger cosmic patterns. This perspective underscores the interconnectedness between humans and the cosmos, suggesting that spiritual development is a process of aligning one's inner vibrations with the greater universal order.

Contributions to Consciousness Studies

Itzhak Bentov's contributions to consciousness studies are notable for their innovative integration of technology and metaphysics. His research in biofeedback pioneered ways to monitor and influence bodily functions through conscious awareness, demonstrating the mind's ability to affect physical states. Bentov's experiments and theoretical models provided insight into altered states of consciousness and the potential for human beings to consciously navigate different levels of reality. His work remains significant in the fields of parapsychology, meditation research, and holistic health.

Biofeedback and Consciousness

Bentov was among the first to explore biofeedback as a tool for enhancing spiritual awareness. By providing real-time feedback on physiological functions such as heart rate and brainwave activity, individuals could learn to consciously regulate their bodily states. This capability bridges the gap between the physical and mental realms, reinforcing the idea that consciousness can directly influence matter. Bentov's biofeedback research laid the groundwork for many modern techniques used in mindfulness and meditation practices today.

Exploring Altered States

Bentov's studies also investigated altered states of consciousness achieved through meditation, sensory deprivation, and other methods. He theorized that these states correspond to shifts in vibrational frequencies within the body and brain. His model proposed that by understanding these shifts, individuals could intentionally access deeper layers of awareness and spiritual insight. This approach has influenced contemporary research into the neurophysiology of mystical experiences and transcendental states.

Key Concepts in Bentov's Spiritual Teachings

Itzhak Bentov's spiritual teachings revolve around several core concepts that integrate his scientific insights with metaphysical principles. These concepts provide a framework for understanding the nature of consciousness, the soul, and the universe from a vibrational perspective. They have been influential in both scientific circles and spiritual communities seeking a cohesive explanation of reality that includes both material and immaterial dimensions.

- **Resonance and Coherence:** The idea that spiritual growth involves achieving resonance between different frequencies within the body and environment.
- **Holistic Integration:** Understanding the self as an interconnected system that includes physical, emotional, mental, and spiritual layers.
- **Consciousness as Energy:** The recognition that consciousness is a form of energy that can be transformed and expanded through practice.
- **The Spiral Nature of Evolution:** Bentov described evolution as a spiraling process, both on a cosmic scale and within individual consciousness.
- **Microcosm-Macrocosm Correspondence:** Emphasizing the reflection of universal patterns within the human organism.

Vibrational Medicine and Healing

Bentov's concept of vibration extends into healing modalities, suggesting that restoring balance to the body's frequencies can promote health and well-being. This idea has influenced the development of vibrational medicine, energy healing, and other integrative therapies that aim to harmonize the body's energetic system.

Practical Applications of Bentov's Ideas

The practical applications of Itzhak Bentov's spiritual and scientific ideas span various disciplines, including meditation, healing, and consciousness exploration. His work

provides tools and frameworks for people seeking to deepen their spiritual practice or enhance their mental and physical health through conscious regulation of bodily processes.

Meditation Techniques Inspired by Bentov

Bentov's research supports meditation techniques focused on tuning into bodily vibrations and rhythms, such as the heartbeat and breath. By cultivating awareness of these internal frequencies, practitioners can facilitate states of deep relaxation, heightened perception, and spiritual insight. Techniques emphasizing resonance and coherence encourage practitioners to align their personal energy with universal vibrations.

Biofeedback and Self-Regulation

Modern biofeedback devices owe much to Bentov's pioneering work, allowing users to gain control over physiological functions that were once considered involuntary. This capability has practical uses in stress reduction, anxiety management, and the enhancement of cognitive and spiritual performance. Bentov's approach highlights the mind-body connection as a pathway to holistic health.

Integration into Holistic Health Practices

Many holistic health practitioners incorporate Bentov's vibrational and consciousness models into their work. These applications include:

- Energy healing modalities such as Reiki and therapeutic touch
- Sound therapy and vibrational healing techniques
- Mindfulness and breathwork practices
- Psychophysiological approaches to managing chronic conditions

These practices reflect Bentov's vision of a unified approach to health that recognizes the interplay between mind, body, and spirit.

Frequently Asked Questions

Who was Itzhak Bentov and what is he known for in spirituality?

Itzhak Bentov was an inventor, scientist, and mystic known for his work exploring the intersection of science and spirituality, particularly through his theories on consciousness

and the human body's subtle energies.

What are the main spiritual teachings of Itzhak Bentov?

Itzhak Bentov's spiritual teachings emphasize the concept of the human body as a sophisticated instrument for experiencing consciousness, highlighting the importance of inner awareness, meditation, and the understanding of subtle energy systems.

How does Itzhak Bentov describe consciousness in his spiritual work?

Bentov describes consciousness as a dynamic, vibrational phenomenon connected to the physical body and the universe, suggesting that it operates similarly to a holographic or fractal system that transcends ordinary physical limitations.

What is the significance of Bentov's book 'Stalking the Wild Pendulum' in spiritual circles?

'Stalking the Wild Pendulum' is considered a seminal work that bridges scientific inquiry with spiritual concepts, exploring altered states of consciousness, the nature of reality, and the potential of human perception beyond the physical realm.

How does Itzhak Bentov's work relate to meditation practices?

Bentov's work supports meditation as a tool to access higher states of consciousness and to tune into the body's subtle energies, helping practitioners expand their awareness and experience spiritual growth.

Can Itzhak Bentov's scientific background enhance spiritual understanding?

Yes, Bentov's scientific background allows him to approach spirituality with a unique perspective that integrates empirical observation with mystical insight, providing a framework that appeals to both scientists and spiritual seekers.

Additional Resources

1. Stalking the Wild Pendulum: On the Mechanics of Consciousness

This seminal work by Itzhak Bentov explores the intricate relationship between consciousness and the physical universe. Bentov delves into the concept of the human body as a finely tuned instrument capable of perceiving higher dimensions. The book blends science, spirituality, and mysticism, providing readers with a unique perspective on meditation and cosmic awareness.

2. Between Science and Spirit: The Hidden Dimensions of Reality

In this thought-provoking book, Bentov bridges the gap between scientific inquiry and spiritual experience. He discusses how modern physics and ancient spiritual teachings converge to reveal deeper layers of reality. The text encourages readers to expand their understanding of existence beyond conventional boundaries.

3. *The Cosmic Symphony: Vibrations of the Soul*

Bentov presents the universe as a vast symphony of vibrations, where each soul resonates with unique frequencies. This book explores how tuning into these vibrations can foster spiritual growth and self-realization. It offers practical insights into meditation techniques that align the mind and body with universal energies.

4. *Awakening the Inner Eye: A Journey into Higher Consciousness*

This guidebook focuses on awakening latent psychic abilities and expanding consciousness. Bentov shares exercises and meditative practices aimed at activating the "inner eye" or third eye chakra. Readers gain tools to perceive subtler realities and enhance their spiritual awareness.

5. *Energy Fields and Human Potential: Exploring the Subtle Body*

Bentov investigates the concept of the human energy field and its impact on health and spirituality. The book examines how energy flows within and around the body, influencing emotional and physical well-being. It serves as a practical manual for understanding and harnessing subtle energies for personal transformation.

6. *The Spiral Dance of Life: Patterns of Growth and Transformation*

Drawing on Bentov's insights, this book explores the spiral as a universal symbol of growth and evolution. It discusses how spiritual development follows natural patterns found in nature and the cosmos. The author encourages embracing these patterns to facilitate deeper personal and spiritual transformation.

7. *Harmonic Resonance: The Science of Spiritual Vibrations*

Bentov delves into the physics of sound and vibration as fundamental to spiritual awakening. This book reveals how harmonic resonance can influence consciousness and reality itself. Readers learn how to use sound-based practices to elevate their spiritual experiences.

8. *The Quantum Soul: Intersections of Physics and Consciousness*

This work explores the intriguing connections between quantum mechanics and the nature of the soul. Bentov synthesizes scientific theories with spiritual concepts to propose a unified understanding of existence. The book invites readers to contemplate the mysteries of life through both scientific and spiritual lenses.

9. *Beyond the Physical: Exploring Multidimensional Reality*

Bentov takes readers on a journey beyond the limitations of the physical world into multidimensional realms. The book discusses techniques to access higher dimensions through meditation and altered states of consciousness. It serves as a guide for those seeking to expand their spiritual horizons and experience reality beyond the material plane.

itzhak bentov spiritual: A Spiritual Hypothesis Daniel Punzak, 2017-04-06 Traditional Western religion explains that each human has a spiritual aspect called a soul. However, several passages in the Bible allude to humans having a soul and a spirit. Dan has explored this idea and found numerous modern psychological findings that support this notion. Shamanism and some Eastern religious concepts also support this idea. Diverse concepts such as creativity and mental illness can be explained by the idea that two spiritual forms are in each human.

itzhak bentov spiritual: Spiritual Renaissance Susan Minnaar, 2007-06-19 This book draws upon the legacy of wisdom from ancient manuscripts, which can have a profound impact on your life. Mankind is oblivious to the extent of the devastation bestowed on the environment, and the fact that we are jeopardising the survival of future generations. There has never been so much violence, crime, corruption, murder and war in the history of mankind. In spite of our triumphs, in terms of scientific discoveries, we are deprived of physical, emotional and spiritual well-being. The state of the outer world reflects the condition of our inner world. This book provides the reader with a renewed epiphany and insight into the extent to which we have strayed from our authentic self or true essence. Our main obstacles are ignorance, apathy and complacency. We are morally bankrupt and the solution to our problem is a soul-ution. Most people are unaware of the fact that we all have the ability to tap into the realm of Divine Universal Energy that surrounds us. We have the ability to live from a soul level; to connect with the sacred and to increase our awareness. The possibility of perfect health, serenity, and inner peace exists within the Spiritual Realm. The choice, to live in this Realm and in harmony with the Universal Laws, comes with certain responsibilities. This book offers guidelines, which will assist you to live with increased joy, purpose, passion and meaning. Applying these principles can make the difference between surviving and thriving.

itzhak bentov spiritual: The Art of Spiritual Rock Gardening Donna Schaper, 2001 A fusion of reflections on the spiritual importance of rocks and stones in the world's cultures and religions and practical tips on creating and maintaining a rock garden. With illustrations from an internationally known garden designer and artist.

itzhak bentov spiritual: Paradigm shift towards a spiritual worldview Franz Günter Leicht, 2021-06-22 Since the middle/ end of 1993 I have been grappling intensively with questions about our existence. This book is the result of my long-term study, with which I have tried to inspect our current worldview - the materialistic worldview. It shows that the sciences have come up with answers that question their own assumptions and ideas about this world. E.g. the world-famous physicist Stephen W. Hawking said that it is not really possible for physics to clarify whether the material world is a real world. According to the latest findings in physics, the material world can also be an imaginary world. I'm investigating this question in detail and come to the conclusion that we need a new worldview. This is the spiritual worldview. This new worldview clearly states that there is a non-material spirit that is responsible for the material world. What this means for each and every one of us is revealed in this study.

itzhak bentov spiritual: Yoga Journal , 1979-03 For more than 30 years, Yoga Journal has been helping readers achieve the balance and well-being they seek in their everyday lives. With every issue, Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds. We are dedicated to providing in-depth, thoughtful editorial on topics such as yoga, food, nutrition, fitness, wellness, travel, and fashion and beauty.

itzhak bentov spiritual: The Science of Spirituality Lee Bladon, 2007 The Science of Spirituality is a ground-breaking book that integrates the individual systems of science, psychology, philosophy, spirituality and religion into a unified system that describes the multi-dimensional nature of man and the universe. It provides a more comprehensive description of reality than conventional science can offer and fully explains the mechanisms behind an array of paranormal phenomena that mainstream science chooses to ignore. It explains the science behind religious, spiritual and new-age belief systems, and sheds light on some common misconceptions. The Science of Spirituality systematically describes the mechanisms behind a diverse range of subject matter including: consciousness, sleep and dreams, reincarnation, religion, creation, evolution, space and time, higher dimensions, heaven and hell, ghosts, angels and demons, out of body experiences, near death experiences, clairvoyance, psychic abilities, personal development, meditation and the meaning of life.

itzhak bentov spiritual: Health of the Human Spirit Brian Luke Seaward, 2012-02 Health of the Human Spirit, Second Edition: Spiritual Dimensions for Personal Health is a thoughtful examination of the ageless topic of human spirituality. It addresses the need to acknowledge spiritual wellness as a vital dimension of the general health and well-being of the individual and examines the dynamic balance between mind-body-spirit health and the roadblocks and distractions on the spiritual path. Dr. Seaward includes many behavioral suggestions to enhance the health of the human spirit. He presents the material in an approachable, user-friendly manner by engaging the reader and carefully distinguishing the differences between spirituality and religion.

itzhak bentov spiritual: Experiences with Spiritual Reality John Jensen, 2003-09 As we align our consciousness with God's action in us, we place ourselves in reach of daily miracles. In Beginning Your Spiritual Journey, traditional spirituality from the science of the saints joins with advances in the understanding of consciousness from New/Old Age religion and modern psychology. Psychologist, former Catholic priest, and student of religions John Jensen explains how to approach the presence of God and change one's life to align with God's encompassing activity. He asks readers to understand why they want to pursue a spiritual life, and then to engage consciously in a learning process about the nature of God and Soul. Grounding the process in direct experience offers a way to assess progress as it crosses slowly into the intangible. The book addresses from many angles the common difficulty of discerning what's real and true, and the importance of finding a personal spiritual guide to work with on the inner planes as well as outwardly. It explains the critical role of spiritual exercises and the essential daily discipline of withdrawing consciousness away from all forms of negativity-moral, spiritual, emotional, and behavioral--and redirecting it toward God.

itzhak bentov spiritual: Spirit Faces Mark Macy, 2006-09-01 Spirit Faces is a visionary book about the afterlife based on Mark Macy's fifteen years of research, with special emphasis on a growing collection of unique photographs in which he captures clear faces of nonphysical beings-spirits. These photographs and other results of his research provide some of the first solid evidence, and verifiable proof, that life continues after death of the physical body. Macy weaves his groundbreaking information into a clear picture of life on the other side. He explains in easily digestible terms how loved ones, ancestors, angels, and ghosts all play a part in the affairs of our world, and how we humans can attract the supportive and loving spiritual influences that we desire.

itzhak bentov spiritual: A Spirituality Named Compassion Matthew Fox, 1999-09 Popular and controversial author, Matthew Fox, establishes a spirituality for the future that promises personal, social, and global healing. Using his own experiences with the pain and lifestyle changes that resulted from an accident, Fox has written an uplifting book on the issues of ecological justice, the suffering of the Earth, and the rights of her nonhuman citizens.

itzhak bentov spiritual: Discreteness, Continuity, & Consciousness Alan M. Laibelman, 2007 This volume is the third in elaboration of a self-consistent and comprehensive philosophical system comprising the areas of metaphysics (volume one), ethics (volume two), and epistemology (volume three). Consciousness is conceived as the principal transcendental agency bringing all of manifestation into existence. The current work focuses on methods of cognition: sensory

representations, ratiocination, intuition, mystical revelation, and the parapsychological skills pertaining to telepathy, clairvoyance, and precognition. The discipline of psychophysics is conceived as the unifier for all modalities. There is developed both a qualitative and a quantitative mechanism for gaining knowledge. Knowledge accumulation was proposed in volume two to be the ethical goal of all lifeforms. The purpose toward which that goal is placed in service is in resolution of the metaphysical crisis detailed in volume one.

itzhak bentov spiritual: *Consciousness from Zombies to Angels* Christian de Quincey, 2008-12-15 A user-friendly, step-by-step guide to understanding the mind • Presents a practical journey into understanding consciousness--philosophy's hardest problem, science's final frontier, and spirituality's deepest mystery • Offers 7 steps to transform your life using the shadow and the light of consciousness Consciousness from Zombies to Angels presents a practical, step-by-step "owner's guide" for the mind that sorts out philosophy's hardest problem, science's final frontier, and spirituality's deepest mystery--what consciousness is, how it works, and why it's important. Christian de Quincey presents seven simple steps for understanding consciousness and how it can lead to spiritual awareness: observe your language, identify the problem, learn how to look, recognize your patterns, know yourself, embrace your shadow, and practice transformation. All of us exhibit both shadow and light, aspects of ourselves we fear and deny (our inner Zombies) as well as qualities we admire and want to radiate (our inner Angels). The key to a creative and fulfilled life is to integrate both. De Quincey reveals that the way to transformation is to accept ourselves exactly as we are--a work in progress. Readers will learn the difference between "energy talk" and "consciousness talk"; how the body affects the mind, and vice versa; and where to go for help to develop consciousness, heal emotions, or grow spiritually. De Quincey shows how to recognize and break habits and patterns that run your life, how to find out who you really are, and why facing up to your darkest fears will liberate your brightest light as you learn to embrace all of your humanity and experience the power of transformation.

itzhak bentov spiritual: *Networking, the First Report and Directory* Jessica Lipnack, Jeffrey Stamps, 1982

itzhak bentov spiritual: *From Creation to Eternity* Raymond J. Jerome, 2010-01-07 Sometimes I have a difficult time accepting my good fortune to be living at this particular time -- nothing has made me feel more that way than reading Dr. Jerome's fascinating, realistic, and informative book. It is a treasure house of wonderful information, useful knowledge, and excellent writing. This book essentially takes the basic religious truths that have been handed down to us over hundreds of years from our major world religions and shows how current findings in subatomic particle physics, quantum theory, and laser technology gives us a way of seeing how they may well be agreeing on the same basic truths that construct and maintain our matter and spiritual existence. Larry Dossey, M.D., President of Isthmus Institute and author of *Space, Time, and Medicine and Beyond Illness*, has written an excellent introduction and endorses Dr. Jerome's work. I believe that any creditable scientist would do the same and certainly every New Thought student should be enthusiastic about the work. This book is not 'another scientific text.' It is that, of course, but is so much more and such 'fun' reading. Take a look at this book which is entertaining, informative, and above all else, a book which has great application to daily living. -- Jack H. Holland, PhD., D.D. -- Theologian, Reviewer of scientific and theological literature for *The New Thought Quarterly*, and Director of *The Institute for Human Growth and Awareness*. Dr. Jerome's book just might be one of the most important books of this era. It explains the holographic nature of God's consciousness in terms that are understandable. -- Tommy Sellers, communications expert in computer science and laser research. Dr. Jerome personifies a new breed of human now emerging. He is a scientist who realizes that his science represents only part of the path to understand his existence and his reality. It is an essential part, but incomplete in itself. To be whole, to be balanced in life, he knows it is necessary to discover the path's other essential part. As the parts of the path become visible before him, Dr. Jerome integrates them for us. As he says in his preface: If science is right, and if religion is also right, then they must allude to the same basic truths. The quest to uncover this 'sameness' is the goal of this book This is a

sensitive and beautiful book written by an admirable man. It deserves to be read, then pondered, then reread, and finally, referred to often. -- John C. Carls, PhD. in particle physics and author of What It Means To Be Human.

itzhak bentov spiritual: The Spirit Book Raymond Buckland, 2005-09-01 Never say die! Can the living communicate with the dead? Many believe that spirits are constantly about us and that it is possible, through a variety of means, to speak to them and to have them speak to us. The Spirit Book: The Encyclopedia of Clairvoyance, Channeling, and Spirit Communication looks at these methods of communication, their history, and the personalities involved throughout the past three hundred years of this eternal quest. The fascinating history of Spiritualism is coaxed into the material realm as the object of this perceptive and sweeping overview by that legendary author of the occult and supernatural, Raymond Buckland. Drawing on decades of research, writing, and transcendence, he describes sundry methods of channeling, events associated with Spiritualism, including séances and exorcism, organizations focused on clairvoyance, and a colorful host of mortals—famous and infamous—who delved into Spiritualism. Nostradamus, Helena Blavatsky, and Edgar Cayce receive their due, as well as Joan of Arc, William Blake, Susan B. Anthony, Winston Churchill, Arthur Conan Doyle, Mahatma Gandhi, Harry Houdini, and Mae West (look up and see her sometime). The Spirit Book explores Qabbalah, Sibyls, Fairies, Poltergeists; phenomena such as intuition and karma; objects useful in the attempt to cross the divide, including tarot cards, flower reading, and runes; and related practices such as Shamanism, transfiguration, meditation, and mesmerism. This comprehensive reference also reports on investigations of contemporary manifestations, including electronic voice phenomena and spirit appearances on TV screens, plus channeling, fraud, psychic research, and possession. Containing more than 500 entries and 100 illustrations, this fun, fact-filled tome is richly illustrated. Its helpful bibliography and extensive index add to its usefulness.

itzhak bentov spiritual: Treating Depression Naturally Chris Phillips, 2017-08-17 Feelings of depression are as unique as you are. Whether you find yourself overcome by the strain of day-to-day life, experience extreme anxiety or are dealing with a loss or other traumatic life change, flower essences can effectively help you to manage and overcome depressive thoughts. Readily found in pharmacies, health-food shops and online, flower essences help to restore balance between mind, body and spirit, when they are used as part of a considered treatment programme. Flower essences can tackle the emotional and mental blockages that often lie at the root of illness. First popularised as a holistic treatment by Dr Edward Bach, creator of the popular Rescue Remedy, flower remedies are used by millions of people daily. Chris Phillips, a flower essence therapist with over thirty years experience, incorporates Bach's and other flower essence systems in this helpful handbook, allowing you to tailor treatments to your unique needs and circumstances. Packed with insight, inspiration and real-life stories, Treating Depression Naturally offers a new way of thinking about and managing your anxiety and depression.

itzhak bentov spiritual: Multidimensional Healing Carol Dignam, 2024-12-06 Multidimensional Healing offers a holistic physical-psycho-spiritual model of healing. While the current global healthcare system biomedical allopathy is well-suited to support physical healing using objective methods such as drugs, it ceased to be well-suited to support subtle energetic psycho-spiritual healing when its subjective method of psychoanalytic regression was displaced by drugs. The author Carol Dignam discovered an ancient narrative describing both physical and psycho-spiritual healing in traditional myths. When Hero myths describe men using weapons to kill bad guys to heal the kingdom, they are describing how allopathic doctors use drugs to kill germs to heal the body. When Heroine myths describe weavers meditatively ravelling and unravelling disharmonious threads until the weaving is magical, they are describing how meditators unravel psychic trauma until the psyche is harmonious. When both myths describe magical beings supporting the journey, they are describing the psychic and spiritual parts supporting healing. In search of a meditation supporting holistic physical-psycho-spiritual healing, like the heroines of old, the author began weaving together the cross-cultural subjective healing methods of shamanic

journeying, meditation, prayer, and regression until a universal somatic meditation shone through. Likewise, in search of an archetypal system that accurately described the psychic parts supporting psychic integration, the author wove together the cross-cultural archetypal systems until the second golden thread of a universal archetypal system shone through. Like the Greek myth of Ariadne whose golden thread led Theseus safely through the labyrinth of his psyche, the first golden thread was designed to lead the reader through their psychic labyrinth, while the second illuminates the psychic parts therein supporting healing.

itzhak bentov spiritual: *Spiritual Emergency* Stanislav Grof, Christina Grof, 1989-09 From *Spiritual Emergency to Healing and Rebirth* Increasing numbers of people involved in personal transformation are experiencing spiritual emergencies -- crises when the process of growth and change becomes chaotic and overwhelming. Individuals experiencing such episodes may feel that their sense of identity is breaking down, that their old values no longer hold true, and that the very ground beneath their personal realities is radically shifting. In many cases, new realms of mystical and spiritual experience enter their lives suddenly and dramatically, resulting in fear and confusion. They may feel tremendous anxiety, have difficulty coping with their daily lives, jobs, and relationships, and may even fear for their own sanity. Unfortunately, much of modern psychiatry has failed to distinguish these episodes from mental illness. As a result, transformational crises are often suppressed by routine psychiatric care, medication, and even institutionalization. However, there is a new perspective developing among many mental health professionals and those studying spiritual development that views such crises as transformative breakthroughs that can hold tremendous potential for physical and emotional healing. When understood and treated in a supportive manner, spiritual emergencies can become gateways to higher levels of functioning and new ways of being. In this book, foremost psychologists, psychiatrists, and spiritual teachers address the following questions: What is spiritual emergency? What is the relationship between spirituality, madness, and healing? What forms does spiritual emergency take? What are the pitfalls -- and promises -- of spiritual practice? How can people in spiritual emergency be assisted by family, friends, and professionals? This groundbreaking work reveals that within the crisis of spiritual emergency lies the promise of spiritual emergence and renewal.

itzhak bentov spiritual: *Yoga Journal* , 1988-09 For more than 30 years, *Yoga Journal* has been helping readers achieve the balance and well-being they seek in their everyday lives.
