khadijah mother of believers: The Weekly Khutbah Volume 1: 2013-2014 Saiyan Islam, 2016-02-06 Every week Friday comes and for us Muslims, Friday is very crucial in the sense we have our Jummah prayers. Along with the Jummah prayers we have our weekly sermons. What happens is that most of us tend to forget the sermons delivered by the Imams. So I thought of this system of writing down all the sermons so that the knowledge we gain gets preserved. Furthermore the sisters who are mostly unable to attend the Jummah prayer in many countries do not get the chance to learn from the weekly sermons. The males can easily record their learning and teach the women at their home. All the sermons are from the Imams from the Masjids I attend weekly and the Hadiths mentioned are from their own sermons. Sometimes the Imams may tend to refer to weak Hadiths, I have tried my best to classify them as much as possible. May Allah have mercy upon us all and may we get guided to the Straight Path, Ameen.

khadijah mother of believers: Queens and Prophets Emran Iqbal El-Badawi, 2022-12-01 ‘A genuinely paradigm-shifting work by one of the most exciting and innovative scholars in the field... compelling and powerful...’ Reza Aslan Arab noblewomen of late antiquity were instrumental in shaping the history of the world. Between Rome’s intervention in the Arabian Peninsula and the Arab conquests, they ruled independently, conducting trade and making war. Their power was celebrated as queen, priestess and goddess. With time some even delegated authority to the most important holy men of their age, influencing Arabian paganism, Christianity and Islam. Empress Zenobia and Queen Mavia supported bishops Paul of Samosata and Moses of Sinai. Paul was declared a heretic by the Roman church, while Moses began the process of mass Arab conversion. The teachings of these men survived under their queens, setting in motion seismic debates that fractured the early churches and laid the groundwork for the rise of Islam. In sixth-century Mecca, Lady Khadijah used her wealth and political influence to employ a younger man then marry him against the wishes of dissenting noblemen. Her husband, whose religious and political career she influenced, was the Prophet Muhammad. A landmark exploration of the legacy of female power in late antique Arabia, *Queens and Prophets* is a corrective that is long overdue.

khadijah mother of believers: Economic Empowerment Of Women In The Islamic World: Theory And Practice Toseef Azid, Jennifer L Ward-batts, 2020-06-22 The book, *Economic Empowerment of Women in the Islamic World*, discusses the economic, social, and political rights and status of women in Islam, which is theoretically given by the Islamic Jurisprudence (Shariah law). The chapters in this volume will address historical practices in comparison to the status of women in the contemporary Muslim world. Men and women in Islam, regardless of their age, social class, and education, are equal as citizens and individuals, but not identical in their rights and responsibilities. It can be observed from Islamic history that in the early age of Islam, women were given full confidence, trust, and high responsibilities in leadership, educational guidance, and decision-making. This volume will try to clarify the confusion in the status of the women in Islam that is presented by the media, as it is assumed that theoretical Islamic empowerment of women bears little relation to the real conditions of women in modern Muslim societies. It has been widely claimed in the media that Muslim women suffer more than men in Muslim societies and communities in terms of insecurity, domestic abuse, and low access to education and medical care. It is also stated in the press and media that absence of good governance also results in gender inequality and violation of the rights of Muslim women. This volume also aims to provide the solutions for the empowerment of women in the Islamic world. We assumed that without good governance, the status of women is not likely to improve. Muslim women have the potential to play a fundamental role in curbing corruption, social ills, violence, and crime in the Muslim world. This volume will make the case that in order to achieve stability and prosperity, the government must ensure a platform for women to participate in decision-making and hence benefit from the rights they are accorded in Islam. By covering a range of perspectives on the economic lives of Muslim women around the world, it hopes to shed light on the problems faced and to offer possible solutions to the empowerment of women in the Islamic world.
