

itzhak bentov infinity book

itzhak bentov infinity book represents a unique and profound exploration into the nature of consciousness, the universe, and human perception. This article delves into the key themes and concepts presented in the works attributed to Itzhak Bentov, particularly focusing on his exploration of infinity and the metaphysical insights contained within his writings. Bentov's ideas bridge the gap between science, spirituality, and philosophy, offering readers a comprehensive understanding of how the microcosm and macrocosm interrelate. The infinity book concept encapsulates Bentov's vision of an interconnected universe where time, space, and consciousness intertwine. Readers will gain insight into the scientific principles Bentov used, his philosophical interpretations, and the practical implications of his work for modern thinkers and seekers. This article also outlines the historical context of Bentov's contributions and examines the lasting impact of his infinity book on contemporary metaphysical thought. The following sections will provide a structured overview of these topics for an in-depth comprehension of the itzhak bentov infinity book.

- The Life and Legacy of Itzhak Bentov
- Core Concepts in the Itzhak Bentov Infinity Book
- Scientific Foundations of Bentov's Theories
- Philosophical and Metaphysical Interpretations
- Applications and Influence in Modern Thought

The Life and Legacy of Itzhak Bentov

Itzhak Bentov was an inventor, scientist, and mystic whose interdisciplinary work challenged conventional boundaries between science and spirituality. Born in Czechoslovakia in 1923, Bentov's career spanned engineering, medical research, and consciousness studies. He is best known for his ability to integrate scientific knowledge with esoteric insights, culminating in his influential writings, including concepts explored in the infinity book. Bentov's legacy rests on his pioneering efforts to describe the human experience through both physical and metaphysical lenses, emphasizing the unity of all existence. His work continues to inspire researchers in fields such as quantum physics, consciousness studies, and holistic health.

Early Career and Scientific Background

Bentov's early career was marked by innovative inventions and research in biomedical engineering. His scientific background provided the foundation for his later metaphysical inquiries, allowing him to approach spiritual topics with analytical rigor. This blend of science and spirituality is a hallmark of the itzhak bentov infinity book, which seeks to reconcile empirical observation with inner experience.

Contributions to Consciousness Studies

Throughout his career, Bentov focused on understanding human consciousness and its relationship to the cosmos. He proposed that consciousness is not merely a product of brain activity but a fundamental aspect of the universe. This perspective is central to the infinity book, where Bentov explores consciousness as an infinite field connecting all beings and dimensions.

Core Concepts in the Itzhak Bentov Infinity Book

The itzhak bentov infinity book presents several groundbreaking ideas that challenge traditional views of reality. At its core, the book explores the infinite nature of existence, the interconnectedness of all life, and the dynamics of consciousness as a cosmic phenomenon. Bentov's writings emphasize that the universe operates as a self-organizing, living system with infinite complexity and order.

The Concept of Infinity

Infinity in Bentov's framework is not just a mathematical abstraction but a lived reality that permeates all aspects of existence. He posits that time and space are manifestations of an infinite continuum, where beginnings and endings are illusions. This perspective encourages readers to view life and the universe as boundless and eternally unfolding.

Interconnectedness and Holism

Bentov's infinity book stresses the holistic nature of reality. Every element within the universe is linked through subtle energetic and informational networks. This interconnectedness implies that individual consciousness is part of a greater universal mind, which transcends physical limitations and linear time.

Consciousness as a Cosmic Phenomenon

Central to Bentov's philosophy is the idea that consciousness is fundamental to the cosmos. He suggests that consciousness shapes reality and that human awareness can tap into this infinite field, leading to profound transformations. This dynamic view of consciousness is a key theme in the infinity book, bridging scientific theory and spiritual practice.

Scientific Foundations of Bentov's Theories

While Bentov's ideas are deeply metaphysical, they are also grounded in scientific principles, especially those from quantum mechanics, biology, and cybernetics. His approach integrates scientific rigor with speculative insight, providing a framework for understanding the universe as a complex, self-regulating system.

Quantum Mechanics and the Nature of Reality

Bentov drew heavily on quantum theory to explain the non-linear, probabilistic nature of the universe. He used quantum concepts to support his views on the infinite potential of consciousness and the interconnectedness of all particles and fields. This scientific foundation lends credibility to the speculative elements of the infinity book.

Biological Systems and Self-Organization

Another scientific pillar of Bentov's work is the study of living systems and their intrinsic ability to self-organize. He explored how biological processes mirror cosmic dynamics, suggesting that life itself is a fractal expression of universal patterns. These insights are integral to the infinity book's depiction of life as a reflection of cosmic infinity.

Cybernetics and Feedback Loops

Bentov incorporated cybernetic theory to illustrate how feedback loops maintain balance and order within complex systems. This concept supports his view of the universe as an intelligent, self-regulating entity. The infinity book uses these ideas to explain how consciousness and matter interact through continuous feedback mechanisms.

Philosophical and Metaphysical Interpretations

The itzhak bentov infinity book extends beyond science into philosophical and metaphysical realms. Bentov's work invites readers to reconsider fundamental assumptions about existence, time, and identity through a multidimensional lens.

Time as a Nonlinear Dimension

Bentov challenges the conventional linear perception of time by proposing a multidimensional model where past, present, and future coexist simultaneously. This view aligns with many mystical traditions and offers an expanded understanding of human experience within the infinite framework.

The Illusion of the Separate Self

According to Bentov, the sense of an isolated individual self is a limited perspective. The infinity book posits that personal identity is a temporary manifestation within the infinite consciousness, encouraging a shift towards recognizing the unity of all existence.

Spiritual Implications and Human Potential

The metaphysical insights in Bentov's work suggest that by accessing the infinite consciousness, individuals can transcend ordinary limitations and achieve higher states of awareness. This potential

for spiritual awakening is a recurring theme in the infinity book, offering practical guidance for inner development.

Applications and Influence in Modern Thought

Itzhak Bentov's infinity book has had a significant impact on various disciplines, including spirituality, psychology, and holistic health. His integrative approach continues to inspire contemporary researchers and practitioners seeking to understand the complex relationship between mind, body, and universe.

Influence on Consciousness Research

Bentov's theories have informed modern consciousness studies by providing a model that bridges empirical science and experiential inquiry. His work encourages interdisciplinary research that embraces both objective measurement and subjective experience.

Impact on Holistic Health and Healing

The holistic principles in the infinity book have influenced alternative medicine and healing modalities. Bentov's emphasis on energy flow and consciousness as factors in health aligns with practices such as energy medicine, meditation, and biofeedback.

Integration into Spiritual Practices

Many spiritual teachers and practitioners draw from Bentov's concepts to deepen their understanding of universal interconnectedness and human potential. The infinity book serves as a philosophical foundation for practices aimed at expanding consciousness and fostering unity with the cosmos.

Key Takeaways from Bentov's Work

- The universe operates as an infinite, interconnected system.
- Consciousness is a fundamental cosmic force shaping reality.
- Time is multidimensional, transcending linear constraints.
- Human identity is part of a greater universal consciousness.
- Scientific and spiritual perspectives can be harmoniously integrated.

Frequently Asked Questions

Who is Itzhak Bentov, the author of the Infinity Book?

Itzhak Bentov was an Israeli-American scientist, inventor, and mystic known for his work in biofeedback and consciousness studies. He authored the book 'Stalking the Wild Pendulum,' often referred to as the Infinity Book, which explores the relationship between physics, consciousness, and spirituality.

What is the main theme of Itzhak Bentov's Infinity Book?

The main theme of Itzhak Bentov's Infinity Book is the exploration of consciousness and its connection to the physical universe. The book discusses concepts from quantum physics, mysticism, and human perception, aiming to bridge science and spirituality.

Why is Itzhak Bentov's Infinity Book considered influential in consciousness studies?

Itzhak Bentov's Infinity Book is influential because it presents complex scientific ideas about the mind and consciousness in an accessible way, proposing that human awareness interacts with the fabric of the universe. This interdisciplinary approach has inspired researchers and spiritual seekers alike.

Where can I find or purchase Itzhak Bentov's Infinity Book?

Itzhak Bentov's Infinity Book, often titled 'Stalking the Wild Pendulum,' can be found on major online retailers such as Amazon, as well as in specialty bookstores that focus on spirituality, science, and consciousness. Digital versions may also be available on eBook platforms.

How does Itzhak Bentov explain the concept of infinity in his book?

In his book, Itzhak Bentov explores infinity through the lens of cyclic processes and consciousness, suggesting that the universe and human awareness are part of an infinite, interconnected system. He uses metaphors like the pendulum and holographic models to illustrate the endless nature of existence and perception.

Additional Resources

1. *The Holographic Universe* by Michael Talbot

This book explores the idea that the universe is a giant hologram, where every part contains the whole. Talbot draws on cutting-edge physics and mystical traditions to explain how consciousness and reality are interconnected. It complements Itzhak Bentov's ideas by delving into the nature of consciousness and the fabric of the cosmos.

2. *The Field: The Quest for the Secret Force of the Universe* by Lynne McTaggart

McTaggart investigates the scientific evidence behind a universal energy field that connects all living things. This book presents experiments and theories that suggest consciousness can influence

physical reality, echoing Bentov's exploration of the mind-body connection and infinite consciousness.

3. Biocentrism: How Life and Consciousness are the Keys to Understanding the True Nature of the Universe by Robert Lanza

Lanza proposes that life and consciousness create the universe rather than the other way around. The book challenges traditional scientific views and provides a fresh perspective on the role of awareness in shaping reality, resonating with Bentov's ideas about infinite consciousness and interconnectedness.

4. The Tao of Physics by Fritjof Capra

Capra bridges the gap between modern physics and Eastern mysticism, showing how both point to a unified reality beyond material appearances. The book offers insights into the nature of the cosmos, consciousness, and infinity, themes central to Bentov's work.

5. Quantum Enigma: Physics Encounters Consciousness by Bruce Rosenblum and Fred Kuttner

This book dives into the paradoxes of quantum mechanics and their implications for understanding consciousness. It highlights how observation affects reality, supporting Bentov's concept of an infinite and interconnected universe where mind and matter are deeply entwined.

6. The Elegant Universe by Brian Greene

Greene explains string theory and the quest for a unified theory of everything, which seeks to describe the fundamental nature of reality. This scientific exploration of infinite dimensions and the cosmos can provide a complementary background to Bentov's philosophical and metaphysical inquiries.

7. Inner Paths to Outer Space by Rick Strassman, Slawek Wojtowicz, and Luis Eduardo Luna

This book examines how altered states of consciousness can reveal insights into the nature of the universe and infinity. It relates to Bentov's themes by exploring the inner experiences that connect individuals to a greater cosmic reality.

8. Cosmic Consciousness: A Study in the Evolution of the Human Mind by Richard Maurice Bucke

Bucke's classic work investigates the phenomenon of cosmic consciousness, a higher state of awareness that transcends the ordinary mind. The book aligns with Bentov's exploration of infinite consciousness and the expansion of human perception.

9. The Self-Aware Universe: How Consciousness Creates the Material World by Amit Goswami

Goswami argues from a quantum physics perspective that consciousness is the ground of all being and that the material world emerges from it. This book supports and extends Bentov's ideas about the primacy of consciousness and the infinite nature of reality.

itzhak bentov infinity book: Northrop Frye Robert D. Denham, 2004 The notebooks' contents not only expand on ideas laid out in Frye's published works but also touch on subjects most readers would not associate with Frye, such as his wide reading both in Eastern religious texts and in esoteric traditions ranging from astrology to the Kabbalah.--BOOK JACKET.

itzhak bentov infinity book: A Brief Tour of Higher Consciousness Itzhak Bentov, 2000-04 Anyone interested in the inner reaches of the mind, the greater structure of the cosmos, and the spiritual evolution of humanity will find this book an informed and delightful read. Bentov explains the Kabbalistic principles of number and sound, the meaning of cosmic symbols, and ultimately, shows that the universe and thought are inseparable.

itzhak bentov infinity book: Frye and the Word Jeffery Donaldson, Alan Mendelson, 2004-01-01 Frye and the Word draws together leading scholars in the fields of literary studies and hermeneutics, religious studies, and philosophy to construe and debate the late thought and writings of Northrop Frye in their spiritual dimension.

itzhak bentov infinity book: Pathways to God Dr. Robert Newton, 2012-04-09 Many people profess a belief in the existence of God, but very few of us are aware of the biofeedback mechanisms in the body that allow us to verify and experience our Creator. Dr. Newton systematically takes us through self-induced methods of experiencing God through mental and vocal practices: subliminal and neuro-linguistic programming; toning, singing, and chanting mantras; color therapy; breathing techniques; postures and movements; energy vortexes; experiencing nature and endorphins Dr. Newton reveals devices and objects that magnify your connection to the Creator including: Pyramids, crystals and gemstones Magnets and precious metals Lasers and psychotronic devices Brain entrainment devices All of these cause bodily relaxation which reveal the presence of God through electromagnetic phenomena. This book is especially valuable for energy/crystal healers.

itzhak bentov infinity book: A Cosmic Book on the Mechanics of Creation Itzhak Bentov, Mirtala Bentov, 1982 Starting with the idea of the universe as hologram, Bentov imaginatively shows how some of today's myth-shattering scientific realities could lead us to the Creator Him/Herself.--from lower cover.

itzhak bentov infinity book: Vril: the Life Force of the Gods Robert Blumetti, 2010-08-05 In Vril, the Life Force of the Gods is Blumetti explores the relevancy of our heathen, Germanic esoteric tradition in the 21st century, the nature of Vril as the Life Force of the Gods and how Odin revealed to us how to harness this power. He refers to Odins gift as Vrilology and explains how we can use Vrilology to transform our lives and the world around us, explores the Norse cosmology and cosmogony, the nature of the Gods, their relationship with quantum physics, how Vrilology can improve your health, luck, wealth, relationships and success by drawing on the power of Vril. Blumetti gives a thorough explanation how, by aligning yourself with Odin and the Norse Gods, you can draw on their life force and transform yourself into a Vril Being. This is what he means by Balder Rising.

itzhak bentov infinity book: Discreteness, Continuity, & Consciousness Alan M. Laibelman, 2007 This volume is the third in elaboration of a self-consistent and comprehensive philosophical system comprising the areas of metaphysics (volume one), ethics (volume two), and epistemology (volume three). Consciousness is conceived as the principal transcendental agency bringing all of manifestation into existence. The current work focuses on methods of cognition: sensory representations, ratiocination, intuition, mystical revelation, and the parapsychological skills pertaining to telepathy, clairvoyance, and precognition. The discipline of psychophysics is conceived as the unifier for all modalities. There is developed both a qualitative and a quantitative mechanism for gaining knowledge. Knowledge accumulation was proposed in volume two to be the ethical goal of all lifeforms. The purpose toward which that goal is placed in service is in resolution of the metaphysical crisis detailed in volume one.

itzhak bentov infinity book: True Magick Amber K, 2025-08-05 For fifteen years, Amber K's little green book has guided thousands down the life-changing path of magick. Selling more than 200,000 copies, True Magick has truly struck a chord with Witches, Pagans, and magicians around

the world. Presented here for the first time is the revised and expanded anniversary edition of True Magick. It features the same delightful introduction to the history and lore of magick, in addition to several varieties of magick, ranging from shamanism and Norse Magick to Voudun and Qabala. Amber K explains the basics, such as how to find or create ritual tools, establish a temple, plan a ritual, and cast spells safely and ethically. New material includes six more chapters, recommending reading for each chapter, and more than 100 added exercises.

itzhak bentov infinity book: Healthy Gaians Richard Levitón, 2007-01-02 [Headline, in boldface and/or small caps; do in 2 lines maximum] The healthier we are in body, mind, and culture, the more we can happily interact with the Spirit of Earth or Gaia, who needs our attention now. [Main text] Health, how to keep it, regain it, or even optimize it, concerns many today. But we usually think of health in personal terms, human terms. What about the health of the Earth? To be healthy rather than sick has planetary implications, and Healthy Gaians shows you ways of improving your health to help improve the planet's. Welcome to a diverse anthology of 70 articles on human health drawn from a journalistic career spanning 25 years. Here are bodywork, cancer, the immune system, vaccinations, eurythmy, chakras, Jungian psychology, intuition, conflict resolution, healing with art, music, sound, and color, singing to the dying, dreams, water rejuvenation, the poetics of the elements, near-death experiences, the purpose of evil, myth-living, and quantum-shamanic adventures. You'll get familiar with lots of natural health modalities such as herbalism, acupuncture, flower essences, and bionutrient fortification. And meet a stimulating group of health pioneers, such as R.D. Laing, William Irwin Thompson, Barbara Walker, Fred Alan Wolf, Robert Sardello, Caroline Myss, M.F.K. Fisher, Kyriacos Markides, and Rowena Kryder, among others. Each gives innovative ways to free ourselves from the ill-health constraints of body, mind, and culture as part of the larger process of becoming healthy Gaians—exactly what the planet needs from us. There are many ways to better health. The important thing is to start getting healthy so you can help the planet in its time of need. Then the Earth can start sending back the good health vibrations to you now you're back in the health loop. [Note: Be sure to note boldface two-line headline at top; this is 250 words but the book's format will be large and it will fit easily without crowding.]

itzhak bentov infinity book: The Time Travel Handbook David Hatcher Childress, 1999 An authoritative chronicling of real-life time travel experiments, teleportation devices and more.

itzhak bentov infinity book: The Healing Power of Sound Mitchell L. Gaynor, MD, 2002-08-13 A guide to the surprising benefits of music on your mind, spirit, and body—complete with sound-based breathing and meditation exercises Since 1991, Dr. Mitchell Gaynor has been achieving remarkable results by integrating music, vocalization, breathing, and meditation techniques in his work with patients. In The Healing Power of Sound, he presents his sound-based techniques for self-healing—techniques that anyone can use, whether faced with a life-threatening disease or simply seeking relief from the stresses of daily life. Numerous studies have demonstrated the health benefits of music: it can lower blood pressure and heart and respiratory rates; reduce cardiac complications; increase the immune response; and boost our natural opiates. Gaynor shows how, when integrated as part of a mind-body-spirit approach to wellness, music can play a significant part in maintaining a healthy lifestyle or in healing serious disease. The Healing Power of Sound includes twelve exercises involving breathing, meditation, and “toning”—using pure vocal sound to resolve tension, release emotion, and spur the healing process—that can be used by anyone to improve health and quality of life.

itzhak bentov infinity book: Tarot Mysticism Joe Monteleone, 2025-01-08 Explore the Mysteries of Tarot, Qabalah, Numerology, and Non-Duality in a New Way Joe Monteleone takes you beyond the usual divinatory topics and into the realm of mysticism. He presents Aleister Crowley's Thoth Tarot as a tool for mystical insight, through which you can experience the deeper mysteries directly. Joe reveals a life-changing concept: your thoughts and the physical world appear to be separate realms, but they're not. He teaches you how to unify them using the Thoth Tarot and achieve a mystical experience, a sort of ecstasis akin to those experienced by monks, sages, and

philosophers of antiquity. Tarot Mysticism guides you through the Thoth Tarot, providing each card's symbolism and connections to Qabalah, numerology, and occult philosophy. This book also features illustrations, practical exercises, and historical research to enhance your journey toward enlightenment. With Joe's guidance, you can traverse different levels of consciousness, understand symbolism with higher sophistication, and realize the unity between the universe and yourself.

itzhak bentov infinity book: Summary of Stalking the Wild Pendulum QuickChapters, 2025-09-04 What if reality is far more interconnected—and consciousness far more powerful—than we've ever imagined? In *Stalking the Wild Pendulum*, Itzhak Bentov offers a groundbreaking exploration of the mechanics of consciousness, blending science, mysticism, and creativity into a fascinating vision of the universe. This chapter-by-chapter summary distills Bentov's thought-provoking ideas into clear, accessible insights. From the nature of time and perception to the possibility of expanded states of awareness, Bentov challenges readers to see themselves not as isolated beings, but as participants in a larger, holistic reality. With his signature wit and imaginative explanations, Bentov invites us to reimagine the boundaries of human potential and to glimpse the limitless possibilities of consciousness. This summary provides the essential takeaways for anyone curious about the deeper workings of mind, matter, and the universe itself. Disclaimer: This is an unofficial summary and analysis of *Stalking the Wild Pendulum* by Itzhak Bentov. It is designed solely to enhance understanding and aid in the comprehension of the original work.

itzhak bentov infinity book: Talking to Nightlights Wendy Garrett, 2007-04 When a nightlight speaks and only you can understand it, do you listen or pretend that your imagination is merely playing tricks? In this revitalizing spiritual guide, follow a woman's inspirational journey and learn the power that can be harnessed by losing fear and suspending disbelief. After witnessing her nightlight talking to her through a series of blinks, Wendy Garrett chose to defy logic and pay attention to the message. Her decision led her on a startling journey of self-discovery—a metamorphosis from an external and distant relationship with the source of life and the divine to a fully integrated awareness of the ever-present nature of all that is sacred and holy. Divided into two sections, *Talking to Nightlights* explores Garrett's coming to terms with being a channel for the force she calls Energy and reveals its hidden messages. But even more importantly, this revolutionary guide presents a new, expanded worldview on a more mystical level. By allowing ourselves to step back from what we perceive as reality and open our minds to the possibility of the unknown, our outlook upon the manifest world will be forever changed.

itzhak bentov infinity book: The Purification Papers Daniel Briggs, 2012 This original 2012 review by an Amazon Top 1000 Reviewer was redacted from the Amazon Website. Author Daniel Briggs has done a lot of work to put together this remarkable compilation of evidence that we are inevitably heading toward a major shift in consciousness. I was very impressed: he must have read hundreds of books in his research of this compilation. It includes history going back to matriarchal times, biblical times, esoterica, alien influences, the Mayans (of course), the Bible code, Terence McKenna's analysis of the I-Ching, and much, much, MUCH more! Modern events such as 9-11 and OJ Simpson are weaved into the prophecies. Though I have read a great deal on the vast majority of these topics, I was nonetheless surprised and shocked by tidbits of info, such as the concept that men actually leave energy lines in women during sex, and these take 7 years to go away. Astronaut Edgar Mitchell went into Samadhi during his space flight. I was most astonished to learn that even hard-headed engineering types have concluded that this shift is inevitable as we head toward zero point energy. There is hope on the horizon! I love how Mr. Briggs suggests we will develop siddhis (powers) after the shift: 'Attendance at the Hogwarts schools of the new Golden Age promises inconceivable thrills as we develop our God-given siddhis in a natural and controlled environment. Without doubt, the most popular class will be flying. Sporadic levitations have been recorded throughout history, mostly connected with an overpowering euphoric vision: rapture.' My only complaint about this book is that there is no introduction for us to get the overall picture of what the book is about, nor is there an author bio. But if you want a summary of all things pointing to a major shift, this is a great read! Susan Schenck, Amazon Top 1000 Reviewers

itzhak bentov infinity book: The Art of Singing Jennifer Hamady, 2009 Performers of all ages and abilities will gain valuable insight into the mechanics, psychology and physiology of singing. The accompanying CD - in Jennifer's own voice - captures a conversation about her ideas and journey, as well as exercises that will help you discover and release your true and best instrument.

itzhak bentov infinity book: The Universal Kabbalah Leonora Leet, 2004-09-29 Presents a new understanding of the laws of cosmic manifestation through the sacred geometry of the Sabbath Star diagram • Explores three higher levels of consciousness above the four worlds of the classical Kabbalah • Reveals the mathematical code of the laws of all cosmic manifestation This landmark work by an innovative modern Kabbalist develops a scientific model for kabbalistic cosmology and soul psychology derived from the kabbalistic diagram of the Tree of Life and the author's own Sabbath Star diagram--a configuration of seven Star of David hexagrams. This geometric model begins with the four worlds of the classical Kabbalah, which bring us to the present time and birthright level of the soul, and is then expanded to three higher enclosing worlds or levels of evolving consciousness. The Sabbath Star diagram therefore accommodates both the emanationist cosmology of the earlier Zoharic Kabbalah and the future orientation of the later Kabbalah of Isaac Luria. The hexagram elements that construct each expansion of the Sabbath Star diagram configure the cosmic stages of each of its "worlds." The matrix that is produced by these construction elements configures the level of the multi-dimensional soul that is correlated with each cosmic world. In its final stage, this model unites the finite and infinite halves of the Sabbatical world in a way that exemplifies the secret doctrine of the Kabbalah. Not only does this work offer a new, inclusive model for the Kabbalah but it also provides a basis for complexity theory, with its final extrapolation to infinity. The universality of this model is further shown by its applicability to such other domains as physics, sociology, linguistics, and human history. This universal model encodes the laws of all cosmic manifestation in terms that are particularly coherent with the formulations of the Kabbalah, giving a mathematical basis to many aspects of this mystical tradition and providing a new synthesis of science and spirituality for our time that may well write a new chapter to the Kabbalah.

itzhak bentov infinity book: Attract Your Dreams Amber Dayva, 2013 Everyone has dreams, desires, wishes. Few know how to turn those dreams, desires and wishes into reality. Amber Dayva draws on her own life's experiences and recounts her personal journey to success through conscious dreaming as she helps guide you along your own path to realizing your dreams. You will learn how to properly articulate your goals and consciously dream about how to achieve them, how to determine your true desires and how to differentiate them the desire to desire. You will learn how to interpret the labyrinths of your dreams and understand what your dreams are telling you. You will learn how to overcome your weaknesses and past failures and trust in your inner strength and the power of your thoughts. You will learn to recognize your dream thief and how to thwart his attempts to lead you astray. True love, financial success and a life of happiness can be within your grasp once you learn how to consciously dream of it and trust what your dreams are telling you. You will learn how to turn your dream life into real life.

itzhak bentov infinity book: American Book Publishing Record , 1983-04

itzhak bentov infinity book: Stalking the Wild Pendulum Itzhak Bentov, 1988-02-01 In his exciting and original view of the universe, Itzhak Bentov has provided a new perspective on human consciousness and its limitless possibilities. Widely known and loved for his delightful humor and imagination, Bentov explains the familiar world of phenomena with perceptions that are as lucid as they are thrilling. He gives us a provocative picture of ourselves in an expanded, conscious, holistic universe.
