julio gonzalez tutor reviews: The Real and the Romantic Frances Spalding, 2022-07-07 The 21st century has seen a surge of interest in English art of the interwar years. Women artists, such as Winifred Knights, Frances Hodgkins and Evelyn Dunbar, have come to the fore, while familiar names Paul Nash, Eric Ravilious and Stanley Spencer have reached new audiences. High-profile exhibitions have attracted recordbreaking visitor numbers and challenged received opinion. In *The Real and the Romantic*, Frances Spalding, one of Britain's leading art historians and critics, takes a fresh and timely look at this rich period in English art. The devastation of the First World War left the art world decentred and directionless. This book is about its recovery. Spalding explores how exciting new ideas co-existed with a desire for continuity and a renewed interest in the past. We see the challenge to English artists represented by Cézanne and Picasso, and the role played by museums and galleries in this period. Women artists, writers and curators contributed to the emergence of a new avant-garde. The English landscape was revisited in modern terms. The 1930s marked a high point in the history of modernism in Britain, but the mood darkened with the prospect of a return to war. The former advance towards abstraction and internationalism was replaced by a renewed concern with history, place, memory and a sense of belonging. Native traditions were revived in modern terms but in ways that also let in the past. Surrealism further disturbed the ascetic purity of high modernism and fed into the British love of the strange. Throughout these years, the pursuit of the real was set against, and sometimes merged with, an inclination towards the romantic, as English artists sought to respond to their subjects and their times.

Fruto de um colaborativo trabalho de 46 pesquisadoras e pesquisadores brasileiros oriundos de todas as macrorregiões brasileiras, bem como estrangeiros do Chile, Espanha e Portugal, esta obra apresenta uma rica contribuição no mapeamento de temas com ampla relevância empírica para compreender os potenciais desafios e oportunidades da realidade de discentes e docentes. Diante dos resultados apresentados em ricas discussões caracterizadas por um elevado rigor teórico-metodológico e um forte comprometimento com a construção dialógica de novos conhecimentos, o presente livro entrega uma acessível apreensão para um amplo público leigo ou especializado sobre temas relevantes e representativos no estado da arte do campo das Ciências da Educação.

julio gonzalez tutor reviews: The Global and the Local M. Fernanda Astiz, Motoko Akiba, 2016-08-18 The book examines how the understanding of the global and the local has changed in response to ongoing reconfigurations between the state and society. It also emphasizes the importance of schooling as an institution both within and across national contexts, a holistic approach that helps us move beyond a conglomeration of isolated local events to pay attention to global trends. In this regard, the book underscores the richness of contextual factors that may create opportunities for innovation, or may serve as constraints in the implementation process. As a whole, the book brings new questions about globalization and the imperatives of education policy and implementation.

julio gonzalez tutor reviews: **Strategies for Teaching in the XXI Century** Fernando J. Garrigos-Simon, Ignacio Gil-Pechuan, Carlos Rueda-Armengot, 2015-10-13 This book presents a range of teaching methodologies and skills assessments conceived as fundamental tools for teaching and learning in the 21st century. In addition, it explores how novel teaching platforms may be used to improve communication and how emerging software can enable the acquisition and horizontal transfer of knowledge and self-study. Bringing together the latest trends in educational innovation and experiences and cases of educational innovation, the book will encourage progress and innovation in learning and applied technological tools. As such, it will have a significant impact on the education system, not only at the undergraduate and postgraduate levels, but also in primary and secondary education, as well as in the ongoing training of business personnel, which offers a response to the demands of the environment. Through its 19 chapters, this volume investigates a variety of models of teaching and learning that purport to provide students with the tools and skills necessary for success in a highly competitive, rapidly evolving, global labour market, where linguistic proficiency is increasingly important. The book's scope runs from primary education to compulsory education and finally higher education.
