jane blasio husband: Taken at Birth Jane Blasio, 2021-07-13 From the 1940s through the 1960s, young pregnant women entered the front door of a clinic in a small North Georgia town. Sometimes their babies exited out the back, sold to northern couples who were desperate to hold a newborn in their arms. But these weren't adoptions--they were transactions. And one unethical doctor was exploiting other people's tragedies. Jane Blasio was one of those babies. At six, she learned she was adopted. At fourteen, she first saw her birth certificate, which led her to begin piecing together details of her past. Jane undertook a decades-long personal investigation to not only discover her own origins but identify and reunite other victims of the Hicks Clinic human trafficking scheme. Along the way she became an expert in illicit adoptions, serving as an investigator and telling her story on every major news network. *Taken at Birth* is the remarkable account of her tireless quest for truth, justice, and resolution. Perfect for book clubs, as well as those interested in inspirational stories of adoption, human trafficking, and true crime.

jane blasio husband: Somebody Told Me Rick Bragg, 2001-08-28 With his bestselling *All Over but the Shoutin'*, Rick Bragg gave us memorable stories of his own childhood. Here he offers the best of his work as a Pulitzer-Prize winning journalist writing the remarkable stories of others. For twenty years, Bragg has focused his efforts on the common man. So while some of these stories are about people whose names we know—such as Susan Smith, the South Carolina mother who drowned her two sons—most are people whose names we've never heard, people who have survived tornadoes and swamps, racism and bombs. In incisive, unadorned prose that is nonetheless strikingly beautiful, these pieces rise above journalism to become literature and show the triumph of the human spirit.

jane blasio husband: Feeding the Crisis Maggie Dickinson, 2019-11-19 The Supplemental Nutrition Assistance Program (SNAP), formerly known as food stamps, is one of the most controversial forms of social welfare in the United States. Although it's commonly believed that such federal programs have been cut back since the 1980s, Maggie Dickinson charts the dramatic expansion and reformulation of the food safety net in the twenty-first century. Today, receiving SNAP benefits is often tied to work requirements, which essentially subsidizes low-wage jobs.

Excluded populations—such as the unemployed, informally employed workers, and undocumented immigrants—must rely on charity to survive. *Feeding the Crisis* tells the story of eight families as they navigate the terrain of an expanding network of assistance programs in which care and abandonment work hand in hand to make access to food uncertain for people on the social and economic margins. Amid calls at the federal level to expand work requirements for food assistance, Dickinson shows us how such ideas are bad policy that fail to adequately address hunger in America. *Feeding the Crisis* brings the voices of food-insecure families into national debates about welfare policy, offering fresh insights into how we can establish a right to food in the United States.

jane blasio husband: *Reclaiming Your Community* Majora Carter, 2022-02 Majora Carter shows how brain drain cripples low-status communities and maps out a development strategy focused on talent retention to help them break out of economic stagnation. My musical, *In the Heights*, explores issues of community, gentrification, identity and home, and the question: Are happy endings only ones that involve getting out of your neighborhood to achieve your dreams? In her refreshing new book, Majora Carter writes about these issues with great insight and clarity, asking us to re-examine our notions of what community development is and how we invest in the futures of our hometowns. This is an exciting conversation worth joining.” —Lin-Manuel Miranda How can we solve the problem of persistent poverty in low-status communities? Majora Carter argues that these areas need a talent-retention strategy, just like the ones companies have. Retaining homegrown talent is a critical part of creating a strong local economy that can resist gentrification. But too many people born in low-status communities measure their success by how far away from them they can get. Carter, who could have been one of them, returned to the South Bronx and devised a development strategy rooted in the conviction that these communities have the resources within themselves to succeed. She advocates measures such as • Building mixed-income instead of exclusively low-income housing to create a diverse and robust economic ecosystem • Showing homeowners how to maximize the long-term value of their property so they won't succumb to quick-cash offers from speculators • Keeping people and dollars in the community by developing vibrant “third spaces”—restaurants, bookstores, and places like Carter's own Boogie Down Grind Cafe This is a profoundly personal book. Carter writes about her brother's murder, how turning a local dumping ground into an award-winning park opened her eyes to the hidden potential in her community, her struggles as a woman of color confronting the “male and pale” real estate and nonprofit establishments, and much more. It is a powerful rethinking of poverty, economic development, and the meaning of success.
