jane blasio parents real: *Taken at Birth* Jane Blasio, 2021-07-13 From the 1940s through the 1960s, young pregnant women entered the front door of a clinic in a small North Georgia town. Sometimes their babies exited out the back, sold to northern couples who were desperate to hold a newborn in their arms. But these weren't adoptions--they were transactions. And one unethical doctor was exploiting other people's tragedies. Jane Blasio was one of those babies. At six, she learned she was adopted. At fourteen, she first saw her birth certificate, which led her to begin piecing together details of her past. Jane undertook a decades-long personal investigation to not only discover her own origins but identify and reunite other victims of the Hicks Clinic human trafficking scheme. Along the way she became an expert in illicit adoptions, serving as an investigator and telling her story on every major news network. *Taken at Birth* is the remarkable account of her tireless quest for truth, justice, and resolution. Perfect for book clubs, as well as those interested in inspirational stories of adoption, human trafficking, and true crime.

jane blasio parents real: *Somebody Told Me* Rick Bragg, 2001-08-28 With his bestselling *All Over but the Shoutin'*, Rick Bragg gave us memorable stories of his own childhood. Here he offers the best of his work as a Pulitzer-Prize winning journalist writing the remarkable stories of others. For twenty years, Bragg has focused his efforts on the common man. So while some of these stories are about people whose names we know—such as Susan Smith, the South Carolina mother who drowned her two sons—most are people whose names we've never heard, people who have survived tornadoes and swamps, racism and bombs. In incisive, unadorned prose that is nonetheless strikingly beautiful, these pieces rise above journalism to become literature and show the triumph of the human spirit.

jane blasio parents real: *The Emerging Child* Phyllis Brusiloff, Mary Jane Witenberg, 2015-08-06 The Hudsons Guild is a long established neighborhood house which offers social, educational, psychiatric, and psychological services to the residents of Chelsea, who are often socially, economically, and educationally, deprived. The many activities of the Hudson Guild Neighborhood House included a mental hygiene clinic also called the Counseling Service, and the operation of a day care center for the children of working mothers. Dr. David Wolitzky describes the program: In 1956 the staffs of these two independent services embarked on a cooperative continuing venture, the establishment and operation of the Therapeutic Nursery Group (TNG). The aim of the TNG is to provide emotionally and behaviorally disturbed pre-school children with a group play therapy experience under the leadership of a special nursery group-teacher-therapist. The basic rationale of this program is that the early detection and treatment of psychological disturbances serves as a constructive influence on the child's current and subsequent personal and social adaptation. The clinical evidence of the personnel involved in this program is that the TNG in providing a corrective emotional experience is an effective mode of intervention. This book presents the background, nature, techniques, and implications of the TNG program.

jane blasio parents real: *Social Reproduction and the City* Simon Black, 2020-07-15 The

transformation of child care after welfare reform in New York City and the struggle against that transformation is a largely untold story. In the decade following welfare reform, despite increases in child care funding, there was little growth in New York's unionized, center-based child care system and no attempt to make this system more responsive to the needs of working mothers. As the city delivered child care services "on the cheap," relying on non-union home child care providers, welfare rights organizations, community legal clinics, child care advocates, low-income community groups, activist mothers, and labor unions organized to demand fair solutions to the child care crisis that addressed poor single mothers' need for quality, affordable child care as well as child care providers' need for decent work and pay. *Social Reproduction and the City* tells this story, linking welfare reform to feminist research and activism around the "crisis of care," social reproduction, and the neoliberal city. At a theoretical level, Simon Black's history of this era presents a feminist political economy of the urban welfare regime, applying a social reproduction lens to processes of urban neoliberalization and an urban lens to feminist analyses of welfare state restructuring and resistance. Feminist political economy and feminist welfare state scholarship have not focused on the urban as a scale of analysis, and critical approaches to urban neoliberalism often fail to address questions of social reproduction. To address these unexplored areas, Black unpacks the urban as a contested site of welfare state restructuring and examines the escalating crisis in social reproduction. He lays bare the aftermath of the welfare-to-work agenda of the Giuliani administration in New York City on child care and the resistance to policies that deepened race, class, and gender inequities.

The party out of power used to be "the loyal opposition." No longer. Now it's "the Resistance." The left, abandoning any pretense of fairness and decency, has declared political war on President Trump. Waged by a stunningly broad array of militants—the Democratic Party, countless left-wing interest groups, radical academics, the liberal mainstream media, Antifa shock troops, Hollywood, and the tech oligarchs—this political war is aimed not only at conservative ideas but also at Trump supporters, even teenagers wearing MAGA hats. In his shocking new book, *Guilty by Reason of Insanity*, national #1 bestselling author David Limbaugh explains how the left lost its mind—and the threat it now poses to us all. No book you read this year could be more important.
