khadija importance islam: *Advancing the Legal Status of Women in Islamic Law* Mona Samadi, 2021-05-25 Mona Samadi examines the sources of gender differences within the Islamic legal tradition and describes how Islamic law entitles individuals to justice according to their status, abilities and potential. In the case of men and women's capabilities, the underlying principle is that they are entitled to the same rights, as long as their capabilities are the same. In the legal construction of women's status, women have been prescribed lacking the same abilities and capabilities as men. As such, their status and rights differ, justifying men to be the maintainers of women. By presenting the historical development of women's status and how women's legal status is debated in contemporary Muslim societies, Mona Samadi convincingly provides various methods for facilitating change within the Islamic legal theory framework.

khadija importance islam: *Reflections on Reason, Religion, and Tolerance* Klass Grinell, 2015-06-07 This is an attempt to reflect on Islam as it appears in the context of Fethullah Gulen's teachings, an influential Turkish-Muslim scholar who inspired a movement of education and interfaith dialogue. Grinell's extensive study of Islam and of Gulen allows him to pinpoint a unique expression of values and beliefs that could alter the typical understanding of Islam and Muslims in the West. He draws upon his previous studies of the Gulen Movement and comparatively places Gulen in a wider context of faith and society. What is the concept of knowledge in Islam as understood by Gulen? How is faith and service to people connected? Is Gulen after building a sultanate? Does the Gulen movement have a (hidden) political agenda? How traditional or modern is Gulen? These are some of the questions Grinell attempts to answer from his perspective. As a humanistic researcher on Islam, Grinell believes we definitely have something to learn from Islam.

khadija importance islam: *Islam and Society* Riaz Hassan, 2013-06-01 The central focus of this volume is to explore and highlight the nexus between the ideology of Islam and social and cultural milieus with the aim of reconceptualising the sacred as a socially constructed reality and not a transcendental supernatural phenomenon. From this perspective, human agency and society become the main focus for shaping, perpetuating and institutionalising religious beliefs, ideas and practices, opening up space for empirical and sociological analyses of religious phenomena. The seven essays in this volume seek to explore and examine some of the key debates in contemporary sociology of Islam. The topics explored are: social factors in the origins of Islam; social theory and Muslim society; Islam and politics in South Asia; Muslim piety; anti-Semitism; the social foundations of Muhammad's prophetic mission, with a special reference to Arab historical memory and the role of his first wife Khadija bint Khuwaylid; and the barriers to social inclusion of Australian Muslims in

khadija importance islam: Resistance in Contemporary Middle Eastern Cultures Karima Laachir, Saeed Talajooy, 2013 This study highlights the connections between power, cultural products, resistance, and the artistic strategies through which that resistance is voiced in the Middle East. Exploring cultural displays of dissent in the form of literary works, films, and music, the collection uses the concept of 'cultural resistance' to describe the way culture and cultural creations are used to resist or even change the dominant political, social, economic, and cultural discourses and structures either consciously or unconsciously. The contributors do not claim that these cultural products constitute organized resistance movements, but rather that they reflect instances of defiance that stem from their peculiar contexts. If culture can be used to consolidate and perpetuate power relations in societies, it can also be used as the site of resistance to oppression in its various forms: gender, class, ethnicity, and sexuality, subverting existing dominant social and political hegemonies in the Middle East.

khadija importance islam: Excellent Daughters Katherine Zoepf, 2017-01-10 For more than a decade, Katherine Zoepf has lived in or traveled throughout the Arab world, reporting on the lives of women, whose role in the region has never been more in flux. Only a generation ago, female adolescence as we know it in the West did not exist in the Middle East. There were only children and married women. Today, young Arab women outnumber men in universities, and a few are beginning to face down religious and social tradition in order to live independently, to delay marriage, and to pursue professional goals. Hundreds of thousands of devout girls and women are attending Qur'anic schools—and using the training to argue for greater rights and freedoms from an Islamic perspective. And, in 2011, young women helped to lead antigovernment protests in the Arab Spring. But their voices have not been heard. Their stories have not been told. In Syria, before its civil war, she documents a complex society in the midst of soul searching about its place in the world and about the role of women. In Lebanon, she documents a country that on the surface is freer than other Arab nations but whose women must balance extreme standards of self-presentation with Islamic codes of virtue. In Abu Dhabi, Zoepf reports on a generation of Arab women who've found freedom in work outside the home. In Saudi Arabia she chronicles driving protests and women entering the retail industry for the first time. In the aftermath of Tahrir Square, she examines the crucial role of women in Egypt's popular uprising. Deeply informed, heartfelt, and urgent, *Excellent Daughters* brings us a new understanding of the changing Arab societies—from 9/11 to Tahrir Square to the rise of ISIS—and gives voice to the remarkable women at the forefront of this change.

khadija importance islam: The Truth About Islam Ibn El-Neil, 2008-11-01 Non-Muslims in Islamic countries are exposed to the religion of Islam 24 hours, seven days a week, for their entire life (No freedom of choice here). They hear five prayers between 6: 00 AM and 8: 00 PM everyday on radio, television, Loud Speakers and other public address systems that cover every square inch of the country, whether they want to or not. They get to hear the Koran recited for hours every day. The non-Muslim is a second class citizen who is not allowed to rule or hold key position in the country. He can live in the abode of Islam as long as he doesn't preach his religions outside his community, doesn't insult Islam or criticize the Prophet, and he must pay a religion tax. The punishment for leaving Islam is death (most recently a young woman killed in Saudi Arabia and one in Jordan for leaving Islam; Sept. 2008]. Islam gives its followers the right to kill non-Muslims, and take their wives, children, and possessions as a booty blessed by the Koran and the Hadith. Only a Muslim man can legally lie to his wives, and his enemies.

khadija importance islam: African Women Writers and the Politics of Gender Sadia Zulfiqar, 2016-09-23 This work examines the work of a group of African women writers who have emerged over the last forty years. While figures such as Chinua Achebe, Ben Okri and Wole Soyinka are likely to be the chief focus of discussions of African writing, female authors have been at the forefront of fictional interrogations of identity formation and history. In the work of authors such as Mariama Bâ (Senegal), Buchi Emecheta (Nigeria), Chimamanda Ngozi Adichie (Nigeria), Tsitsi Dangarembga (Zimbabwe), and Leila Aboulela (Sudan), there is a clear attempt to subvert the tradition of male writing where the female characters are often relegated to the margins of the culture, and confined to the domestic, private sphere. This body of work has already generated a significant number of critical responses, including readings that draw on gender politics and colonialism, but it is still very much a minor literature, and most mainstream western feminism has not sufficiently processed it. The purpose of this book is three-fold. First, it draws together some of the most important and influential African women writers of the post-war period and looks at their work, separately and together, in terms of a series of themes and issues, including marriage, family, polygamy, religion, childhood, and education. Second, it demonstrates how African literature produced by women writers is explicitly and polemically engaged with urgent political issues that have both local and global resonance: the veil, Islamophobia and a distinctively African brand of feminist critique. Third, it revisits Fredric Jameson's claim that all third-world texts are "national allegories" and considers these novels by African women in relation to Jameson's claim, arguing that their work has complicated Jameson's assumptions.

khadija importance islam: Cultures and Religions Rafael Barracuda, 2024-06-04 This book is about Cultures, Religions and their ethics in the world, their development and their transition to a world that is becoming more and more one. In addition, there is a chapter on paranormal matters considered from a scientific point of view. It also describes Western, Hindu and Chinese numerology and the I Ching. Then there is a chapter on the core of Judaism, Christianity, Islam and other religions. There is a special chapter describing traditional ethnic cultures, of various Indian and African peoples and myths both from Ancient Egypt, the Gilgamesh epic, the King Gesar epic, from Tibet and Mongolia and myths from Korea, Australia and other peoples. .For example, a description of the Book of Giants is included, shedding new light on Genesis, which holds a warning for the future. Then there is a description of a possible rule of life, education and philosophy, which can take place in a globalised world. khadija importance islam: Theorizing Justice in Contemporary Arabo-Islamic Philosophy Kaouther Karoui, 2023-12-04 What is »justice« from the perspective of contemporary Arabo-Islamic philosophy? Kaouther Karoui takes a transcultural approach, open to different philosophical traditions, and seeks to decenter Western notions of normativity. She focuses on two thinkers, namely the feminist Fatima Mernissi (d.2015) and Mohammed Arkoun (d.2010), a well-known critic of hegemony and orthodoxy. She situates their thinking within current debates among Arab thinkers and brings their ideas into dialog with Western political philosophy. This study thus challenges stereotypes about the Arab-Islamic world by discussing postcolonial theories of gender justice, political freedom, and religion.

khadija importance islam: Economic Empowerment Of Women In The Islamic World: Theory And Practice Toseef Azid, Jennifer L Ward-batts, 2020-06-22 The book, Economic Empowerment of Women in the Islamic World, discusses the economic, social, and political rights and status of women in Islam, which is theoretically given by the Islamic Jurisprudence (Shariah law). The chapters in this volume will address historical practices in comparison to the status of women in the contemporary Muslim world. Men and women in Islam, regardless of their age, social class, and education, are equal as citizens and individuals, but not identical in their rights and responsibilities. It can be observed from Islamic history that in the early age of Islam, women were given full confidence, trust, and high responsibilities in leadership, educational guidance, and decision-making. This volume will try to clarify the confusion in the status of the women in Islam that is presented by the media, as it is assumed that theoretical Islamic empowerment of women bears little relation to the real conditions of women in modern Muslim societies. It has been widely claimed in the media that Muslim women suffer more than men in Muslim societies and communities in terms of insecurity, domestic abuse, and low access to education and medical care. It is also stated in the press and media that absence of good governance also results in gender inequality and violation of the rights of Muslim women. This volume also aims to provide the solutions for the empowerment of women in the Islamic world. We assumed that without good governance, the status of women is not likely to improve. Muslim women have the potential to play a fundamental role in curbing corruption, social ills, violence, and crime in the Muslim world. This volume will make the case that in order to achieve stability and prosperity, the government must ensure a platform for women to participate in decision-making and hence benefit from the rights they are accorded in Islam. By covering a range of perspectives on the economic lives of Muslim women around the world, it hopes to shed light on the problems faced and to offer possible solutions to the empowerment of women in the Islamic world.
