itzhak bentov quotes: *Chop Wood, Carry Water* Rick Fields, 1984-12-01 An inspirational handbook to discovering spiritual fulfillment in everyday activities and applying ancient wisdom to your modern life. More than a thousand years ago a Chinese Zen Master wrote: *Magical Power, Marvelous Action! Chopping Wood, Carrying Water...* The message is as true today as it was then: the greatest lessons and the profoundest heights of the spiritual path can be found in our everyday lives. It is the greatest challenge for people living in contemporary society to find the spiritual aspects of working in an office, store, or factory; balancing a checkbook; raising a family; or making a relationship work. How can we make all these daily activities a part of the path? How can we apply the insights of great spiritual traditions, and our own experience, to the way we live and develop? This book is a guide—a handbook filled with information, advice, hints, stories, inspiration, encouragement, connections, warning, and cautions, for the inner journey as we live throughout our lives. *Chop Wood, Carry Water* contains much ancient wisdom, but the emphasis is on contemporary perceptions. Many of our guides have been known to humanity for millennia: they are the world's great spiritual teachers—Christ, the Buddha, Lao Tse, Confucius. Others are contemporary teacher and healers, widely recognized and respected. All offer ways to integrate the events, our focus on relationships and family, our struggle with technology, money, politics and more—into the quest for spiritual fulfillment.

itzhak bentov quotes: *Channeling* Jon Klimo, 1998-04-17 In this study of channeling, earlier called spirit communication or mediumship, Klimo, who teaches at Rosebridge Graduate School in the San Francisco Bay Area, writes with clarity about the communication of information to or through a physically embodied human being from a source...on some other level or dimension of

reality other than the physical as we know it. He profiles recent channels and their sources, goes back to preliterate societies and the advent of monotheism and identifies as channels such figures as Moses, Solomon, Muhammad, Merlin, Nostradamus, Swedenborg and Edgar Cayce. He discusses the sorts of people who are channels, kinds of information channeled, sources of information channeled and varieties of channeling like clairvoyance and automatic writing. According to Klimo, few people tap into their abilities to perform channeling and for those who think they can, he serves as guide.
