khadijah aisha book: Muslim Societies in African History David Robinson, 2004-01-12

Examining a series of processes (Islamization, Arabization, Africanization) and case studies from North, West and East Africa, this book gives snapshots of Muslim societies in Africa over the last millennium. In contrast to traditions which suggest that Islam did not take root in Africa, author David Robinson shows the complex struggles of Muslims in the Muslim state of Morocco and in the Hausaland region of Nigeria. He portrays the ways in which Islam was practiced in the 'pagan' societies of Ashanti (Ghana) and Buganda (Uganda) and in the ostensibly Christian state of Ethiopia - beginning with the first emigration of Muslims from Mecca in 615 CE, well before the foundational hijra to Medina in 622. He concludes with chapters on the Mahdi and Khalifa of the Sudan and the Murid Sufi movement that originated in Senegal, and reflections in the wake of the events of September 11, 2001.

khadijah aisha book: Muslim Women and Gender Justice Dina El Omari, Juliane Hammer, Mouhanad Khorchide, 2019-09-20 This volume brings together the work of a group of Islamic studies scholars from across the globe. They discuss how past and present Muslim women have participated in the struggle for gender justice in Muslim communities and around the world. The essays demonstrate a diversity of methodological approaches, religious and secular sources, and theoretical frameworks for understanding Muslim negotiations of gender norms and practices. Part I (Concepts) puts into conversation women scholars who define Muslima theology and Islamic feminism vis-à-vis secular notions of gender diversity and discuss the deployment of the oppression of Muslim women as a hegemonic imperialist strategy. The chapters in Part II (Sources) engage with the Qur'an, hadith, and sunna as religious sources to be examined and reinterpreted in the quest for gender justice as God's will and the example of the Prophet Muhammad. In Part III (Histories), contributors search for Muslim women's agency as scholars, thinkers, and activists from the early period of Islam to the present - from Southeast Asia to North America. Representing a transnational and cross-generational conversation, this work will be a key resource to students and scholars interested in the history of Islamic feminism, Muslim women, gender justice, and Islam.

khadijah aisha book: *From MTV to Mecca* by Merezo Books Kristiane Backer, 2016 In the early 1990's Kristiane Backer was one of the very first presenters of MTV Europe. For some years she lived and breathed the international music scene, quickly gaining a cult following amongst viewers and becoming a darling of European press. As she reached the pinnacle of her success she realised that, despite having all she could have wished for, she was never truly satisfied. Something very important was missing. A fateful meeting with Pakistani cricket hero Imran Khan changed her life. He invited her to his country where she encountered a completely different world from the one she knew, the religion and culture of Islam. Instead of pop and rock stars she was meeting men and women whose lives were dominated by the love of God and who cared very little for the brief glories of this world. She began to read the Quran and to study books about the Faith. A few years later, after travelling more widely in the Islamic world and knowing that she had discovered her spiritual path, she embraced Islam in a London mosque. And then her real adventures began. In this very personal memoir Kristiane Backer tells the story of her conversion and explains how faith, despite the many challenges she faced, has given her inner peace and the meaning she sought.

khadijah aisha book: The Weekly Khutbah Volume 1: 2013-2014 Saiyan Islam, 2016-02-06 Every week Friday comes and for us Muslims, Friday is very crucial in the sense we have our Jumma prayers. Along with the Jumma prayers we have our weekly sermons. What happens is that most of us tend to forget the sermons delivered by the Imams. So I thought of this system of writing down all the sermons so that the knowledge we gain gets preserved. Furthermore the sisters who are mostly unable to attend the Jumma prayer in many countries do not get the chance to learn from the weekly sermons. The males can easily record their learning and teach the women at their home. All the sermons are from the Imams from the Masjids I attend weekly and the Hadiths mentioned are from their own sermons. Sometimes the Imams may tend to refer to weak Hadiths, I have tried my best to classify them as much as possible. May Allah have mercy upon us all and may

we get guided to the Straight Path, Ameen.

khadijah aisha book: The Challenge of Modernizing Islam Christine Douglass-Williams, 2019-01-15 The entire foreign policy and much of the domestic policy of the United States and other Western governments is based on the proposition that the vast majority of Muslims are moderate and peaceful, including those who are emigrating in large numbers to Europe and North America. But as Islamist groups and many mosques radicalize peaceful Muslims and appeal to the teachings of the Koran, Hadith, and Sunnah, it is imperative for moderates and reformists to articulate a vision of Islam and an exegesis of Islamic texts that can withstand the challenge of Islamists and the ulema who have declared the sanctity and immutability of the text. Instead, they must reestablish a firm foundation of Islam that is modernized, genuinely peaceful, tolerant, pluralistic, and compatible with secular governance, the freedom of speech, human rights, and equality. The Challenge of Modernizing Islam is the first major effort to provide that foundation. Veteran journalist Christine Douglass-Williams interviews foremost moderate and reformist Muslims in the Western world. She asks them tough questions about how they deal with problematic Koran passages, how they intend to get their message across to the Muslim world, and more. Their answers are revelatory, even in the ways in which they disagree with one another. Douglass-Williams has captured the Islamic Reformist movement in its full intellectual ferment, laying bare the tensions and triumphs of the Reformers. In the book's second half, she adds a crucial series of searingly honest and illuminating reflections on the challenges the reformers face, the chances they have of succeeding, and the implications of their struggle for the future of the Western world and of all free people. Illuminating, engaging, and thought-provoking, The Challenge of Modernizing Islam is an essential text for understanding the future of the United States and the West, and the implications of Muslim moderates' struggle for the free world.

khadijah aisha book: Novel Subjects Leah A. Milne, 2021-07-01 How does contemporary literature contend with the power and responsibility of authorship, particularly when considering marginalized groups? How have the works of multiethnic authors challenged the notion that writing and authorship are neutral or universal? In Novel Subjects, Leah Milne offers a new way to look at multicultural literature by focusing on scenes of writing in contemporary works by authors with marginalized identities. These scenes, she argues, establish authorship as a form of radical self-care—a term we owe to Audre Lorde, who defines self-care as self-preservation and “an act of political warfare.” In engaging in this battle, the works discussed in this study confront limitations on ethnicity and nationality wrought by the institutionalization of multiculturalism. They also focus on identities whose mere presence on the cultural landscape is often perceived as vindictive or willful. Analyzing recent texts by Carmen Maria Machado, Louise Erdrich, Ruth Ozeki, Toni Morrison, and more, Milne connects works across cultures and nationalities in search of reasons for this recent trend of depicting writers as characters in multicultural texts. Her exploration uncovers fiction that embrace unacceptable or marginalized modes of storytelling—such as plagiarism, historical revisions, jokes, and lies—as well as inauthentic, invisible, and unexceptional subjects. These works ultimately reveal a shared goal of expanding the borders of belonging in ethnic and cultural groups, and thus add to the ever-evolving conversations surrounding both multicultural literature and self-care.

khadijah aisha book: Women and Islam Ibtissam Bouachrine, 2014-05-21 Muslim women of all ages, economic status, educational backgrounds, sexual orientations, and from different parts of historically Muslim countries suffer the kinds of atrocities that violate common understandings of

human rights and are normally denounced as criminal or pathological, yet these actions are sustained because they uphold some religious doctrine or some custom blessed by local traditions. Ironically, while instances of abuse meted out to women and even female children are routine, scholarship about Muslim women in the post 9/11 era has rarely focused attention on them, preferring to speak of women's agency and resistance. Too few scholars are willing to tell the complicated, and at times harrowing, stories of Muslim women's lives. *Women and Islam: Myths, Apologies, and the Limits of Feminist Critique* radically rethinks the celebratory discourse constructed around Muslim women's resistance. It shows instead the limits of such resistance and the restricted agency given women within Islamic societies. The book does not center on a single historical period. Rather, it is organized as a response to five questions that have been central to upholding the 'resistance discourse': What is the impact of the myth of al-Andalus on a feminist critique? What is the feminist utility of Edward Said's theory of Orientalism? Is Islam compatible with a feminist agenda? To what extent can Islamic institutions, such as the veil, be liberating for women? Will the current Arab uprisings yield significant change for Muslim women? Through examination of these core questions, Bouachrine calls for a shift in the paradigm of discourse about feminism in the Muslim world. Cover images provided by Tachfine Bouachrine.

khadijah aisha book: *Transitional Justice, Judicial Accountability and the Rule of Law* Hakeem O. Yusuf, 2010-04-29 *Transitional Justice, Judicial Accountability and the Rule of Law* addresses the importance of judicial accountability in transitional justice processes. Despite a general consensus that the judiciary plays an important role in contemporary governance, accountability for the judicial role in formerly authoritarian societies remains largely elided and under-researched. Hakeem O. Yusuf argues that the purview of transitional justice mechanisms should, as a matter of policy, be extended to scrutiny of the judicial role in the past. Through a critical comparative approach that cuts through the transitioning experiences of post-authoritarian and post-conflict polities in Latin America, Asia, Europe and Africa, the book focuses specifically on Nigeria. It demonstrates that public accountability of the judiciary through the mechanism of a truth-seeking process is a necessary component in securing comprehensive accountability for the judicial role in the past. *Transitional Justice, Judicial Accountability and the Rule of Law* further shows that an across-the-board transformation of state institutions – an important aspiration of transitional processes – is virtually impossible without incorporating the third branch of government, the judiciary, into the accountability process.

khadijah aisha book: *A COLLECTION OF PLAYS* Gün Gencer,

khadijah aisha book: *Soundtrack to a Movement* Richard Brent Turner, 2021-04-27
FINALIST for the 2022 PROSE Award in Music & the Performing Arts **Certificate of Merit, Best Historical Research on Recorded Jazz, given by the 2022 Association for Recorded Sounds Collection Awards for Excellence in Historical Sound Research** Explores how jazz helped propel the rise of African American Islam during the era of global Black liberation Amid the social change and liberation of the civil rights and Black Power movements, the tenor saxophonist Archie Shepp recorded a tribute to Malcolm X's emancipatory political consciousness. Shepp saw similarities between his revolutionary hero and John Coltrane, one of the most influential jazz musicians of the era. Later, the esteemed trumpeter Miles Davis echoed Shepp's sentiment, recognizing that Coltrane's music represented the very passion, rage, rebellion, and love that Malcolm X preached. *Soundtrack to a Movement* examines the link between the revolutionary Black Islam of the post-WWII generation and jazz music. It argues that from the late 1940s and '50s through the 1970s, Islam rose in prominence among African Americans in part because of the embrace of the religion

among jazz musicians. The book demonstrates that the values that Islam and jazz shared—Black affirmation, freedom, and self-determination—were key to the growth of African American Islamic communities, and that it was jazz musicians who led the way in shaping encounters with Islam as they developed a Black Atlantic “cool” that shaped both Black religion and jazz styles. Soundtrack to a Movement demonstrates how by expressing their values through the rejection of systemic racism, the construction of Black notions of masculinity and femininity, and the development of an African American religious internationalism, both jazz musicians and Black Muslims engaged with a global Black consciousness and interconnected resistance movements in the African diaspora and Africa.

khadijah aisha book: Shifting Allegiances: Networks of Kinship and of Faith Isabel Moyra Dale, 2016-07-13 What happens when Muslim women gather together at the mosque to read the Qur'an, learn, and pray? How does family loyalty interact with mosque attendance for women? This book explores the growing Muslim women's piety movement through looking at one women's program in a Syrian suburban mosque. Community models shape individual behavior. The place and power of blessing help define the boundaries between orthodox and popular Islam. Modesty and shame, feasts and fasting, purity and prayer, interact to shape daily life possibilities for women involved in the mosque program. At the same time, the growing accessibility of religious teaching for women allows them to take up new places of authority in the Muslim ummah. Women read the Qur'an not just for blessing, but for what it has to say to issues of daily female and family life. And the words of communal dhikr devotion offer a window into the worshippers' consciousness of God and of Muhammad, Prophet of Islam. This detailed examination of a women's mosque program places it within the wider contemporary movement of piety and da'wa (mission) in Islam, offering an insight into the forces that are shaping communities and countries today.

khadijah aisha book: The Blasphemer Waleed Al-Husseini, 2017-05-09 The Infuriating Tale Of A Young Palestinian Punished For Exercising His Freedom Of Speech. Like many of his generation, Waleed Al-Husseini began a blog in his twenties. However, unlike many, Waleed also had the misfortune of having been a blogger in Palestine; worse yet, he often criticized Islam and its adherents—and declared himself an apostate—in his writings. The Palestinian Authority did not take well to this and eventually put Waleed in jail without a trial or even a wisp of legal justification. As if this was not bad enough, they placed Waleed in solitary confinement. This state of affairs continued for 11 months. Over the course of this time, Waleed was tortured and suffered innumerable indignities and deprivations simply for having the audacity to speak his mind. Eventually his unjust imprisonment began to draw international attention from foreign governments and human rights organizations, which pressured the Palestinian Authority and finally forced it to provide him a trial and parole. After being paroled, Waleed fled Palestine, first to Jordan and then to France, where he has become an outspoken advocate for freedom of speech and a critic of the state of contemporary Islam. The Blasphemer is a sobering, impassioned recounting of this Kafkaesque experience as well as a searing polemic against the corruption and hypocrisy that define contemporary Palestine.

khadijah aisha book: Christ, Muhammad and I Muḥammad Ghāzūlī, 2007-04 Mohammad Al Ghazoli was raised a Muslim. But the more he read the ancient literature of Islam, the more convinced he became that Allah could not be the True God. And the more he studied the life of Muhammad, the more obvious it became that Muhammad was not God's prophet. Then one day, someone placed a Bible in his hands and said, Read. Soon Ghazoli had found the True God, and forgiveness through His Son. This book isn't just Ghazoli's testimony. It is much more than that. It contains the facts from the literature of Islam that shows why Allah can't possibly be the True God. It gives proof from Islam itself that whenever Muhammad wanted more wives, or riches, or when he had a problem, Gabriel was always standing by, ready to give another verse to exempt Muhammad from the law and morality. How convenient! Many of the stories in the book will be unfamiliar to the Western reader, but very familiar to Muslims. It is this inside view of things that makes the book so

powerful as a witnessing tool for Muslims. Over and over again, Ghazoli asks, Is this the behavior of a prophet who was sent by God? What kind of god would send a prophet like that? The arguments contained in this book will give you powerful evidence you can show to Muslims you may try to witness to. Because it is written by a respected Arab writer, who was an advisor to the Arab league and even to Libyan ruler Qaddafi, you can give the book to a Muslim and tell him, Read. Learn about: The 220 contradictions in the Quran. Verses which reverse and replace prior verses. Did Allah make a mistake? The verses used to justify terrorism. Even the Quran admits Jesus was crucified! Then it denies it. Muhammad's 23 marriages, including one to a little girl.

khadijah aisha book: Unruly Souls Kristin M. Peterson, 2022-07-15 Amid growing digital activism to address gender-based violence, institutional racism, and homophobia in U.S. society, Unruly Souls explores the intersectional feminist activism among young people within Islam and Evangelical Christianity. These religious misfits—marginalized from traditional religious spaces due to their sexuality, gender, or race—employ the creative tactics of digital media in their work to seek justice and to display their fundamental equality in the eyes of God. Through an analysis of various digital projects from hip-hop music videos and Instagram accounts to Twitter hashtags and podcasts, Kristin Peterson argues that the hybrid, flexible, playful, and sensory nature of digital media facilitate intersectional feminist activism within and beyond religious communities. Drawing on work from queer theory, decolonial theory, and Black feminist theory, this study explores how those who have been marginalized are able to effectively deploy their disregarded status along with digital media tactics to cultivate empathetic communities for those recovering from religious trauma.
