margaret brennan cnn: Trump and His Generals Peter Bergen, 2019-12-10 From one of America's preeminent national security journalists, an explosive, news-breaking account of Donald

Trump's collision with the American national security establishment, and with the world It is a simple fact that no president in American history brought less foreign policy experience to the White House than Donald J. Trump. The real estate developer from Queens promised to bring his brash, zero-sum swagger to bear to cut through America's most complex national security issues, and he did. If the cost of his America First agenda was bulldozing the edifice of foreign alliances that had been carefully tended by every president from Truman to Obama, then so be it. It was clear from the first that Trump's inclinations were radically more blunt force than his predecessors'. When briefed by the Pentagon on Iran and the Strait of Hormuz, he exclaimed, The next time Iran sends its boats into the Strait: blow them out of the water! Let's get Mad Dog on this. When told that the capital of South Korea, Seoul, was so close to the North Korean border that millions of people would likely die in the first hours of any all-out war, Trump had a bold response, They have to move. The officials in the Oval Office weren't sure if he was joking. He raised his voice. They have to move! Very quickly, it became clear to a number of people at the highest levels of government that their gravest mission was to protect America from Donald Trump. Trump and His Generals is Peter Bergen's riveting account of what happened when the unstoppable force of President Trump met the immovable object of America's national security establishment--the CIA, the State Department, and, above all, the Pentagon. If there is a real deep state in DC, it is not the FBI so much as the national security community, with its deep-rooted culture and hierarchy. The men Trump selected for his key national security positions, Jim Mattis, John Kelly, and H. R. McMaster, were products of that culture: Trump wanted generals, and he got them. Three years later, they would be gone, and the guardrails were off. From Iraq and Afghanistan to Syria and Iran, from Russia and China to North Korea and Islamist terrorism, Trump and His Generals is a brilliant reckoning with an American ship of state navigating a roiling sea of threats without a well-functioning rudder. Lucid and gripping, it brings urgently needed clarity to issues that affect the fate of us all. But clarity, unfortunately, is not the same thing as reassurance.

margaret brennan cnn: Partisan Rhetoric and Polarization Robert X. Browning, 2024-12-15 Partisan Rhetoric and Polarization: The Year in C-SPAN Archives Research, Volume 10 features chapters written from a variety of perspectives that address divisions in American politics. The topics range widely, including TikTok, abortion, the middle class, the January 6 riot, and partisan rhetoric in Congress. The unifying theme of the volume is that each author uses C-SPAN videos to examine how members of Congress and other elites speak and act on these issues. Two other thoughtful pieces examine Supreme Court justices speaking off the bench and emotional reactions in presidential debates. Partisan Rhetoric and Polarization provides context to understand how the partisan split in American politics is reflected and evidenced in even the highest political institutions: Congress, the presidency, and the Supreme Court.

margaret brennan cnn: **The Hardest Job in the World** John Dickerson, 2021-03-23 NEW YORK TIMES BESTSELLER • From the veteran political journalist and 60 Minutes correspondent, a deep dive into the history, evolution, and current state of the American presidency, and how we can make the job less impossible and more productive—featuring a new post-2020-election epilogue “This is a great gift to our sense of the actual presidency, a primer on leadership.”—Ken Burns Imagine you have just been elected president. You are now commander-in-chief, chief executive, chief diplomat, chief legislator, chief of party, chief voice of the people, first responder, chief priest, and world leader. You’re expected to fulfill your campaign promises, but you’re also expected to solve the urgent crises of the day. What’s on your to-do list? Where would you even start? What shocks aren’t you thinking about? The American presidency is in trouble. It has become overburdened, misunderstood, almost impossible to do. “The problems in the job unfolded before Donald Trump was elected, and the challenges of governing today will confront his successors,” writes John Dickerson. After all, the founders never intended for our system of checks and balances to have one superior Chief Magistrate, with Congress demoted to “the little brother who can’t keep up.” In this eye-opening book, John Dickerson writes about presidents in history such as Washington, Lincoln, FDR, and Eisenhower, and in contemporary times, from LBJ and Reagan and Bush, Obama, and Trump, to show how a complex job has been done, and why we need to reevaluate how we view the presidency, how we choose our presidents, and what we expect from them once they are in office. Think of the presidential campaign as a job interview. Are we asking the right questions? Are we looking for good campaigners, or good presidents? Once a candidate gets the job, what can they do to thrive? Drawing on research and interviews with current and former White House staffers, Dickerson defines what the job of president actually entails, identifies the things that only the president can do, and analyzes how presidents in history have managed the burden. What qualities make for a good president? Who did it well? Why did Bill Clinton call the White House “the crown jewel in the American penal system”? The presidency is a job of surprises with high stakes,

requiring vision, management skill, and an even temperament. Ultimately, in order to evaluate candidates properly for the job, we need to adjust our expectations, and be more realistic about the goals, the requirements, and the limitations of the office. As Dickerson writes, "Americans need their president to succeed, but the presidency is set up for failure. It doesn't have to be."

margaret brennan cnn: Rigged Mollie Hemingway, 2021-10-12 FROM THE AUTHOR OF THE #1 NATIONAL BESTSELLER JUSTICE ON TRIAL Stunned by the turbulence of the 2020 election, millions of Americans are asking the forbidden question: what really happened? It was a devastating triple punch. Capping their four-year campaign to destroy the Trump presidency, the media portrayed a Democratic victory as necessary and inevitable. Big Tech, wielding unprecedented powers, vaporized dissent and erased damning reports about the Biden family's corruption. And Democratic operatives, exploiting a public health crisis, shamelessly manipulated the voting process itself. Silenced and subjected, the American people lost their faith in the system. RIGGED is the definitive account of the 2020 election. Based on Mollie Hemingway's exclusive interviews with campaign officials, reporters, Supreme Court justices, and President Trump himself, it exposes the fraud and cynicism behind the Democrats' historic power-grab. Rewriting history is a specialty of the radical left, now in control of America's political and cultural heights. But they will have to contend with the determination, insight, and eloquence of Mollie Hemingway. RIGGED is a reminder for weary patriots that truth is still the most powerful weapon. The stakes for our democracy have never been higher.

margaret brennan cnn: American Muslim Perspectives on Radicalization Nahid Afrose Kabir, 2023-11-15 This book is a study of American Muslims' perspectives on Muslims who become radicalized and choose to support the Islamic State. Muslim radicalization is a global phenomenon that has affected American Muslims as it has Muslims throughout the world. In 2015, approximately 250 Americans joined the Islamic State (IS), and some still sympathize with it. Based on 51 in-depth interviews conducted in nine states from 2017 to 2021, this book offers a thematic understanding of radicalization, touching on themes such as Islamic history, Muslims' social and political identities, cultural dilemmas, radicalization outlets, mental health, media stereotypes, Islamophobia, security, and the impact of COVID-19 on radicalization. This book differs from previous scholarship on the causes of radicalization by focusing on the perspectives of non-radicalized American Muslims. While some previous scholarship has focused on Muslim radicalization in Europe, this book provides a new spectrum of views from the United States. It also offers pathways to de-radicalization. The interview data is complemented with relevant literature, analysis of media perspectives, and the author's personal observations.

margaret brennan cnn: World War C Sanjay Gupta, 2022-09-27 CNN chief medical correspondent Sanjay Gupta, MD, offers an accessible, data-packed answer to our biggest questions about Covid-19: What have we learned about this pandemic and how can we prepare for—or prevent—the next one? As America's favorite frontline Covid-19 health journalist, Dr. Sanjay Gupta has barely left his primetime seat in his makeshift studio basement since the pandemic began (other than to perform brain surgery). He's had insider access to the drama's unfolding, including exclusive conversations with the world's top public health experts and behind-the-scenes scientists racing to find treatments and cures. And now he's sharing what he's learned in a book that will answer not only all our questions about what happened, but also about how our world will change in the years

ahead, even once we're back to "normal." Gupta argues that we need to prepare for a new era where pandemics will be more frequent, and possibly even more deadly. As the doctor who's been holding America's hand through the crisis with compassion, clarity, and well-earned wisdom, he gives you the unvarnished story behind the pandemic, including insights about the novel virus's behavior, and offers practical tools to ready ourselves for what lies ahead. He answers critical questions: Can we stamp out the virus for good (and if not, how do we live with it)? Should we put our parents in a nursing home? Where should we live? What should we stockpile? What should we know before taking a trip? Does it make sense to spend more on health insurance to deal with any long-term effects? How do you decide when it's safe to go to a public pool or schedule elective surgery? What should Covid survivors know about protecting their future health? What if you become a long-hauler with chronic health challenges stemming? World War C will give you hope for the future along with real information that leaves you more resilient and secure.

margaret brennan cnn: Trump on Trial Kevin Sullivan, Mary Jordan, 2020-08-25 A compelling and masterful account, based on fresh reporting, of the investigation, impeachment, and acquittal of President Donald Trump, a ferocious political drama that challenged American democracy itself. In the spring of 2019, Speaker of the House Nancy Pelosi did not favor pursuing Trump's impeachment. Her view was: "He's just not worth it." But by September, after a whistleblower complaint suggesting that Trump had used his office for his political benefit, Pelosi decided to risk it. The impeachment inquiry led to charges of abuse of power and obstruction of Congress, a gamble that ultimately meant Trump would be the first impeached president on the ballot in US history. Pulitzer Prize-winning Washington Post reporters Kevin Sullivan and Mary Jordan have crafted a powerful, intimate narrative that concentrates on the characters as well as the dramatic events, braiding them together to provide a remarkable understanding of what happened and why. Drawing on the deep reporting of Post journalists as well as new interviews, Sullivan and Jordan deliver a crisp page-turner with exquisite detail and scenes. They put readers in the room for both sides of the now-famous phone call between Trump and Ukrainian president Volodymyr Zelensky on July 25, 2019, revealing the in-the-moment reactions of those listening to the call in Washington, as well as the tension in Kyiv, as aides passed notes to Zelensky while he was talking to Trump. Sullivan and Jordan deftly illuminate the aims and calculations of key figures. Pelosi's evolution from no to yes. Trump's mounting fury as "the I-word" became inevitable. Senate majority leader Mitch McConnell firmly telling Trump on the phone about the Senate trial: You need to trust me. Trump on Trial teems with unexpected moments. House member Elissa Slotkin, a Michigan Democrat, alone at the National Archives, walking amid the nation's founding documents, weighing her vote on impeachment. Fiery Republican congressman Matt Gaetz of Florida, a favorite Trump warrior, deciding to lead the storming of the secure room in the US Capitol basement, where witnesses were testifying. The authors paint vivid portraits of the men and women branded by the president's supporters as foes from the "deep state": Ukraine experts Fiona Hill and Lt. Col. Alexander Vindman; ambassadors Marie Yovanovitch and William Taylor. The narrative spools out amid Trump's nonstop tweeting and the infinite echo chamber of social media, which amplified both parties' messages in ways unknown during past impeachments. Sullivan and Jordan, aided by editor Steve Luxenberg, follow the story into the aftermath of Trump's acquittal and the president's payback for those whom he believed had betrayed him. The retributions took place as the nation reeled from a devastating pandemic and widespread protests about racial injustice, with another trial looming: the 2020 election.

margaret brennan cnn: *Serenity in the Storm* Kayleigh McEnany, 2023-05-02 A Wall Street Journal Bestseller As seen on Life, Liberty & Levin and Gutfeld! As heard on the Dan Bongino Show Kayleigh McEnany brings to life the key cultural and political issues of our time, from the fall of Afghanistan to the Supreme Court's abortion decision, analyzing world events through the lens of faith and providing readers with *Serenity in the Storm*. Our world, without question, is experiencing aberrational times. The ravages and life-altering realities of COVID-19 that I worked through as White House press secretary were just the start of it. What followed was a series of history-defining

events. From the fall of Afghanistan to the nationwide crime wave, we've all endured painful images of death, destruction, and chaos. Meanwhile, radical teachings on gender and race have infiltrated our nation's schools, poisoning the minds of our children—all at a time when our country feels more divided than ever before. Along with these twenty-first century realities can come a feeling of despair and discouragement. Indeed, I hear it all the time as I crisscross the country: Americans feel disheartened and seek hope. Serenity in the Storm provides that hope. Despite the challenges we face, there is cause for great optimism for men and women of faith. In Afghanistan, the underground church is thriving. On the key issues of life and liberty, the Supreme Court of the United States has delivered enormous and consequential victories. In our schools, voters have spoken unmistakably against the insidious doctrines of critical race and gender theory. There is no doubt that God is at work as He hears the prayers of the faithful! Taking a similar format to my New York Times bestselling book, *For Such a Time as This*, I analyze our domestic and international challenges through the lens of faith. Though we have lived through dark times and unsettled waters, the storms we face have prompted many great leaders to rise to the moment and have left a yearning in the human heart for a Savior, Jesus Christ, who is walking alongside us every step of the way.

margaret brennan cnn: *Hit 'Em Where It Hurts* Rachel Bitecofer, 2024-02-06 A radical, urgent plan for how the Democratic Party and its supporters can win elections at one of the most pivotal moments in the history of our nation's democracy "Bitecofer hits hard against the GOP tactics of fear and anger and the Democrats' status quo narratives around political engagement and winning elections."—Michael Steele, former RNC chair Why do Democrats fail to win voters to their side, and what can they do to develop new winning political strategies—especially as the very fate of democracy hangs in the balance in 2024? Too often the carefully constructed, rational arguments of the Left meet a grisly fate at the polls, where voters are instead swayed by Republican candidates hawking anger, fear, and resentment. Only when Democrats are handed an overwhelming motivational issue—like the Supreme Court's 2022 Dobbs decision overturning *Roe v. Wade*—have they found a way to counter this effect. Political scientist and strategist Rachel Bitecofer came to prominence after predicting the size (to the seat) of the Democrats' rare Blue Wave in the 2018 midterms. At the heart of her prediction lay a powerful concept—negative partisanship, or the idea that voters, even most so-called independents, don't vote for their candidate so much as they vote against their candidate's opponent. Seen through this lens, *Hit 'Em Where It Hurts* is a deep dive into the Republicans' own playbook, sharing how Democrats can turn the Right's own tactics against them. The way for Democrats to wage—and win—electoral war, Bitecofer writes, is to present themselves as "brand ambassadors for freedom, health, wealth, safety, and common sense," the very opposite of the extremist, freedom-fearing Right. This is a last-ditch effort to armor democracy while there is still time to save and strengthen it against hijacking by a small minority of ideologues. As America careens into the election cycle that will determine its democratic future, *Hit 'Em Where It Hurts* is the book for any Democrat who has ever banged their head against a wall when obvious reasoning failed to sway voters over to their side. This guide is a lifeline to save American democracy in its darkest hour.

Packed with new reporting, *Tired of Winning: Donald Trump and the End of the Grand Old Party* tracks Trump's improbable journey from disgraced and defeated former president to the dominant force, yet again, in the Republican Party. From his exile in Mar-a-Lago, Donald Trump has become more extreme, vengeful, and divorced from reality than he was on January 6, 2021. His meddling damaged the GOP's electoral prospects and his legal troubles were mounting. Yet he re-emerged as the frontrunner for the 2024 Republican presidential nomination, and the president-elect. Jonathan Karl has known Donald Trump since his days as a New York Post reporter in the 1990s, and he covered every day of Trump's administration as ABC News's chief White House correspondent. No one is in a better position to detail the former president's quest for retribution and provide a glimpse at what the GOP signed up for by once again choosing him as its standard bearer. In 1964, Ronald Reagan told Americans it was "a time for choosing." Sixty years later, Republicans have their own choice to make: Are they tired of winning?

margaret brennan cnn: THE END OF RACISM IN AMERICA Fredrick Douglas Richardson Jr, 2024-02-27 The book, "The End of Racism In America," traces the monster called racism, from the day "Junior" was born, in 1939, and documents thereafter, the horrendous effort put forth, for the greater part of "Junior's" life, to assure him a place in the basement of the greatest nation on the face of the earth: America. When "Junior" moved from his native Alabama rural community called Nymph, where he was one of twelve children who lived in abject poverty, he located to the big city of Mobile, AL. He soon discovered he was doomed to second class citizenship, simply based on his back skin. In fact, laws guaranteed his inability to compete with whites in any segment of society. This book will show that "Junior" overcame every obstacle intended to assure him a lifetime of second-class citizenship, and rose up to become a mighty leader, the third highest ranking elected official of the City of Mobile. You will see that "Junior" was haunted most of his life over America's false notion that he was born innately inferior to others, simply based on his black skin. You will see that "Junior" graduated from many schools of higher learning, including the University of South Alabama; while on a mission to find evidence prove to the world he was equal to any human on planet earth. After traveling the world over, becoming an avid student of the Bible, and majored in history, he is, in his book, offering to America, a foolproof formula, to end the very notion of racism in America, in his lifetime. He is 84.
