michael salla documentaries: This is why UFOs crash! Ryan Elbwood, 2025-01-22 This book is not intended for beginners on the subject, but for those who have been engaged with this topic for a longer time. It primarily addresses the question: Why have so many UFOs already crashed? and comes to a startling conclusion! It also hypothesizes that the alien attack began many decades ago and that humanity is already losing this weaponless battle! It is assumed that UFOs are indeed technical devices that, according to eyewitness accounts, can move in space, in our atmosphere, and even underwater, depending on the case. The author of this book believes people like Bob Lazar and David Grusch because he had a UFO sighting in 1993 that cannot be conventionally explained. Ryan Elbwood also presents many relevant UFO sightings and, above all, UFO crashes that most people are likely unaware of. The special feature of this book is that the conclusion of the hypothesis is entirely independent of whether aliens are actually waging war against us! Because: The enemy could also be someone else. Let yourself be surprised. The work is adorned with numerous high-quality images that appropriately support each topic and create plenty of mood and atmosphere. michael salla documentaries: Historical Dictionary of the Cold War Joseph Smith, Simon

Davis, 2017-03-15 "Cold war" was a term coined in 1945 by left-leaning British writer George Orwell to predict how powers made unconquerable by having nuclear weapons would conduct future relations. It was popularized in 1947 by American journalist Walter Lippmann amid mounting tensions between the erstwhile World War II Allies - the capitalist democracies - the United States of America and Britain - versus the Soviet Union, a communist dictatorship. As the grand alliance of the "Big Three" they had defeated Nazi Germany, its satellites and Japan in World War II but became rivals who split the world into an American-led Western "bloc" and Soviet-led Eastern "bloc." Both were secured from direct attack by arraying ever-greater nuclear and conventional forces against the other while seeking global supremacy by other means. The 45-year Cold War lasted until the Soviet Union collapsed between 1989 and 1991. This second edition of Historical Dictionary of the Cold War contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 400 cross-referenced entries on important personalities, crucial countries and peripheral conflicts, the increasingly lethal weapons systems, and the various political and military strategies. This book is an excellent resource for students, researchers, and anyone wanting to know more about this crucial period in history.

michael salla documentaries: Programmes spatiaux secrets et alliances extraterrestres tome VI Michael E. Salla, 2023-01-27T11:32:00-05:00 Le développement d'armes nucléaires a été l'une des raisons pour lesquelles les civilisations extraterrestres ont commencé à visiter la Terre à l'époque de la Seconde Guerre mondiale. Il existe à ce sujet une explication plus significative et lourde de conséquences. Pendant des décennies, la vérité n'a pas été communiquée en raison de sa nature dérangeante. C'est seulement aujourd'hui que nous en percevons une image plus nette. La Terre était devenue l'épicentre d'une guerre temporelle impliquant une future tyrannie galactique dont les origines se trouvent dans notre passé, mais qui a réémergé au début des années 1900 avec un accord secret conclu par l'Allemagne nazie avec un groupe d'extraterrestres appelés Draco-reptiliens. Après la Seconde Guerre mondiale, cet accord a abouti à l'établissement d'une colonie allemande autonome en Antarctique qui a rapidement donné naissance à une flotte dotée d'une technologie extraterrestre. Dans Fédérations galactiques, Michael Salla fait un survol des différents groupes extraterrestres et programmes spatiaux secrets impliqués dans la guerre

temporelle qui fait silencieusement rage autour de nous, à l'insu de la majeure partie de l'humanité. Il met surtout en évidence les événements actuels menant à la réalisation d'un avenir positif et passionnant, où l'humanité rejoindra à son tour la communauté galactique.

Ideas about shadowy networks that operate behind a cloak of secrecy, including real organizations like the CIA and the Mafia and imagined ones like the Illuminati, additionally provide a way for people to criticize prevailing political and economic arrangements, while for society's disadvantaged and forgotten groups, conspiracy theories make their suffering and alienation comprehensible and provide a focal point for their economic or political frustrations. These volumes detail the highly controversial and influential phenomena of conspiracies and conspiracy theories in American society. Through interpretive essays and factual accounts of various people, organizations, and ideas, the reader will gain a much greater appreciation for a set of beliefs about political scheming, covert intelligence gathering, and criminal rings that has held its grip on the minds of millions of American citizens and encouraged them to believe that the conspiracies may run deeper, and with a global reach.

michael salla documentaries: Nordic Film Cultures and Cinemas of Elsewhere Anna Westerstahl Stenport, 2019-09-27 Nordic Film Cultures and Cinemas of Elsewhere introduces a new concept to Nordic film studies as well as to other small national, transnational and world cinema traditions. Examining overlooked 'elsewheres', the book presents Nordic cinemas as international, cosmopolitan, diasporic and geographically dispersed, from their beginnings in the early silent period to their present 21st-century dynamics. Exploring both canonical works by directors like Ingmar Bergman and Lars von Trier, as well as a wide range of unknown or overlooked narratives of movement, synthesis and resistance, the book offers a new model of inquiry into a multi-varied Scandinavian cultural lineage, and into small nation and pan-regional world cinemas.

michael salla documentaries: Triumph of the Light Vidya Frazier, 2017-11-20 Story of Humanity's Enslavement and Impending Liberation If you're disturbed by the increasing chaos, disasters and violence playing out on the world stage, this book will help you understand why this is all happening. It will introduce you to a world that may sound like science fiction or conspiracy theory—but becomes a fascinating story difficult to dispute or deny, as it finally makes sense of what is happening. The story presented here is largely based on information revealed by increasing numbers of courageous whistle-blowers from within the military, intelligence communities and researchers who are speaking truths long kept secret from the public. It becomes clear that humanity has actually been controlled for thousands of years in insidious ways most people are unaware of. And that there is a battle currently being waged for humanity's liberation from this control. Triumph of the Light may lead you to question your beliefs, your conditioning, and what

you've believed to be true about the world and humanity's history. Although disturbing in many ways, what's offered here is also exciting and uplifting, as the author gives great hope for our future. It becomes clear that, even with all that is now occurring, humanity is actually on the verge of an incredible leap in consciousness into a state of much greater freedom, harmony, justice and spiritual awakening.

michael salla documentaries: Cold War James R. Arnold, Roberta Wiener, 2012-01-16 The impact of the Cold War is still being felt around the world today. This insightful single-volume reference captures the events and personalities of the era, while also inspiring critical thinking about this still-controversial period. Cold War: The Essential Reference Guide is intended to introduce students to the tensions between the Soviet Union and the United States that dominated international affairs in the second half of the 20th century. A comprehensive overview essay, plus separate essays on the causes and consequences of the conflict, will provide readers with the necessary context to understand the many facets of this complex era. The guide's expert contributors cover all of the influential people and pivotal events of the period, encompassing the United States, the Soviet Union, Europe, Southeast Asia, China, the Middle East, Latin America, and Africa from political, military, and cultural perspectives. Reference entries offer valuable insight into the leaders and conflicts that defined the Cold War, while other essays promote critical thinking about controversial and significant Cold War topics, including whether Ronald Reagan was responsible for ending the Cold War, the impact of Sputnik on the Cold War, and the significance of the Prague Spring.
