

modern dictators

modern dictators have become a significant subject of study in contemporary political science and international relations. Unlike the traditional image of dictatorships primarily rooted in the 20th century, modern dictators often employ sophisticated methods to consolidate power, control the media, and suppress opposition. These authoritarian leaders vary widely in their approaches, from overt repression to subtle manipulation of democratic institutions. Understanding the characteristics, tactics, and global impact of modern dictators is crucial for recognizing ongoing threats to democracy and human rights worldwide. This article explores the defining features of modern dictatorships, profiles notable contemporary autocrats, examines their methods of maintaining control, and discusses the international community's responses to such regimes.

- Defining Characteristics of Modern Dictators
- Notable Modern Dictators and Their Regimes
- Methods of Control and Power Consolidation
- Impact on Society and Human Rights
- International Responses to Modern Dictatorships

Defining Characteristics of Modern Dictators

Modern dictators differ from their historical counterparts in several key ways, adapting to contemporary political environments and technological advancements. While classic dictatorships were often marked by overt military coups or one-party rule, modern dictators may maintain a veneer of democracy, using elections and legal frameworks to legitimize their authority. These regimes commonly exhibit a concentration of power in a single individual or ruling clique, suppression of political opposition, restriction of free press, and systematic human rights abuses.

Authoritarianism with Democratic Facade

Many modern dictatorships maintain the appearance of democratic processes, such as holding elections, to gain domestic and international legitimacy. However, these elections are frequently manipulated through voter suppression, electoral fraud, or control over the electoral commission. This hybrid model blurs the lines between democracy and autocracy, making it more challenging to identify and confront authoritarian rule.

Use of Technology and Surveillance

Modern dictators exploit advanced technology to monitor citizens, control information, and suppress

dissent. Mass surveillance systems, internet censorship, and state-controlled media are common tools to maintain power. The digital age has empowered these regimes to track opposition figures and manipulate public opinion on a scale never before possible.

Notable Modern Dictators and Their Regimes

Several contemporary leaders exemplify the characteristics of modern dictators, each with unique approaches to governance and repression. Examining these figures offers insight into the diverse manifestations of authoritarianism today.

Vladimir Putin - Russia

Vladimir Putin has dominated Russian politics for over two decades, consolidating power through control of the media, suppression of political opposition, and manipulation of electoral processes. His regime is marked by a strong centralized power structure, extensive use of security services, and efforts to influence politics beyond Russia's borders.

Kim Jong-un - North Korea

Kim Jong-un presides over one of the most secretive and repressive regimes in the world. The North Korean dictatorship is characterized by extreme personality cult, strict control over all aspects of life, and harsh punishment for dissent. The regime's isolationism and nuclear ambitions have heightened global security concerns.

Alexander Lukashenko - Belarus

Often referred to as Europe's last dictator, Alexander Lukashenko has maintained authoritarian control over Belarus since 1994. His tactics include rigged elections, violent crackdowns on protests, and suppression of independent media. Lukashenko's regime exemplifies the persistence of autocracy in post-Soviet states.

Other Examples

- Recep Tayyip Erdoğan - Turkey
- Daniel Ortega - Nicaragua
- Bashar al-Assad - Syria
- Abdel Fattah el-Sisi - Egypt

Methods of Control and Power Consolidation

Modern dictators employ various methods to sustain their rule, often combining traditional authoritarian tactics with innovative strategies suited to the contemporary global environment.

Media Manipulation and Propaganda

State control or influence over media outlets allows modern dictators to shape public narratives, suppress critical voices, and promote their legitimacy. Propaganda campaigns often emphasize nationalism, external threats, or economic achievements to justify authoritarian measures.

Legal and Institutional Manipulation

Many modern dictators manipulate constitutions, judicial systems, and electoral laws to neutralize opposition and extend their tenure. By undermining the independence of courts and electoral bodies, they create a legal framework that perpetuates their rule under a guise of legality.

Repression and Intimidation

Despite attempts to mask authoritarianism, repression remains a cornerstone of modern dictatorships. This includes harassment, imprisonment, torture, and extrajudicial killings of political opponents, activists, and journalists. Security forces and intelligence agencies play a central role in enforcing compliance.

Co-optation and Patronage Networks

Dictators often maintain power by building networks of loyalists within the military, business elites, and political institutions. Patronage systems ensure that key figures benefit from the regime's survival, creating vested interests aligned with authoritarian rule.

Impact on Society and Human Rights

The rule of modern dictators has profound consequences on the social fabric and human rights conditions within their countries. These impacts are often severe and long-lasting.

Suppression of Political Freedoms

Modern dictatorships routinely restrict freedoms of speech, assembly, and association. Political pluralism is stifled, and opposition parties are marginalized or banned. This repression undermines democratic development and citizen participation.

Human Rights Violations

Systematic human rights abuses are common under modern dictators, including arbitrary detention, torture, and extrajudicial killings. Minority groups and dissidents are particularly vulnerable to persecution. These violations attract condemnation from international human rights organizations.

Socioeconomic Consequences

The concentration of power often leads to corruption, economic mismanagement, and inequality. While some regimes maintain economic stability through state control, the lack of transparency and accountability hinders sustainable development, exacerbating poverty and social unrest.

International Responses to Modern Dictatorships

The global community employs a variety of strategies to address the challenges posed by modern dictatorships, balancing diplomatic, economic, and legal tools.

Sanctions and Diplomatic Pressure

Countries and international organizations often impose economic sanctions and travel bans against dictatorial regimes and their leaders to signal disapproval and incentivize reforms. Diplomatic efforts may include public condemnation and support for civil society actors.

Support for Democracy and Human Rights

International aid and advocacy focus on promoting democratic institutions, independent media, and human rights defenders within authoritarian states. This support aims to empower local actors advocating for political change and accountability.

Challenges in Enforcement

Efforts to confront modern dictatorships face significant obstacles, including the regimes' resilience, support from allied states, and limitations of international law. Balancing geopolitical interests with human rights concerns often complicates coordinated action.

Summary of Strategies

- Economic sanctions targeting regime elites
- Diplomatic isolation and public denunciation
- Support for opposition movements and civil society

- International legal proceedings and accountability mechanisms

Frequently Asked Questions

What defines a modern dictator in today's political landscape?

A modern dictator is typically characterized by centralized control over government, suppression of political opposition, manipulation of elections, control over media, and often a disregard for human rights and democratic norms.

Which countries are currently considered to be ruled by modern dictators?

Countries often cited as being ruled by modern dictators include North Korea, Belarus, Syria, Turkmenistan, and Eritrea, among others where leaders maintain authoritarian control.

How do modern dictators maintain power in the digital age?

Modern dictators maintain power through surveillance technologies, internet censorship, propaganda on social media, cyber-attacks against opposition, and controlling digital communication channels.

What role does propaganda play in the rule of modern dictators?

Propaganda is crucial for modern dictators to manipulate public opinion, promote their legitimacy, discredit opponents, and maintain control over the population by controlling the narrative.

Can modern dictatorships exist without military support?

While military support often strengthens dictatorships, some modern dictators maintain power primarily through intelligence services, police forces, and political alliances without overt military backing.

How do international sanctions impact modern dictatorships?

International sanctions aim to pressure dictatorships economically and politically, sometimes weakening regimes, but they can also lead to increased nationalism and hardship for ordinary citizens without toppling the regime.

Are there examples of modern dictators peacefully transitioning power?

Peaceful transitions from modern dictatorships are rare but have occurred, often due to internal

reforms, popular uprisings, or negotiated agreements leading to democratization.

What distinguishes a modern dictator from a traditional authoritarian ruler?

Modern dictators often leverage advanced technology, media control, and sophisticated propaganda, and may maintain a facade of democratic processes, distinguishing them from traditional authoritarian rulers who relied more on overt repression.

How does the global community respond to modern dictatorships today?

The global community responds through diplomatic pressure, sanctions, support for civil society and opposition groups, and sometimes intervention, though responses vary widely depending on geopolitical interests.

Additional Resources

1. The Dictator's Handbook: Why Bad Behavior Is Almost Always Good Politics

This book by Bruce Bueno de Mesquita and Alastair Smith explores the political strategies used by dictators to gain and maintain power. It delves into the mechanics of authoritarian regimes, illustrating how leaders manipulate resources and loyalty to stay in control. The authors use a mix of political science and real-world examples to explain why dictators behave the way they do.

2. On Tyranny: Twenty Lessons from the Twentieth Century

Written by historian Timothy Snyder, this concise book provides practical advice on recognizing and resisting modern dictatorships. Drawing lessons from the rise of totalitarian regimes in the 20th century, Snyder outlines steps citizens can take to protect democracy today. The book is a call to vigilance against authoritarian tendencies in contemporary politics.

3. How to Rig an Election: Confessions of a Political Operative

This revealing memoir by Allen Raymond gives an insider's perspective on election manipulation, a tool often employed by modern dictators to maintain power. It exposes the tactics used to influence voter behavior and undermine democratic processes. The book sheds light on the dark side of political campaigns and authoritarian control.

4. Nothing to Envy: Ordinary Lives in North Korea

Barbara Demick's powerful narrative offers a rare glimpse into life under one of the world's most secretive dictatorships. Through personal stories of North Korean citizens, the book paints a vivid picture of the daily struggles and resilience under Kim Jong-il's regime. It highlights the human cost of absolute power and repression.

5. The Rise and Fall of the Third Reich

Though focused on Nazi Germany, William L. Shirer's classic work provides crucial historical context for understanding modern dictatorships. The detailed account of Adolf Hitler's ascent and collapse serves as a cautionary tale about the dangers of totalitarian rule. It remains a seminal text for studying the characteristics and consequences of dictatorship.

6. *Red Famine: Stalin's War on Ukraine*

Anne Applebaum's meticulously researched book examines Joseph Stalin's brutal policies that led to the Holodomor, a devastating famine in Ukraine. This work highlights the extent of repression and control exercised by one of history's most notorious dictators. It underscores the lethal consequences of authoritarian governance and ideological extremism.

7. *Putin's Kleptocracy: Who Owns Russia?*

Authored by Karen Dawisha, this investigative book uncovers the corruption and power consolidation under Vladimir Putin's rule. It details how Putin and his inner circle transformed Russia into a kleptocratic state, blending authoritarianism with organized crime. The book provides insight into modern dictatorship through the lens of contemporary Russia.

8. *Inside Rebellion: The Politics of Insurgent Violence*

Though not exclusively about dictators, this book by Jeremy M. Weinstein sheds light on the conditions that foster authoritarian regimes and insurgencies. It analyzes the motivations behind violent rebellions and how dictators respond to threats against their rule. The work offers a broader understanding of the political dynamics surrounding modern dictatorships.

9. *Bloodlands: Europe Between Hitler and Stalin*

Timothy Snyder's harrowing history covers the mass atrocities committed by two of the 20th century's most infamous dictators. The book focuses on the geographic region where Nazi and Soviet policies caused immense suffering and death. It provides a sobering examination of dictatorship's destructive impact on human lives.

modern dictators: Encyclopedia of Modern Dictators Frank J. Coppa, 2006 Original Scholarly Monograph

modern dictators: Modern Dictators Barry M. Rubin, 1987 This study discusses how such dictators as Qaddafi, Khomeini, Marcos, Somoza, and Castro, among others, achieved power, how they justified their rule, and how they changed the character of the U.N.

modern dictators: Dictatorship Paul Dowswell, 2005 The history of dictatorship seems to prove the accuracy of the well-known saying: 'Power tends to corrupt - and absolute power corrupts absolutely.' Many questions are answered in this fascinating account of perhaps the most controversial type of government the world has known. Ages 13+.

modern dictators: Dictators and Dictatorships Natasha M. Ezrow, Erica Frantz, 2011-02-24 Dictators and Dictatorships is a qualitative enquiry into the politics of authoritarian regimes. It argues that political outcomes in dictatorships are largely a product of leader-elite relations. Differences in the internal structure of dictatorships affect the dynamics of this relationship. This book shows how dictatorships differ from one another and the implications of these differences for political outcomes. In particular, it examines political processes in personalist, military, single-party, monarchic, and hybrid regimes. The aim of the book is to provide a clear definition of what

dictatorship means, how authoritarian politics works, and what the political consequences of dictatorship are. It discusses how authoritarianism influences a range of political outcomes, such as economic performance, international conflict, and leader and regime durability. Numerous case studies from around the world support the theory and research presented to foster a better understanding of the inner workings of authoritarian regimes. By combining theory with concrete political situations, the book will appeal to undergraduate students in comparative politics, international relations, authoritarian politics, and democratization.

modern dictators: *Systems of Government Dictatorship* Paul Dowsell, 2009 One of a series of titles aimed at Key Stage 3 readers and upwards that looks at different systems of government and discusses their origins, history and practical application in the modern world.

modern dictators: The United States and the Rise of Tyrants Lawrence E. Gelfand, John Day Tully, 2019-10-29 Nationalist dictatorships proliferated around the world during the interwar years of the 1920s and 1930s. Policymakers in Washington, D.C., reasoning that non-Communist regimes were not necessarily a threat to democracy or national interests, found it expedient to support them. People living under these governments associated the United States with their oppressors, with long-term negative consequences for U.S. policy. American policymakers were primarily concerned with fostering stability in these countries. The dictatorships, eager to maintain political order and create economic growth, looked to American corporations and bankers, whose heavy investments cemented the need to support the regimes. Through an examination of consular records in nine countries, the author describes the logistics and consequences of these relationships.

modern dictators: *Sites of the Dictators* Xosé M. Núñez Seixas, 2021-06-13 This book explores the changing evolution of memory debates on places intimately linked to the lives and deaths of different fascist, para-fascist and communist dictators in a truly transnational and comparative way. During the second decade of the twenty-first century, a number of parallel debates arose in Italy, Spain, Portugal, Albania, Austria and other European countries regarding the public management by democratic regimes of those sites of memory that were directly linked to the personal biographies of their former dictators. The ways in which each democracy deals with the dead bodies, mausoleums and birthplaces of the dictators vary considerably, although common questions occur, such as whether oblivion or re-signification is better, the risk of a posthumous cult of personality being established and the extent to which the shadow of the authoritarian past endures in these sites of memory. Using the concept of sites of the dictators, the author explains why it is so difficult to deal with some sites of memory linked to dead autocrats, as those places contribute directly or indirectly to humanizing them, making their remembrance more acceptable for the present and future generations, and discusses the potential of the Europeanization of these dark memories of the past. Exploring the imperatives of memory politics and how these are reconciled with local actors interested in exploiting the dictator's remembrance, this book will be useful reading for students and scholars of history, politics and memory studies.

modern dictators: *Dictators and Autocrats* Klaus Larres, 2021-10-31 In order to truly understand the emergence, endurance, and legacy of autocracy, this volume of engaging essays explores how autocratic power is acquired, exercised, and transferred or abruptly ended through the careers and politics of influential figures in more than 20 countries and six regions. The book looks at both traditional hard dictators, such as Hitler, Stalin, and Mao, and more modern soft or populist autocrats, who are in the process of transforming once fully democratic countries into autocratic states, including Recep Tayyip Erdoğan in Turkey, Brazilian leader Jair Bolsonaro, Rodrigo Duterte in the Philippines, Narendra Modi in India, and Viktor Orbán in Hungary. The authors touch on a wide range of autocratic and dictatorial figures in the past and present, including present-day autocrats, such as Vladimir Putin and Xi Jinping, military leaders, and democratic leaders with authoritarian aspirations. They analyze the transition of selected autocrats from democratic or benign semi-democratic systems to harsher forms of autocracy, with either quite disastrous or more successful outcomes. An ideal reader for students and scholars, as well as the general public, interested in international affairs, leadership studies, contemporary history and politics, global

studies, security studies, economics, psychology, and behavioral studies.

modern dictators: The Path to Tyranny Michael Newton, 2010-05-17 Examines how many free societies have fallen to tyranny and looks at the possibility that the United States could be next.

modern dictators: Dictatorship Richard Tames, 2008 This book discusses the system of dictatorship: how it developed as a set of ideas from its origins to the present, how it has evolved in practice, and how it benefits or harms the people who live under it.

modern dictators: The Dictators: Hitler's Germany, Stalin's Russia Richard Overy, 2006-01-17 A book of great importance; it surpasses all others in breadth and depth.--Commentary If the past century will be remembered for its tragic pairing of civilized achievement and organized destruction, at the heart of darkness may be found Hitler, Stalin, and the systems of domination they forged. Their lethal regimes murdered millions and fought a massive, deadly war. Yet their dictatorships took shape within formal constitutional structures and drew the support of the German and Russian people. In the first major historical work to analyze the two dictatorships together in depth, Richard Overy gives us an absorbing study of Hitler and Stalin, ranging from their private and public selves, their ascents to power and consolidation of absolute rule, to their waging of massive war and creation of far-flung empires of camps and prisons. The Nazi extermination camps and the vast Soviet Gulag represent the two dictatorships in their most inhuman form. Overy shows us the human and historical roots of these evils.

modern dictators: Dictatorships Hal Marcovitz, 2011-01-01 This title examines dictatorships in world history from early Rome to more modern dictatorships in France, Russia, Germany, Italy, Japan, China, North Korea, Cuba, Swaziland, and Serbia. How dictatorships work, the political systems in which they thrive, and the methods dictators use to gain and maintain control are discussed. Also covered are methods to depose dictators, and life for citizens both during and after dictatorship. Important dictators are covered, including both those of ancient civilizations such as Lucius Cornelius Sulla, and Julius Caesar, as well as more modern dictators such as Napoleon Bonaparte, Joseph Stalin, Adolf Hitler, Benito Mussolini, Fulgencio Batista, Hideki Tojo, and Mao Zedong, Kim Jung-il, Muammar al-Qaddafi, Mohammad Reza Pahlavi, Saddam Hussein, King Mswati III, Haile Selassie, Pol Pot, and Omar al-Bashir. Critics of dictatorships such as Alexander Solzhenitsyn are also introduced. Exploring World Governments is a series in Essential Library, an imprint of ABDO Publishing Company.

modern dictators: The Rise and Fall of Global Dictatorships Pasquale De Marco, 2025-07-26 In a world marred by the shadows of oppression, dictatorships have emerged as a persistent threat to human freedom and dignity. This comprehensive book delves into the complex phenomenon of dictatorships, exploring their origins, manifestations, and consequences. Through a meticulous analysis of historical and contemporary examples, the book unravels the intricate web of factors that contribute to the rise and fall of dictatorships. It examines the political, economic, social, and cultural conditions that foster the emergence of authoritarian regimes, shedding light on the strategies and tactics employed by dictators to consolidate and maintain their power. Furthermore, the book delves into the profound impact of dictatorships on societies, examining the devastating toll they take on human rights, economic development, and social progress. It exposes the systematic repression, censorship, and violence perpetrated by dictators, highlighting the resilience and courage of those who dare to resist tyranny. With a keen eye for detail, the book dissects the psychology of dictators, revealing the traits and motivations that drive their insatiable thirst for power. It explores the dark recesses of their minds, uncovering the complex interplay of personality disorders, paranoia, and megalomania that often characterize these individuals. This book is not merely an academic exploration; it is a call to action. It emphasizes the urgent need for global cooperation and solidarity in combating the scourge of dictatorship. It proposes concrete strategies for promoting democracy, human rights, and the rule of law, underscoring the importance of international pressure, economic sanctions, and diplomatic engagement. Ultimately, this book is a testament to the indomitable spirit of humanity's quest for freedom. It is a reminder that even in the darkest of times, the flame of liberty can never be extinguished. It is a clarion call for vigilance,

resilience, and unwavering commitment to the cause of justice and human dignity. If you like this book, write a review!

modern dictators: *The Dictator's Learning Curve* William J. Dobson, 2013-03-12 In this riveting anatomy of authoritarianism, acclaimed journalist William Dobson takes us inside the battle between dictators and those who would challenge their rule. Recent history has seen an incredible moment in the war between dictators and democracy—with waves of protests sweeping Syria and Yemen, and despots falling in Egypt, Tunisia, and Libya. But the Arab Spring is only the latest front in a global battle between freedom and repression, a battle that, until recently, dictators have been winning hands-down. The problem is that today's authoritarians are not like the frozen-in-time, ready-to-crack regimes of Burma and North Korea. They are ever-morphing, technologically savvy, and internationally connected, and have replaced more brutal forms of intimidation with subtle coercion. *The Dictator's Learning Curve* explains this historic moment and provides crucial insight into the fight for democracy.

modern dictators: *Dictatorship, Fascism, and Totalitarianism* Shalini Saxena, 2014-07-15 Gaining momentum in the early decades of the 20th century, a number of fascist and other authoritarian regimes could be found around the world by the 1950s. Many persist into the present day. Often led by oppressive dictators, these regimes share many characteristics, though each differ in various ways as well. This volume examines the historical trajectory of dictatorship, fascism, and totalitarianism; their characteristics; where they intersected and how they differed; and some of the individuals—including Adolf Hitler and Benito Mussolini, among many others—infamous for violently imposing their often extreme agendas.

modern dictators: *Doctrines For Dictators* Vansh Wadhawan, 2024-03-15 Dive into the annals of history and explore the evolution of dictatorship in this illuminating journey through time. In 'Doctrines for Dictators,' author Vansh Wadhawan meticulously traces the origins and development of authoritarian rule from ancient civilizations to the modern era. From the emperors of ancient Rome to the despots of the Cold War, this book delves into the intricate web of political, social, and economic factors that shaped the rise and fall of dictators across the globe. Drawing on a wealth of historical sources and expert analysis, Vansh Wadhawan provides a nuanced understanding of dictatorship, highlighting its multifaceted nature and enduring impact on societies. Through captivating narratives and insightful commentary, readers will uncover the complex dynamics of power, oppression, and resistance that define dictatorships throughout history. With its engaging prose and comprehensive scope, 'Doctrines for Dictators' offers readers a compelling exploration of one of the most enduring and consequential phenomena in human history. Whether you're a seasoned historian or a curious reader eager to understand the forces that shape our world, this book is sure to captivate and enlighten.

modern dictators: *Politics from A to Z* Richard Ganis, 2015-10-30 Deepen your understanding of how politics work, and why they matter, with this timely guide. *Politics from A to Z* provides an up-to-date, thoroughly researched glossary of political topics spanning ancient Greece to contemporary America. Featuring an introductory interview with Noam Chomsky, *Politics from A to Z* is ideal for anyone interested in politics, from beginners to scholars. With detailed entries, visual references, and useful timelines, *Politics from A to Z* introduces the influential figures and ideas that have shaped politics, from the American Revolution to Zionism.

modern dictators: *Illustrious Immigrants: The Intellectual Migration from Europe, 1930-41* Laura Fermi, 2021-10-09 "Migration from Europe has occurred without interruption since the time America was discovered. There have always been some intellectuals, educated abroad, whose presence and work enriched our culture. Laura Fermi, however, analyzes a new and unique phenomenon in the history of immigration, the wave of intellectuals from continental Europe that from 1930 to 1941 brought to these shores well over 20,000 professional refugees. Most immigrant intellectuals were pushed out of the European continent by the dictatorships of that period; they were 'the men and women who came to America fully made, with their Ph.D.'s or diplomas from art academies or music conservatories in their pocket, and who continue to engage in intellectual

pursuits in this country.' Among them we find Franz Alexander, Bruno Bettelheim, Enrico Fermi, Hannah Arendt, Albert Einstein, Igor Stravinsky, John von Neumann, Paul Tillich and a long sequence of Nobel Prize winners and exceptional scholars. Their contribution to American life continues to the present. Working with a sample of about 1,900 names and relying on personal contacts, interviews, memoirs, newspaper accounts, obituaries, and similar sources, Mrs. Fermi succeeds in conveying the significance of the intellectual immigration and the areas of its impact on America. She describes the personal trials and the successes of these persons caught up in the web of persecution and peregrinations leading to higher institutions of learning in the United States... the delightful style of the book, the new light it throws on the period studied from a participant observer's position, and the insight it brings forth concerning the mutual enrichment of American and European intellectual communities make it enjoyable and instructive reading." — Silvano M. Tomasi, *The International Migration Review* "Illustrious Immigrants is an honest and informative book; it is well-organized, well-informed, well-balanced... crammed with information, with illuminating anecdotes, often moving incidents and revealing statistics." — Peter Gay, *The New York Times* "[R]ich in personal anecdote and communication which make delightful reading... in so many ways a splendid and useful book, tackling with imagination, industry, and a rare combination of personal concern and emotional detachment a subject that would frighten — indeed thus far has frightened — professional social historians by its magnitude and complexity." — Alice Kimball Smith, *Science* "[Laura Fermi has] made an effort to bring together materials that exist nowhere else and to juxtapose them so as to reveal patterns that would otherwise be invisible. For this, we should be grateful... Mrs Fermi's work is earnest and responsible." — Harriet Zuckerman, *Physics Today* "[Laura Fermi is] an immensely knowledgeable, discerning, and unpretentious guide to the influx [of the intellectual migration from Fascist Europe], as well as a personal example of its lustrous quality... this engaging book... will prove to be indispensable to all students of transatlantic interactions." — Cushing Strout, *The Annals of the American Academy of Political and Social Science* "This is an optimistic book, a contribution to a singular chapter in the history of American science and learning." — Philip Morrison, *Scientific American*

modern dictators: How to Be a Dictator Mikal Hem, 2017-06-06 A Tongue-in-Cheek Guide to Becoming a Dictator, Based on the Outrageous, Scandalous, and Excessive Behavior of Dictators Past and Present Who hasn't dreamed of one day ruling your own country? Along with great power comes unlimited influence, control, admiration, and often wealth. *How to Be a Dictator* will teach you the tricks of the trade—how to rise to the top and stay in power, and how to enjoy the fruits of your excellence. Featuring examples from the most successful leaders and regimes in the business, including Kim Jong Il, Robert Mugabe, Muammar Gaddafi, Nicolae Ceausescu, François "Papa Doc" Duvalier, and many others, this handy guide offers ten easy lessons on becoming and acting like a dictator from how to rig an election and create your own personality cult to the dos and don'ts of dictator fashion. Other topics include: how to become wealthy and spend your fortune, sleeping around, expressing your literary genius, and how to avoid being toppled, exiled, and or meeting any other dismal end. Combining black humor with political insights, *How to Be a Dictator* is peppered with horrifying and hilarious stories from some of the most eccentric modern world leaders.

modern dictators: How Politics Works DK, 2022-06-21 A jargon-free, highly visual e-guide to every aspect of politics, from political philosophy to 21st-century activism. Discover everything you need to know about political history and thought, and the inner workings of governments around the world with this unique graphic guide. Combining clear, jargon-free language and bold, eye-catching graphics, *How Politics Works* is a comprehensive and user-friendly e-guide to all aspects of politics. Covering everything from political theory to methods of government, the ebook presents the ideas and theories of key political philosophers, leaders, movements, and activists in a uniquely visual and easy-to-understand way. Explaining political ideas on a conceptual level, entries explore how they apply to governments, movements, and trends throughout history, along with 21st-century examples such as the Feminist movement and #BlackLivesMatter. The ebook also shows how political history is affected by economics, sociology, and the role of the media—an ever-relevant issue in the age of

fake news and cancel culture, and the current distrust of the economic forces behind certain areas of the media. With its unique graphic approach and clear, authoritative text, How Politics Works is the perfect introduction to the subject, and an ideal companion title to DK's The Politics Book in the Big Ideas series.
