mothers day speech ideas: *A Global Standard for Reporting Conflict* Jake Lynch, 2013-09-05 A Global Standard for Reporting Conflict constructs an argument from first principles to identify what constitutes good journalism. It explores and synthesises key concepts from political and communication theory to delineate the role of journalism in public spheres. And it shows how these

concepts relate to ideas from peace research, in the form of Peace Journalism. Thinkers whose contributions are examined along the way include Michel Foucault, Johan Galtung, John Paul Lederach, Edward Herman and Noam Chomsky, Manuel Castells and Jurgen Habermas. The book argues for a critical realist approach, considering critiques of 'correspondence' theories of representation to propose an innovative conceptualisation of journalistic epistemology in which 'social truths' can be identified as the basis for the journalistic remit of factual reporting. If the world cannot be accessed as it is, then it can be assembled as agreed – so long as consensus on important meanings is kept under constant review. These propositions are tested by extensive fieldwork in four countries: Australia, the Philippines, South Africa and Mexico.

mothers day speech ideas: *Stupid, Ugly, Unlucky and RICH* Richard St John, 2005 Have you ever wondered what leads to success. Do you just need to be smart, great looking, or lucky? Richard St. John says those things don't lead to success. And he should know. He spent 10 years interviewing over 500 successful people, from Martha Stewart, to actor Russell Crowe, to DNA discoverer James Watson, to the top people in many fields. After analyzing and sorting all the information, Richard discovered the top 8 factors that are the foundation for success in any field. He also discovered that many successful people aren't especially smart, good-looking, or lucky. They're ordinary people, without special gifts, who achieve success by following the 8 factors. Richard himself is a good example. He says, I could never figure out how an ordinary guy like me succeeded in business, won top awards and became a millionaire. So I started a project to ask other people what led to their success, and it grew into a 10-year journey of discovery. The story is in Richard's new book, *Stupid, Ugly, Unlucky and RICH Spikes Guide to Success*, an easy-to-read analysis that gets beyond the clichés to distill what the world's most successful people really do have in common.

mothers day speech ideas: *Germany in the World: A Global History, 1500-2000* David Blackbourn, 2023-06-06 Brilliantly conceived and majestically written, this monumental work of European history recasts the five-hundred-year history of Germany. With *Germany in the World*, award-winning historian David Blackbourn radically revises conventional narratives of German history, demonstrating the existence of a distinctly German presence in the world centuries before its unification—and revealing a national identity far more complicated than previously imagined. Blackbourn traces Germany's evolution from the loosely bound Holy Roman Empire of 1500 to a sprawling colonial power to a twenty-first-century beacon of democracy. Viewed through a global lens, familiar landmarks of German history—the Reformation, the Revolution of 1848, the Nazi regime—are transformed, while others are unearthed and explored, as Blackbourn reveals Germany's leading role in creating modern universities and its sinister involvement in slave-trade economies. A global history for a global age, *Germany in the World* is a bold and original account that upends the idea that a nation's history should be written as though it took place entirely within that nation's borders.
