most evil people in history: *The Worst Medieval Monarchs* Phil Bradford, 2023-11-23 Stephen. John. Edward II. Richard II. Richard III. These five are widely viewed as the worst of England's medieval kings. Certainly, their reigns were not success stories. Two of these kings lost their thrones, one only avoided doing so by dying, another was killed in battle, and the remaining one had to leave his crown to his opponent. All have been seen as incompetent, their reigns blighted by civil war and conflict. They tore the realm apart, failing in the basic duty of a king to ensure peace and justice. For that, all of them paid a heavy price. As well as incompetence, some also have reputations for cruelty and villainy. More than one has been portrayed as a tyrant. The murder of family members and arbitrary executions stain their reputations. All five reigns ended in failure. As a result, the kings have been seen as failures themselves, the worst examples of medieval English kingship. They lost their reputations as well as their crowns. Yet were these five really the worst men to wear the crown of England in the Middle Ages? Or has history treated them unfairly? This book looks at the stories of their lives and reigns, all of which were dramatic and often unpredictable. It then examines how they have been seen since their deaths, the ways their reputations have been shaped across the centuries. The standards of their own age were different to our own. How these kings have been judged has changed over time, sometimes dramatically. Fiction, from Shakespeare's plays to modern films, has also played its part in creating the modern picture. Many things have created, over a long period, the negative reputations of these five. Today, they have come to number among the worst kings of English history. Is this fair, or should they be redeemed? That is the question this book sets out to answer.

most evil people in history: *Atrocities: The 100 Deadliest Episodes in Human History* Matthew White, 2011-11-07 "An amusing (really) account of the murderous ways of despots, slave traders, blundering royals, gladiators and assorted hordes."—New York Times Evangelists of human progress meet their opposite in Matthew White's epic examination of history's one hundred most violent events, or, in White's piquant phrasing, "the numbers that people want to argue about." Reaching back to the Second Persian War in 480 BCE and moving chronologically through history, White surrounds hard facts (time and place) and succinct takeaways (who usually gets the blame?) with lively military, social, and political histories.

most evil people in history: *The Great Big Book of Horrible Things* Matthew White, 2011-10-25 A compulsively readable and utterly original account of world history—from an atrocitologist's point of view. Evangelists of human progress meet their opposite in Matthew White's epic examination of history's one hundred most violent events, or, in White's piquant phrasing, the numbers that people want to argue about. Reaching back to 480 BCE's second Persian War, White moves chronologically through history to this century's war in the Congo and devotes chapters to each event, where he surrounds hard facts (time and place) and succinct takeaways (who usually gets the blame?) with lively military, social, and political histories. With the eye of a seasoned statistician, White assigns each entry a ranking based on body count, and in doing so he gives voice to the suffering of ordinary people that, inexorably, has defined every historical epoch. By turns droll, insightful, matter-of-fact, and ultimately sympathetic to those who died, *The Great Big Book of Horrible Things* gives readers a chance to reach their own conclusions while offering a stark reminder of the darkness of the human heart.

most evil people in history: *Stone Cold Souls* Gregory K. Moffatt, 2008-07-30 History's most notorious and brutal killers still enjoy fame as public fascination with their lives and their crimes continues to grow. *Stone Cold Souls* is a detailed examination of the most brutal killers in history. Moffatt does what he does best by looking at historical accounts of events, analyzing them from a psychological perspective, and presenting his assessment in captivating fashion. He examines different types of killers, offers case studies and historical context, and describes what sets these cases apart from other kinds of killings. Even in a day and age where pop culture has made serial crime a mainstay of movies and books, the depravity of the killers profiled in this work will still

shock even a desensitized reader. Men, women, and children alike have committed crimes so atrocious that it is hard to imagine that these events are not works of fiction. Moffatt examines the difficult questions that inevitably arise when one reads cases of unthinkable torture and cruelty. Why? Were these people simply evil or is it possible that, given other circumstances, they could have redirected their energies into more productive outlets? The author answers these questions and others and reveals the lives and crimes of these ruthless killers. *Stone Cold Souls* features such well-known cases as: Andrei Chikatilo, Marc Dutroux, Herman Webster Mudgett, Charles Ng, Leonard Lake, Lawrence Bittaker, Roy Norris, Ed Gein, Edmund Kemper, Henry Lee Lucas, Gilles de Rais, Ivan the Terrible, Richard Ramirez, Holly Ann Harvey, Sandy Ketchum, Mary Bell, Jesse Pomeroy, Josef Mengele, Marshall Applewhite, Jeffrey Lundgren, David Koresh, Jim Jones, Father Oliver O'Grady, Charles Cullin, Harold Shipman, Michael Swango, Myra Hindley, Karla Homolka, Aileen Carol Lee Wuornos, Elizabeth Bathory, Charles Sobhraj, Albert Fish, Donald Harvey, and Dennis Rader.

most evil people in history: *Earth Day* John McConnell, 2011-07-22 After a half-century of activism, John McConnell, the true founder of Earth Day, here relates his global promotion of peace, justice, and Earth care. Following the Kennedy assassination, McConnell's Minute for Peace gained worldwide attention. This led to his Earth Day and other initiatives aimed at promoting people and planet. In this book, he shares the views that garnered support during the environmental movement from 1969 onward, and that have inspired followers for forty years at annual Earth Day ceremonies at the UN and cities across the globe. John McConnell coined the term Earth Day in 1968, proposed its celebration on the spring equinox to the City of San Francisco in October 1969, and announced it in November at a UNESCO Conference. The City responded by hosting the first Earth Day on March 21, 1970. Margaret Mead, UN Secretary-General U Thant, President Ford, and thirty-three Nobel laureates supported McConnell's Earth Day, and thirty-six worldwide dignitaries signed McConnell's Earth Day Proclamation, supporting Earth Day on the spring equinox, an annual planetary holiday linking people everywhere without regard to politics, culture, national border, or religion. In 1957, after Sputnik, McConnell promoted the Star of Hope, a satellite devoted to peace. This effort sparked his origination of Earth Day, the Earth Flag, Earth Trustees, and the Earth Magna Charta. He worked with UN officials and other leaders to overcome differences and build common ground for peace, aiming to ensure our planet's future and human survival. This book chronicles his global mission, his life journey, and his unique contributions toward a peaceful and cherished planet.

Journalist Khalid M. Amayreh points out the Major Contradictions in the Shiite Imami Religion in his book *My Story with the Shiites*. He says the real contentious issue between Muslims and Shiites is not Yazid or Mu'awiya, Hassan or Hussein, Fadak or al-"Zahraa's limb," the Karbulaa tragedy or the so-called Raziyaatul Khamis (Thursday's calamity), Hadithul Manzela or the Saqifa of Bani Sa'ada, or

the Ghadeer Khom event. In fact, these issues can be reduced to mere “red herrings” used by the Shiites to discredit Islam and undermine the entire Muhammadan message. This timely and eye-opening book clears up misconceptions as it tells the truth about Shiites and Shiism.

most evil people in history: The Worst People in History Aldo César das Neves Rodrigues, **most evil people in history: Bringing History to Life through Film** Kathryn Anne Morey, 2013-12-12 Whether re-creating an actual event or simply being set in a bygone era, films have long taken liberties with the truth. While some members of the audience can appreciate a movie without being distracted by historical inaccuracies, other viewers are more discerning. From revered classics like *Gone with the Wind* to recent award winners like *Argo*, Hollywood films often are taken to task for their loose adherence to the facts. But what obligation do filmmakers have to the truth when trying to create a two-hour piece of entertainment? In *Bringing History to Life through Film: The Art of Cinematic Storytelling*, Kathryn Anne Morey brings together essays that explore the controversial issue of film as a purveyor of history. Examining a range of films, including highly regarded features like *The Last of the Mohicans* and *Pan's Labyrinth*, as well as blockbuster franchises like *Pirates of the Caribbean*, chapters demonstrate that the debate surrounding the role of history on film is still as raw as ever. Organized in five sections, these essays discuss the myths and realities of history as they are portrayed on film, from “Nostalgic Utopias” to “Myths and Fairy Tales.” The fourteen chapters shed light on how films both convey and distort historical realities to capture the “essence” of the past rather than the past itself. Ultimately, they consider what role cinema plays as the quintessential historical storyteller. In addition to cinema and media studies, this book will appeal to scholars of history and fans of a wide range of cinematic genres.

most evil people in history: The Way Luca Monaco, 2015-03-12 We are both oppressed and an oppressor in this world. And this definitely has to stop! The Way enlightens us that we have to find a way to help humanity become more humane to each other and create a heaven on earth through non-inclusive principles. It's all about respect—giving and receiving it. The book speaks of liberating one's self from becoming a victim as well as freeing one's self from becoming an oppressor. Being victimized by society's laws or being oppressed by others who may be more powerful should not be a hinder to become "the bigger man." We should be an inspiration for change and be a person who finds ways for a resolution than being a part of the problem. The Way is a life-inspiring must-read book. Read on and spark humanity's hope, ignite humanity's faith, and be the change that the world needs to have.
