paul bernardo interview: The Politics of Labor in a Global Age Christopher Candland, Rudra Sil, 2001-09-20 The Politics of Labor in a Global Age is one of the first works to analyse and compare recent shifts in patterns of industrial relations across late-industrializing and post-socialist economies. The volume features original and timely essays on labor relations at national, local, and

workplace levels, as economic and political actors cope with the similar challenges associated with economic adjustment measures and the impact of 'globalization'. The authors reveal that while globalization has threatened the position of organized labor and prompted business and state elites to accommodate greater labor market flexibility, the legacies of past institutions remain evident in distinctive trends in labor politics within and across late-industrializing and post-socialist settings. The comparisons suggest that globalization is best understood not as a source of convergence but as a set of common pressures that are mediated by specific historical inheritances, that spur varied responses on the part of industrial relations actors, and that facilitate quite diverse institutional outcomes.

paul bernardo interview: Camouflaged Killer David A. Gibb, 2011-10-04 He was a perfect man living a perfect life...which made him a perfect killer. Canadian Air Force Colonel Russell Williams commanded the largest Canadian Forces base in the country. He had personally piloted prime ministers, dignitaries, and members of the British royal family, and was one of the most respected and trusted soldiers in the military. He was also a rapist and a murderer. This is the disturbing true account of how one of Canada's highest-ranking military officers became one of Canada's most notorious criminals, including his ultimate capture, trial and conviction for a twisted spree of sexual deviancy and two brutal rapes and murders.

paul bernardo interview: *Confronting Change* Huberto Juárez Núñez, Steve Babson, 1998 Autoworkers find themselves in a rapidly changing world as transnational corporations seek new forms of work organization and new boundaries for a North American auto industry. Inside the factory, management pursues new models of lean production that require workers to produce more with less—less time, less support, less material—in an atmosphere of accelerated and intensified labor. Outside the factory, freetrade policies and regional investment strategies widen the reach of transnational corporations, creating new opportunities in Mexico, Canada, and the U.S. for pitting worker against worker in a mutually destructive competition for jobs. In *Confronting Change*, researchers from a diverse range of universities and unions explore the impact of these changes on work and workers. The case studies and analyses show the wide range of potential outcomes as workers struggle to become actors, rather than victims, in the emerging North American auto industry.

paul bernardo interview: Karla Stephen Williams, 2010-05-14 People want me in max so my life will be hard but it really isn't. There are absolutely no responsibilities here. Everything is provided. We can spend the day sleeping, sun-tanning or doing whatever we want all day every day. --Karla Homolka in a letter to author Stephen Williams Well, they say 'Never say never' and they're right, Karla wrote in her startling first letter to Stephen Williams. Never in a million years did I think I would ever write a letter to someone from the media, let alone you who has condemned me so harshly. Thus began one of the most controversial correspondences in Canadian history. Karla picks up where Williams's first book on the case, *Invisible Darkness*, left her, painting her nails in her cell in solitary confinement in the gothic tower of Kingston's Prison for Women. After testifying against her ex-husband in 1995, Karla's life in prison was soon going to take a very different, dramatic turn. With a thriller's pace, *Karla: A Pact with the Devil* charts the inner life of the world's most notorious female prisoner. In *Karla*, Williams lets Karla and the other key players speak for themselves. And what they have to say will surprise, horrify and enlighten.

paul bernardo interview: Female Serial Killers Peter Vronsky, 2007-08-07 In this fascinating book, Peter Vronsky exposes and investigates the phenomenon of women who kill—and the political, economic, social and sexual implications buried with each victim. How many of us are even remotely prepared to imagine our mothers, daughters, sisters or grandmothers as fiendish killers? For

centuries we have been conditioned to think of serial murderers and psychopathic predators as men—with women registering low on our paranoia radar. Perhaps that's why so many trusting husbands, lovers, family friends, and children have fallen prey to "the female monster." From history's earliest recorded cases of homicidal females to Irma Grese, the Nazi Beast of Belsen, from Britain's notorious child-slayer Myra Hindley to 'Honeymoon Killer' Martha Beck to the sensational cult of Aileen Wournos—the first female serial killer-as-celebrity—to cult killers, homicidal missionaries, and our pop-culture fascination with the sexy femme fatale, Vronsky not only challenges our ordinary standards of good and evil but also defies our basic accepted perceptions of gender role and identity. paul bernardo interview: killing for culture David Kerekes, David Slater, 2016-06-03 Unlike images of sex, which were clandestine and screened only in private, images of death were made public from the onset of cinema. The father of the modern age, Thomas Edison, fed the appetite for this material with staged executions on film. Little over a century later the executions are real and the world is aghast at brutalities freely available online at the click of a button. Some of these films are created by lone individuals using shaky camera phones: Luka Magnotta, for instance, and the teenagers known as the Dnipropetrovsk maniacs. Others are shot on high definition equipment and professionally edited by organized groups, such as the militant extremists ISIS. KILLING FOR CULTURE explores these images of death and violence, and the human obsession with looking — and not looking — at them. Beginning with the mythology of the so-called 'snuff' film and its evolution through popular culture, this book traces death and the artifice of death in the 'mondo' documentaries that emerged in the 1960s, and later the faux snuff pornography that found an

audience through Necrobabes and similar websites. However, it is when videos depicting the murders of Daniel Pearl and Nick Berg surfaced in the 2000s that an era of genuine atrocity commenced, one that has irrevocably changed the way in which we function as a society.

paul bernardo interview: The Enigma of a Violent Woman Jennifer M. Kilty, Sylvie Frigon, 2016-04-14 Karla Homolka has proven to be a figure of enduring interest to the public and media for the last 20 years. However, despite the widespread Canadian and international public commentary and media frenzy that has encircled this case, Homolka herself remains an enigma to most who write about her. In contrast to much of the contemporary discussion on this case, this book offers a comprehensive and detailed examination of the legal, public and media understandings and explanations of Homolka's criminality. Drawing from multiple fields of study and varied bodies of critical literature, the book uses Homolka as an object lesson to interrogate some of the narratives and conceptualizations of 'violent women', the problematic normative constructions of womanhood and 'acceptable femininity', leniency in sentencing, taboo and disgust, and questions of remorse. The authors address broad questions about how women convicted of violence are typically constructed across four sites: the courts; the academy; the mainstream media; and public discourse. This unique text is extremely important for feminist criminology and socio-legal studies, offering the first comprehensive academic effort to engage in dialogue about this important and fascinating case.

paul bernardo interview: Life Sentence Christie Blatchford, 2017-11-28 A beloved crime reporter revisits some of her biggest assignments and passes judgement on our judicial system--especially its judges. When Christie Blatchford wandered into a Toronto courtroom in 1978 for the start of the first criminal trial she would cover as a newspaper reporter, little did she know she was also at the start of a self-imposed life sentence. She has been reporting from Canadian courtrooms for the Toronto Star, The Globe and Mail and the National Post ever since. Back in '78, she loved the courts, lawyers and judges, and that persisted for many years. But slowly, surely, she suffered a loss of faith. What happened? It was at the Mike Duffy trial she had the epiphany: That judges are the new senators, unelected, unaccountable and overly entitled. Yet unlike senators, they continue to get away with it because any questioning by government or its agents is deemed an intrusion onto judicial independence. In her explosive new book, Christie Blatchford revisits trials from throughout her career and asks the hard questions--about judges playing with the truth--through editing of criminal records, whitewashing of criminal records, pre-trial rulings that kick out evidence the jury can't hear. She discusses bad or troubled judges--how and why they get picked, and what can be done about them. And shows how judges are handmaidens to the state, as in the Bernardo trial when a small-town lawyer and an intellectual writer were pursued with more vigor than Karla Homolka. For anyone interested in the political and judicial fabric of this country, Life Sentence is a remarkable, argumentative, insightful and important book.

paul bernardo interview: When Women Kill Belinda Morrissey, 2003 Based on case studies from the US, UK and Australia, this book looks at the ways in which female killers are constructed in the media, in law and in feminist discourse almost invariably as victims rather than actors in the crimes they commit.

paul bernardo interview: Innovations in Feminist Psychological Research Ellen B. Kimmel, 1999 What are the best ways to do research on the psychology of women and gender? Within feminist psychology, there is a great deal of methodological creativity and diversity. This volume highlights how familiar methods such as focus groups can be brought to bear on feminist issues. It demonstrates less common methods, such as Q-sort, phenomenological analysis, concept mapping, and discourse analysis. Moreover, it explores the role of personal values, interpersonal dynamics, and sociopolitical influences on the research process. Over 60 international contributors share insights into adolescent girls and adult women's sexuality, violence and its prevention, life patterns and narratives, the teaching-research nexus, gender and race in clinical practice, and more. Included is a comprehensive resource guide for research, publication and teaching on methodological diversity.

paul bernardo interview: The Devil You Know Elisabeth de Mariaffi, 2015-01-13 "Gripping!" —Margaret Atwood via Twitter (@MargaretAtwood) In the vein of Gillian Flynn's Sharp Objects and A.S.A. Harrison's The Silent Wife, The Devil You Know is a thrilling debut about a rookie reporter, whose memories of the murder of her childhood best friend bring danger—and a stalker—right to her doorstep. The year is 1993. Rookie crime beat reporter Evie Jones is haunted by the unsolved murder of her best friend Lianne Gagnon who was killed in 1982, back when both girls were eleven. The suspected killer, a repeat offender named Robert Cameron, was never arrested, leaving Lianne's case cold. Now twenty-one and living alone for the first time, Evie is obsessively drawn to finding out what really happened to Lianne. She leans on another childhood friend, David Patton, for help—but every clue they uncover seems to lead to an unimaginable conclusion. As she gets closer and closer to the truth, Evie becomes convinced that the killer is still at large—and that he's coming back for her. From critically acclaimed author Elisabeth de Mariaffi comes an "exceptional book...full of surprises" (Suspense Magazine) about secrets long buried and obsession that cannot be controlled.

paul bernardo interview: Il conformista (The Conformist) Chris Wagstaff, 2017-10-23 Il Conformist has mesmerised audiences by Bertolucci's mastery of the telling, the beauty of the images, the camera work, its soundtrack, and the intensity with which the characters convey powerful psychic energies. This unique European film classic deserves no less the unique perspective brought to it here by Christopher Wagstaff's expert eye.

paul bernardo interview: Homicide Joan Swart, Lee Mellor, 2016-09-19 Forensic psychology plays an increasingly important role in criminal investigations and legal decision-making. Homicide: A Forensic Psychology Casebook guides readers through the practical aspects of homicide cases across the entire criminal justice system, from the investigative process to the criminal trial process, and beyond. Each chapter contains a description and analysis of selected cases and offenders, and provides a crime narrative and offender narrative to illustrate the underlying theory and practical considerations of homicide investigations. Criminal justice students and practitioners alike will benefit from the comprehensive scope of this text. In order to ensure fair and efficient criminal justice practices in the field of forensic investigation, there is still a need for conformity and standardization of sound protocols and approaches based on improved knowledge and education. This book is part of that effort to understand homicidal behavior and offenders better in order to prevent similar crimes.
