Biographical Overview of Philipp von Bernstorff

Philipp von Bernstorff was a distinguished German diplomat known for his influential role during the early 1900s. Born into a noble family, his upbringing and education prepared him for a career in international diplomacy. His background offers insight into the social and political environment that shaped his worldview. Examining the biographical details of his birth and early life is essential to understanding philipp von bernstorff age and its relevance.

Early Life and Family Background

Philipp von Bernstorff was born into the Bernstorff family, which held a significant position within the German aristocracy. The exact birth date is recorded as June 14, 1861. His family's status provided him access to elite education and diplomatic circles, which later influenced his career trajectory. Understanding his early years helps contextualize the environment in which philipp von bernstorff age is situated.

Education and Preparation for Diplomacy

Bernstorff received rigorous academic training, focusing on law, international relations, and languages, which were typical for aristocratic diplomats of his time. This education equipped him with the skills necessary to navigate complex diplomatic negotiations. His formative years are a reflection of the era's expectations for diplomats, marking the beginning of a career where his age would often correlate with increasing responsibility.

Determining Philipp von Bernstorff Age

Philipp von Bernstorff age is a straightforward calculation based on his birth and death dates. Born on June 14, 1861, and passing away on May 15, 1939, his lifespan covered significant historical periods, including the German Empire, World War I, and the interwar years. This section provides precise details about his age at various stages of his life and career.

Exact Age at Death

Philipp von Bernstorff died in 1939, just shy of his 78th birthday. Specifically, he was 77 years old at the time of his death. This age reflects a long life that spanned major political upheavals in Europe, allowing him to witness and participate in critical diplomatic events.

Age During Key Career Milestones

Throughout his career, philipp von bernstorff age corresponded to important phases of German diplomacy:

- At age 40, he served as the German Ambassador to the United States during the critical years leading up to World War I.
- In his early 50s, he was deeply involved in diplomatic efforts during the war itself.
- By his late 70s, he had retired from public service but remained a figure of historical interest.

Philipp von Bernstorff's Career and Historical Context

The career of Philipp von Bernstorff is inseparable from the historical context of his time. His age during key moments highlights how his experience

and maturity influenced his diplomatic approach. This section examines his professional life, emphasizing how philipp von bernstorff age played a role in his effectiveness and standing.

Early Diplomatic Assignments

Bernstorff began his diplomatic career in his 20s, gaining experience in various consulates and embassies. His youthful energy combined with his aristocratic background positioned him well for rapid advancement. His philipp von bernstorff age during these early stages was marked by learning and establishing crucial connections.

Ambassadorship to the United States

Serving as the German Ambassador to the United States from 1908 to 1917, Bernstorff was in his late 40s and early 50s—a period regarded as the peak of his career. His age and experience were vital in managing complex US-German relations during the prelude to World War I. The maturity he brought to this role was instrumental in his diplomatic strategies.

Role During World War I

During the war years, Bernstorff's age and seasoned diplomatic skills were critical in navigating international tensions. His efforts in diplomacy reflected the wisdom and perspective that come with age, influencing Germany's international posture. His philipp von bernstorff age at this time was a testament to his extensive service and expertise.

Impact of Age on Diplomatic Roles

Age played a significant role in shaping Bernstorff's diplomatic career. The correlation between his age and the responsibilities he undertook demonstrates how maturity and experience are valued in international relations. This section explores the influence of philipp von bernstorff age on his diplomatic effectiveness and reputation.

Experience Gained Over Time

With each passing year, Bernstorff accumulated knowledge and insight that enhanced his diplomatic capabilities. His advancing age brought a level of gravitas and authority respected by peers and counterparts. Understanding how philipp von bernstorff age correlated with his increasing responsibilities sheds light on the typical career progression of diplomats in his era.

Perceptions of Age in Diplomacy

In the early 20th century, older diplomats were often seen as more reliable and wise. Bernstorff's age thus contributed to his credibility in negotiations and international forums. His philipp von bernstorff age was not merely a number but a symbol of his accumulated diplomatic capital.

Challenges and Advantages of Age

While age brought experience, it also presented challenges such as adapting to rapidly changing political landscapes. Bernstorff's ability to remain relevant despite these challenges is notable. This balance between the benefits and drawbacks of age is a key theme in evaluating his career.

Legacy and Lifespan Summary

Philipp von Bernstorff's age at the time of his death encapsulates a life dedicated to diplomacy during some of the most turbulent years in modern history. His longevity allowed him to contribute significantly to German foreign policy and international relations. This section summarizes his lifespan and enduring legacy.

Lifespan Overview

Born in 1861 and passing in 1939, Bernstorff lived through the rise and fall of empires, world wars, and shifting alliances. His philipp von bernstorff age of 77 years reflects a substantial period during which he influenced and witnessed major geopolitical changes.

Enduring Influence

Bernstorff's diplomatic efforts and the wisdom gained with age left a lasting imprint on German and international diplomacy. His career serves as an example of how age and experience intersect to shape historical outcomes. The study of philipp von bernstorff age provides valuable context to his role and contributions.

Summary of Key Points

- Philipp von Bernstorff was born in 1861 and died in 1939 at the age of 77.
- His age was closely linked to major phases of his diplomatic career.

- Advancing age brought increased responsibility, respect, and influence.
- He served as German Ambassador to the United States during critical pre-war years.
- His lifespan covered significant historical events shaping early 20th-century diplomacy.

philipp von bernstorff age: *The Battle for International Law* Jochen von Bernstorff, Philipp Dann, 2019-10-22 This volume provides the first comprehensive analysis of international legal debates between 1955 and 1975 related to the formal decolonization process. It is during this era, couched between classic European imperialism and a new form of US-led Western hegemony, that fundamental legal debates took place over a new international legal order for a decolonised world. The book argues that this era presents in essence a battle, a battle that was fought out in particular over the premises and principles of international law by diplomats, lawyers, and scholars. In a moment of relative weakness of European powers, 'newly independent states' and international lawyers from the South fundamentally challenged traditional Western perceptions of international legal structures engaging in fundamental controversies over a new international law. The legal outcomes of this battle have shaped the world we live in today. Contributions from a global set of authors cover contemporary debates on concepts central to the time, such as self-determination, sources and concessions, non-intervention, wars of national liberation, multinational corporations, and the law of the sea. They also discuss influential institutions, such as the United Nations, International Court of Justice, and World Bank. The volume also incorporates contemporary regional approaches to international law in the 'decolonization era' and portraits of important scholars from the Global South.

philipp von bernstorff age: *A History of All Nations: Philippon, M. The age of the European balance of power*, 1902

philipp von bernstorff age: *International Law and History* Ignacio de la Rasilla, 2021-01-21 The first contemporary historiography of international law and an essential methodological guide for researching international legal history.

philipp von bernstorff age: *Global Pandemics and International Law* Ilja Pavone, 2023-12-19 This book reviews the efficacy of Global Health Law, assessing why its legal framework based on the International Health Regulations did not represent a valid tool in the containment of modern global pandemics such as COVID-19. The book provides an introduction to the international legal framework surrounding epidemics and pandemics and the main global governance issues that have been generated by the COVID-19 outbreak. It highlights the main shortcomings of Global Health Law, while also including practical proposals to improve the WHO's mechanism to prevent and respond to future disease outbreaks, such as the New Pandemic Treaty. Emphasis is placed on what

has not worked in the international, regional and national responses to COVID-19. It is argued that the pandemic has shed light on the weaknesses of global and domestic health law. By identifying legal gaps and providing legal arguments, the book contributes to the historical and conceptual foundation as well as the practical development of international law in the new age of COVID-19, with the ultimate goal of stimulating legal reform in this vital new era. The work will be essential reading for academics, researchers and policy-makers working in International Law, Health Law, Environmental Law, Human Rights Law, Biolaw, and the Law of International Organizations.

philipp von bernstorff age: *The Oxford Handbook of International Law and Development*, 2023-11-11 Since the mid-twentieth century, 'international law' and 'international development' have become two of the most prominent secular languages through which aspirations about a better world are articulated.. They have shaped the both the treatment and self-understanding of the 'developing' world, often by positing the West as a universal model against which developing states, their citizens, and natural environments should be measured and disciplined. In recent years, however, critical scholars have investigated the deep linkages between the concept of development, the doctrines and institutions of international law, and broader projects of ordering at the international level. They have shown how the leading models de-radicalise, if not derail, initiatives to redefine development and pursue other forms of global well-being. Bringing together scholars from both the Global South and the Global North, the contributions in this Handbook invite readers to consider the limits of common normative and developmentalist assumptions. At the same time, the Handbook demonstrates how disparate but still identifiable set of ideas, imaginaries, norms, and institutional practices - related to law, development and international governance - shape today's profoundly unequal material conditions, threatening the future of human and nonhuman life on the planet. The book focuses on five distinct areas: existing disciplinary frameworks, institutions and actors, regional theatres of international law and development, competing social and economic agendas, and alternative futures. Offering a unique overview of the field of international law and development and assembling major critical, historical, and political economic insights, this Handbook is an unmissable resource for scholars of international law, international relations, development studies, and global history, as well as anyone interested in the past, present, and future of our world.

philipp von bernstorff age: *The Age of the European Balance of Power* Martin Philipppson, 1905

philipp von bernstorff age: *A World Divided* Eric D. Weitz, 2021-06 A global history of human rights in a world of nations that grant rights to some while denying them to others Once dominated by vast empires, the world is now divided into some 200 independent countries that proclaim human rights—a transformation that suggests that nations and human rights inevitably develop together. But the reality is far more problematic, as Eric Weitz shows in this compelling global history of the fate of human rights in a world of nation-states. Through vivid histories from virtually every continent, *A World Divided* describes how, since the eighteenth century, nationalists have established states that grant human rights to some people while excluding others, setting the stage for many of today's problems, from the refugee crisis to right-wing nationalism. Only the advance of international human rights will move us beyond a world divided between those who have rights and those who don't.

philipp von bernstorff age: *Democratic Multiplicity* James Tully, Keith Cherry, Fonna Forman, Jeanne Morefield, Joshua Nichols, Pablo Ouziel, David Owen, Oliver Schmidtke, 2022-08-04 Discloses the radical diversity of the field of democracy that is overlooked by mainstream political science.

philipp von bernstorff age: *Research Handbook on Critical Legal Theory* Emilios Christodoulidis, Ruth Dukes, Marco Goldoni, 2019 Critical theory, characteristically linked with the politics of theoretical engagement, covers the manifold of the connections between theory and praxis. This thought-provoking Research Handbook captures the broad range of those connections as far as legal thought is concerned and retains an emphasis both on the politics of theory, and on

the notion of theoretical engagement. The first part examines the question of definition and tracks the origins and development of critical legal theory along its European and North American trajectories. The second part looks at the thematic connections between the development of legal theory and other currents of critical thought such as; Feminism, Marxism, Critical Race Theory, varieties of post-modernism, as well as the various 'turns' (ethical, aesthetic, political) of critical legal theory. The third and final part explores particular fields of law, addressing the question how the field has been shaped by critical legal theory, or what critical approaches reveal about the field, with the clear focus on opportunities for social transformation.

philipp von bernstorff age: The Routledge Handbook of the History and Sociology of Ideas Stefanos Geroulanos, Gisèle Sapiro, 2023-09-26 The Routledge Handbook of the History and Sociology of Ideas establishes a new and comprehensive way of working in the history and sociology of ideas, in order to obviate several longstanding gaps that have prevented a fruitful interdisciplinary and international dialogues. Pushing global intellectual history forward, it uses methodological innovations in the history of concepts, gender history, imperial history, and history of normativity, many of which have emerged out of intellectual history in recent years, and it especially foregrounds the role of field theory for delimiting objects of study but also in studying transnational history and migration of persons and ideas. The chapters also explore how intellectual history crosses the study of particular domains: law, politics, economy, science, life sciences, social and human sciences, book history, literature, and emotions.

philipp von bernstorff age: *Boundaries of State, Boundaries of Rights* Tsvi Kahana, Anat Scolnicov, 2016-10-20 The book explores the various and sometimes unexpected ways in which states, human rights, and private actors intersect.

philipp von bernstorff age: Socialism and International Law , 2024-11-18 The contributions of socialist thinkers and states to the development of international law often go unrecognized. *Socialism and International Law: The Cold War and Its Legacies* explores how socialist individuals and governments from Eastern Europe, Africa, and Asia made vital contributions to international law as it is practiced today, and also brought ideas and initiatives that constituted important disruptive moments in its history. The socialist world of the 20th century was an ambiguous and fragile construct: there were clear divisions between the Soviet-led Eastern Bloc, which kept one foot in Western Eurocentric traditions, and the positions of the radical Third World, primarily post-colonial Afro-Asian states, which mounted a more fundamental challenge to the international order. Far from a monolith, the socialist world was an intricate and dynamic space, which still had many shared common understandings of global affairs and the meaning of the law within them. By examining how different state socialist ideologies, legal principles, and realpolitik affected contemporary international law frameworks, this book contests existing linear and Western-dominated histories. It considers these state socialist engagements in conversation with liberal and Western approaches and underlines the divisions that existed between versions of socialism from different regions and across the North-South divide. The legacies of socialist international law are still with us today, as are the consequences of its failure. With a focus on the Cold War and its aftermath, *Socialist International Law* features astute commentary on the history and present-day effects of socialist principles applied to international law, provided by an esteemed and diverse group of contributors from around the world.

philipp von bernstorff age: Contingency in International Law Ingo Venzke, Kevin Jon Heller, 2021-04-22 This book poses a question that is deceptive in its simplicity: could international law have been otherwise? Today, there is hardly a serious account left that would consider the path of international law to be necessary, and that would refute the possibility of a different law altogether. But behind every possibility of the past stands a reason why the law developed as it did. Only with a keen sense of why things turned out the way they did is it possible to argue about how the law could plausibly have turned out differently. The search for contingency in international law is often motivated, as it is in this volume, by a refusal to resign to the present state of affairs. By recovering past possibilities, this volume aims to inform projects of transformative legal change for the future.

The book situates that search for contingency theoretically and carries it into practice across many fields, with chapters discussing human rights and armed conflict, migrants and refugees, the sea and natural resources, foreign investments and trade. In doing so, it shows how politically charged questions about contingency have always been.

philipp von bernstorff age: Global Governance and International Cooperation Richard Falk, Augusto Lopez-Claros, 2024-03-07 The Global Governance Forum and the Global Challenges Foundation collaborate in this collection in their concern that the UN Charter and the contemporary infrastructure for international cooperation are no longer fit for purpose and lack the instruments, resources and legitimacy to address the catastrophic risks threatening our future. Twenty-eight contributors offer thoughtful proposals for reforming existing international institutions and creating new ones to build a more peaceful, prosperous and just world, covering themes such as the management of weapons of mass destruction, collective security arrangements, justice and equity in economics, human rights, migration and refugees, climate mitigation, and food security, all bearing on the health of both people and planet. The vital project of this century is building institutions that will underpin global governance in coming decades, requiring imagination, persistence, empathy, and confidence that we will find a path to enhanced mechanisms of binding international law and the resources to make that happen. The volume is essential reading for scholars and researchers on international politics and public policy and indispensable for diplomats and government agencies.

philipp von bernstorff age: Ernst Kantorowicz Robert E. Lerner, 2017-01-03 The first complete biography of an influential historian whose dramatic life intersected with many great events and thinkers of the twentieth century This is the first complete biography of Ernst Kantorowicz (1895-1963), an influential and controversial German-American intellectual whose colorful and dramatic life intersected with many of the great events and thinkers of his time. A medieval historian whose ideas exerted an influence far beyond his field, he is most famous for two books—a notoriously nationalistic 1927 biography of the Holy Roman Emperor Frederick II and *The King's Two Bodies* (1957), a classic study of medieval politics. Born into a wealthy Prussian-Jewish family, Kantorowicz fought on the Western Front in World War I, was wounded at Verdun, and earned an Iron Cross; later, he earned an Iron Crescent for service in Anatolia before an affair with a general's mistress led to Kantorowicz being sent home. After the war, he fought against Poles in his native Posen, Spartacists in Berlin, and communists in Munich. An ardent German nationalist during the Weimar period, Kantorowicz became a member of the elitist Stefan George circle, which nurtured a cult of the Secret Germany. Yet as a professor in Frankfurt after the Nazis came to power, Kantorowicz bravely spoke out against the regime before an overflowing crowd. Narrowly avoiding arrest after Kristallnacht, he fled to England and then the United States, where he joined the faculty at Berkeley, only to be fired in 1950 for refusing to sign an anticommunist "loyalty oath." From there, he "fell up the ladder" to Princeton's Institute for Advanced Study, where he stayed until his death. Drawing on many new sources, including numerous interviews and unpublished letters, Robert E. Lerner tells the story of a major intellectual whose life and times were as fascinating as his work.

philipp von bernstorff age: A History of False Hope Lori Allen, 2020-12-15 This book offers a provocative retelling of Palestinian political history through an examination of the international commissions that have investigated political violence and human rights violations. More than twenty commissions have been convened over the last century, yet no significant change has resulted from these inquiries. The findings of the very first, the 1919 King-Crane Commission, were suppressed. The Mitchell Committee, convened in the heat of the Second Intifada, urged Palestinians to listen more sympathetically to the feelings of their occupiers. And factfinders returning from a shell-shocked Gaza Strip in 2008 registered their horror at the scale of the destruction, but Gazans have continued to live under a crippling blockade. Drawing on debates in the press, previously unexamined UN reports, historical archives, and ethnographic research, Lori Allen explores six key investigative commissions over the last century. She highlights how Palestinians' persistent demands for independence have been routinely translated into the numb language of reports and resolutions.

These commissions, Allen argues, operating as technologies of liberal global governance, yield no justice—only the oppressive status quo. *A History of False Hope* issues a biting critique of the captivating allure and cold impotence of international law.

philipp von bernstorff age: Christian Bernstorff and Prussia Lawrence J. Baack, 1980

philipp von bernstorff age: The Liberal Script at the Beginning of the 21st Century

Tanja A. Börzel, Johannes Gerschewski, Michael Zürn, 2024-10-10 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations. 21st-century liberalism is being contested on multiple fronts and by a wide range of actors. To understand these challengers, it is important to have a better grasp of their common target. This book introduces the liberal script as an analytical concept that allows us to analyze and problematize liberal thinking, as well as its different components and linkages and the tensions that they produce. What happens when the pursuit of market efficiency is incompatible with social justice? It is these tensions between the different components of the liberal script that are at the heart of the challenges against it. Different societies have resolved these tensions in different ways, leading to a variety of liberal subscripts and their contestations. The volume integrates theoretical and methodological perspectives from different disciplines, including political science, sociology, law, history, philosophy, post-colonial studies, and educational science. In demonstrating the theoretical and empirical added value of using the concept of liberal script, the volume presents a multifaceted and nuanced picture of what is at stake in the challenges to liberalism in the early 21st century. This volume has emerged from research carried out as part of the Cluster of Excellence Contestations of the Liberal Script - SCRIPTS, which analyzes the contemporary controversies about liberal ideas, institutions, and practices on the national and international level from a historical, global, and comparative perspective. It connects academic expertise in the social sciences and area studies and collaborates with research institutions in all world regions. Operating since 2019 and funded by the German Research Foundation (DFG), SCRIPTS unites eight major Berlin-based research institutions: Freie Universität Berlin, the Humboldt-Universität zu Berlin, the Berlin Social Science Center (WZB), the Hertie School, the German Institute for Economic Research (DIW), the Berlin branch of the German Institute of Global and Area Studies (GIGA), the Centre for East European and International Studies (ZOIS), and the Leibniz-Zentrum Moderner Orient (ZMO).

philipp von bernstorff age: Um Tribunal Internacional para a Internet Daniel Freire e Almeida, 2019-05-13 O Doutor Daniel Freire e Almeida, com a presente obra (a sua dissertação de Doutorado em Direito pela Universidade de Coimbra), abordou o Direito da internet da melhor maneira: propondo a criação de um tribunal internacional que julgasse os diferendos surgidos no âmbito da internet. O Autor não propôs um sistema normativo – embora as suas normas se apercebam constantemente; não elencou direitos da pessoa – apesar de a pessoa ser uma presença constante: propôs um processo flexível e aderente à realidade, a intervenção de um tribunal na vida jurídica da internet. Assim se estabelecerá um diálogo permanente entre as normas jurídicas e a comunicação à velocidade da luz. Deste modo poder-se-á abordar mais eficazmente a Justiça no espaço virtual. E, como o tribunal será internacional, assume-se a globalização. A presente obra perdurará no debate ético-jurídico enquanto permanecer a internet. In Prefácio de Diogo Leite de Campos.

philipp von bernstorff age: Staatenlosigkeit Mira L. Siegelberg, 2023-03-27 Zweifelloos gehört Hannah Arendt zu den bekanntesten Deutschen, die während der NS-Herrschaft ausgebürgert wurden; sie war mehr als ein Jahrzehnt staatenlos. Doch bereits der Erste Weltkrieg und der Zerfall europäischer Imperien hatte viele Menschen ihrer Staatsbürgerschaft beraubt. Nach dem Zweiten Weltkrieg führte das Aufkommen massenhafter Staatenlosigkeit zu einer Rechtsordnung, die den Territorialstaat als grundlegende Quelle von Rechten etablierte. Die Historikerin Mira Siegelberg zeigt, wie und warum das Problem der Staatenlosigkeit zu einem neuen Verständnis der internationalen Ordnung im 20. Jahrhundert führte. Sie rekonstruiert erstmals die Geschichte dieser umstrittenen Rechtskategorie, die die Beziehungen zwischen Staaten und ihren Bürgerinnen und

Bürgern neu definierte. Im Mittelpunkt ihres Buches steht der politische und rechtliche Umgang mit Staatenlosigkeit in der internationalen Politik. Dafür untersucht sie sowohl die Praxis zwischenstaatlicher Institutionen als auch rechtstheoretische Debatten seit dem späten 19. Jahrhundert. Gegenwärtig sind ungefähr 12 Millionen Menschen auf der Welt staatenlos. Auch zu einem besseren Verständnis aktueller Probleme und Dilemmata trägt dieses originelle und brisante Buch bei.
